## SHRINER'S PARADE THE GREATEST EVER HELD IN PORTLAND

The spectacle of from sixty to seventy thousand Shriners marching last Wednesday night, with seventy bands playing along the line of march was to say the least, inspiring, creating a picture never to be forgotten by those who witnessed it, and their name was legion. They came from all parts of the state, and Portland certainly was decorated for the occasion. The Shriners of the state deserve great credit for the splendid entertainment given the visitors, and aside from the fraternal aspect of the occasion, the advertising done for the state is of immense value, and will probably result in thousands of adopted Oregonians from the east, south and north. Portland never looked better. The weather, including Wednesday night, seemed made for the occasion, and the roses were at their best.

While Portland entertained the Shriners, the Shriners surely entertained Portland, with odds favoring the Shriners.

The New Edison has many times proved its power to catch this precious and elusive soul of music. In 4,000 tone-tests, it has demonstrated its perfect realism.

Anna Case, the superb American soprano, made one of these tests on March 10, 1920, at Carnegie Hall, New York City. She sang in direct comparison with the RE-CREATION of her voice by the New Edison.
