ARGUMENT AGAINST COMPULSORY VACCINATION

The Public Protective League of Oregon is perfecting plans for a vigorous campaign on the behalf of its anti-Compulsory Vaccination Amendment to the State Constitution to be voted on in November. This Amendment was placed upon the ballot by approximately 18,000 voters of the state, and it is said that all of these names were secured by voluntary solicitors.

"The question of the efficacy of vaccination is not involved," declares the Secretary of the League, Miss Josephine Fritz, with headquarters at 323 Chamber of Commerce building, Portland. "This proposed law does not attempt to prohibit vaccination or any other form of medical treatment or to interfere with lawful quarantine. Its purpose is to prescribe, by fundamental law, that vaccination and inoculation shall not be compulsory."

"If vaccination has all the merits which are claimed for it, no compulsion should be necessary on its behalf. If, on the contrary, vaccination does protect against smallpox and is, according to many reputable authorities, not only valueless, but the cause of cancer, tuberculosis, syphilis and death, any compulsion on its behalf is criminal."

Leading authorities agree that vaccination is the cause of more deaths than smallpox.

A campaign committee has been appointed and the chairman, Mrs. C. F. Armstrong, is busy educating the voters throughout the state as to the importance of the measure and desirability of its passage.

GROWERS OFFER HIGH WAGES TO PRUNE PICKERS

Unheard of prices are being offered prune pickers, as the shortage has become acute in Clarke county. Since the recent rain pickers have refused to work and the growers are finding it practically impossible to obtain help. In some places 20 cents a box is being offered as an inducement to pickers.

Last Sunday many high school boys worked in the prune orchards, saving much fruit, but according to prune men about half the entire crop has been spoiled in the last few days.

In practically every prune district the schools have been closed in order that the children may help in harvesting the crop, though in some cases parents will not permit children to work in the rain. Growers are trying to find adults to fill the places of the youngsters.

MOTHER SEEKING MEN WHO SAW ACCIDENT

The mother of 8-year-old Bertrand Waddell, who was run over by an automobile Tuesday on Foster road between 62nd and 64th streets, is very anxious for two men who saw the accident to get in touch with her. One of the men is said to have stated that the auto driver deserves to have his license taken away.

The child was thrown from his bicycle and suffered a broken leg. He is now at the hospital. One boy who saw the accident has already gotten in touch with the mother. The men are asked to call E. L. Fraley, 520 Henry building, or phone Broadway 4874.—Daily News.

Messrs J. M. Ballet and A. E. Banister, recently from Bend have purchased the Wakefield-Moyer barber shop and have bought residences, Mr. Ballet at 86th street and 67th avenue and Mr. Banister at 66th avenue. Both gentlemen are delighted with their new location.

Fundamental Difference Between Two Schools Concerning Human Body.

By MRS. H. A. L. FISHER, Wife of British Minister of Education.

Councilor Donald Clark of Tonbridge objected to mixed bathing on aesthetic grounds. He did not think that the damsels of Tonbridge looked their best in bathing attire, and he feared lest the oversensitive youths of the city, beholding the maidens damp and disheveled, would, in consequence, abjure matrimony.

No doubt there are many people who only admire the human form when it is furthest removed from nature. But, after all, they do not represent the best or the most prominent view. It is not really on aesthetic grounds that opposition to mixed bathing is based. This plea, it is to be feared, is mainly camouflage. The fundamental difference of opinion is between those who believe, no doubt sincerely, that the human body is something which should be concealed and mentioned with adequate reserve, and those who regard it as beautiful and glorious in itself.

Closely, indeed, inseparably, allied to the first of these is the view that makes sex a shameful thing, to be referred to only in whispers, to be kept from the knowledge of the young, a secret and a mystery compounded of allurements, danger, and scurrility. It is because this view of its modifications has so long prevailed that we still have to contend with our annual 40,000 illegitimate children, our young people with lives ruined through ignorance, our children marred before birth by the sins or follies of their parents.

We want them to have beautiful and healthy bodies and to take a wholesome pride in their health and beauty. To that end we want a great extension of facilities for physical training, for games, folk dancing, singing, open-air life, sports, and certainly for swimming—one of the most health-giving of all exercises. The old-fashioned view lingers, but it is passing, and most of us hail with joy this new era, in which young men and young women meet in healthy and open companionship, believing that the right marriages will be encouraged and firm foundations laid for the happiness and prosperity of the race.

REVOLUTION IN HOUSEKEEPING AFFAIRS

"What a change, my countrymen!" The writer has been some considerable of a wonderer during his residence on this terrestrial globe the last past—never mind how many years. In his migrations from time to time, either by special request or inclination, he has found it often cheaper "to move than to pay rent." Since arriving in Lents, with many others, he has discovered it possible to rent, if so inclined; consequently, the present week, have moved into a home of our own. But referring to the previous quotation: Moving generally necessitates the putting up of stoves, stove pipes, beating carpets and one continuous darn thing after another that leads the ordinary individual to strong language and somewhat ruffled temper—at least so had been our experience several hundred times in the past. "But" once more. Do you know it is almost a pleasure to start housekeeping in Lents—especially, if you are young and giddy, like the senior members of the Herald family—everything is so different than in the "good old days of long ago." You know; they don't "beat carpets" any more. No! Smith the fellow that mixes up the type in the Herald office and bosses "Mickie" around put us on to that! He says: "Go over to the Lents Hardware Store and they have the gold darndest little machine on wheels; that'll knock the everlasting socks and all the dust out of your carpets; and at a cost of only about a year's subscription."

And, besides when you get through, the wimmen folk's won't tell you that it looks better, but 120 more strokes would help some. It's a humdinger! For once, we caught Smithy telling the truth. Then we tackled the stove pipe; and, would you believe it, all the "jints" went together with scarcely an effort; and nary a naughty word. We promised Pierce, the tinner, that we wouldn't tell where we got this particular brand of stove pipe, because he is fearful if the public learned about it and advertised business he would soon be out of stock in this line. When we had finished the pleasant task of ensembling stove pipe, "the boss" says it's time to get supper; then we struck a match and turned a little thingofamajig attached to a pipe and had the teakettle singing in less time than it used to take to split up the kindling wood. When she suggested that the teakettle needed filling, we just gave a twist to a business on another pipe and had that kettle filled before Rebecca could have found the pitcher previous to visiting the well.

To a babe, who has drank out of irrigation ditches the major part of his life; gathered buffalo chips in the bad lands of the Dakotas and lived on flap jacks and pork bosom for months at a stretch this new fangled life is a continued round of pleasure.

It will not be necessary for the writer to have urgent business down town when housecleaning comes again.

BAPTIST CHURCH NOTES

On Thursday the Baptists met and had their annual banquet, roll call, business meeting and election of officers. This year has been a prosperous one for this church. They have increased their mission offering more than 300 per cent. The debt that had been on the property for years has been paid and the mortgage burned, the church building repainted and there has been a steady growth in the congregation. Dr. Myron Haynes, Educational Director of McMinnville College will speak Sunday morning his subject will be "The Permanent in our Faith." Special music, all cordially invited.

Mecca For School Children

The various rooms in the Lents school are now full to overflowing with 22 teachers and 806 pupils. Portable houses are now being used for the overflow and soon it will be necessary to add about the largest school building in Portland and also enlarge the entirely inadequate playgrounds surrounding. The Mt. Scott district is a Mecca for the little folks, interspersed with beautiful parks and free from the congested condition of some other localities in the city we wot of.

These facts, in a manner, no doubt explains the reason for the great demand for homes in this bailiwick at the present writing.

DR. ESTHER POHL LOVEJOY

will speak at the Laurelwood M. E. church next Sunday evening at 7:30 Subject: "Making Prohibition Effective." With others the doctor will speak at the Lents Baptist church at 3 p. m., Sunday.

SIX BIRTHDAYS CELEBRATED AT ONE TIME

Last Sunday afternoon at 2 o'clock, Mrs. James Leitch gave a birthday dinner for 18 people at the Leitch home on 89th street. Six birthdays were celebrated. They all occurred within a weeks time, and four of them within two consecutive days.

The dining room was effectively decorated with festoons of purple and gold crepe paper, purple asters and golden glow. The guests of honor were Mr. and Mrs. M. B. Young and Mrs. Amelia Ashton of Dallas, Mr. and Mrs. Robert Williams of Montevilla, Mr. James Leitch and Virginia Leitch. Other guests were Mrs. M. B. Young, Billy Young, Walter Young and family, and August Risser and wife, all of Dallas; Evelyn Williams of Montavilla John Ramsey of Firland and Margaret and Katherine of Lents.

These birthday dinners have been annual affairs for nearly ten years. Mrs. Sam Allen and little daughter Dorris, of Sandy, visited with Mrs. James Leitch on the 18th.

Chas L. Proebetel purchased the residence property at 6405 95th street of Mr. D. M. McDade recently, thereby making business for several draymen. Mr. McDade was compelled to ask Attorney Arnest and C. W. Smith to vacate his premises at the earliest opportune moment. Mr. Smith necessarily was obliged to ask for his residence at 6001 90th street where Roy Da vis has been domiciled, and Mr. Davis is doing his darndest to find a place to live. Wonderful how one Sale can sometimes do to start a whole neighborhood to moving. Mr. Arnest is now located at 9133 Foster road.

Tuesday afternoon, the 21st, the Kellogg Parent-Teacher Association gave a reception in the Kellogg assembly hall at which about 75 parents met to greet the new teachers and to become acquainted with each other. 33 members were added to the P.-T. A. roll, and these largely from the mothers of the children entering school for the first time. The room which received the box of candy as a reward for having the largest representation of parents was the 1st, taught by Miss Worrell. The president, Mrs. James Welch, hopes that the activities of this year will be of the live-wire sort.

Mr. and Mrs. Wm. Taylor and Miss Taylor of Amity, were guests of Mrs. G. E. Luellen of 5706 77th street from Tuesday to Thursday of last week. Chas. Thomas, a brother of Mrs. Luellen's, was also a guest of hers on Tuesday and Wednesday.
