**Rings and Scales of Fishes.**

Several theories have been advanced to explain the rings that close examination shows on the scales of fishes. The favorite theory is that they denote the age of the fish—a ring to a year, like the rings that show the age of a tree. Ichthyologists in many European countries have made a careful study of the matter and have deemed it of enough importance to make it the subject of a report published as a British bluebook. They hold that the scales do tell with near approach to accuracy the age of salmon and herring; as to other fish they are in doubt. The Norwegians maintain that the rings bear relation merely to the length of the fish.—Youth's Companion.

## Griddle Cakes and Waffles

From the NEW ROYAL COOK BOOK

THERE is an art in making flapjack pancakes, griddle cakes or wheats, call them what you will. But it is an art very easily and quickly acquired if you follow the right recipes. The secret, of course, is Royal Baking Powder.

**Griddle Cakes**

1 1/2 cups flour  
1/2 teaspoon salt  
1/2 teaspoon Royal Baking Powder  
2 eggs  
1 1/2 cups milk  
1 tablespoon shortening

Mix and sift dry ingredients; add beaten eggs, milk and melted shortening; mix well. Bake immediately on hot griddle.

**Waffles**

2 cups flour  
4 teaspoons Royal Baking Powder  
1/2 teaspoon salt  
1 1/2 cups milk  
2 eggs  
1 tablespoon melted shortening

Sift flour, baking powder and salt together; add milk to yolks of eggs; mix thoroughly and add to dry ingredients; add melted shortening and mix in beaten whites of eggs. Bake in well-greased hot waffle iron until brown. Serve hot with maple syrup. It should take about 1 1/2 minutes to bake each waffle.
