Trunk Line Authorized Surface Water Sewer to Cost \$500,000 and Drain District

Plans on the first trunk sewer to serve the rapidly growing southeast portion of the city were completed Tuesday by the city engineer's office. This trunk sewer will cost almost \$500,000 and will take a year to build. City Engineer Laurgaard has placed the plans in the hands of Commissioner A. L. Harbur for transmission to the council.

The trunk is to traverse Foster road for thirty blocks, from Sixty-second to Ninety-second street, where it will turn south to Johnson Creek down the bed of Johnson Creek within the next two years. In the meantime drainage water will be emptied into the creek by the Foster trunk sewer. The latter will be connected to serve catch basins and general drainage only, until the Johnson Creek project is completed.

Paving will be laid along Foster Road simultaneously with the construction of the sewer system. Chief R. S. Dull of the city paving plant said Tuesday. It is planned to lay the Foster Road and to lay the first section of paving along the north side at the same time.

In connection with the foregoing, a representative of the Herald called upon several members of the community in an effort to obtain public sentiment upon the proposed improvement. From all indications, a strong remonstrance will be made; just how large a percentage of property owners will participate in it is a matter of conjecture, but some of the older residents of Lents will undoubtedly be heard in opposition after the notices have been posted.

Committee Registers Protest On Thursday morning, February 10, a representative committee from the Arleta and Millard avenue districts visited Commissioner Harbur in the city engineer's office to protest against the proposed plan to lay the Foster trunk sewer through the Johnson Creek project.

When one of those in favor of the project, who is also a property owner in the district to be improved was approached for his views, he took the position that the contemplated sewer was a step forward that is necessary to get the Arleta and Lents sections out of the mud they have wallowed in for years.

Margaret Leitch Is Winner This Week

Takes \$5.00 Prize With Total of 79,450 Votes--Others Are Working Hard and Will Show Later

A grand total of 79,450 votes was turned in by Margaret Leitch, the little Lents girl, in the contest for the home contest this week and it easily served to win the \$5.00 prize for her, as well as put her in the lead for grand prizes at the finish. Of the five weekly prizes awarded to date, Margaret has won two, Clarence O'Neil two and Mrs. Rainey one. The latter, however, is unable to devote any time to it and has dropped out.

Interest is steadily rising in this opportunity to pick up a substantial amount of extra money, and from inside information the Herald contest manager has, it is safe to say the leaders will not have things their own way in the future. There are two or three others quietly working with the determination to win and it will not be long before they get in with a splash.

The Arleta field is practically untouchable. Some one or two of the contestants, now in or about to enter, will have a fine opportunity to organize the district for the collection of coupons and the securing of subscriptions, and when they do, you Lents workers look out!

Boulevards Are Planned

Commissioner Pier Advocates Highway System to Touch Lents

An extensive system of municipal boulevards, which eventually will represent an expenditure of more than \$20,000,000, is visualized by S. C. Pier, commissioner of finance, who laid his plan before a joint meeting of city council and representative citizens on Thursday morning.

The boulevard plan, as expounded by Pier, would make Portland one of the wonder cities of the world. He hopes to finance his project largely through gifts from public-spirited citizens, who he believes will pour millions into boulevards to develop the city properly.

Commissioner Pier hopes to have a large portion of the system completed by 1925 for the Atlantic-Pacific Highways and Electrical exposition to be held there then.

An inner system along the Willamette river and an outer system skirting the city limits are provided for in the project. He plans to have the elaborate improvement accomplished with no increase in the tax levy.

The first work, as planned by Pier and other proponents of the plan, would be on the west side of the Willamette river. A scenic roadway along the west shore of the river from Oswego to Portland, winding among the hills to the Skyline boulevard, is one of the first developments planned.

One of the main boulevards on the east side would follow the banks of Johnson Creek from the Willamette river to Lents. Others planned would encircle and bisect the east and west sides of the river in much the same way as outlined by Cheney for the city planning commission.

Development of land now inaccessible, is also counted on to finance as much of the work as citizens attuned to the project will fail to do.

LINCOLN'S DAY EXERCISES HELD BY LENTS GRANGE

The Lincoln's day exercises held under the auspices of Lents Grange were attended by a large number and were fitting in the observance of the day.

The first number on the program was a selection by Robertson's string trio, after which Rev. E. A. Smith of Lents Baptist church read Lincoln's address at Gettysburg. The address of the day was made by City Commissioner Pier, who spoke for about an hour on the life of Lincoln.

It was a splendid talk and was received with marked attention. A song, composed by Mrs. Fred Orton, was the next number, it being given as a duet by Mesdames A. E. Kenworthy and Orton. Virginia Sibley gave a recitation which was very well received and Mrs. Poney sang patriotic songs. Judge Gaetens and Morrow of the circuit court were called upon and gave short but appropriate addresses.

In the morning session a class of 28 was initiated in the third and fourth degrees. Another special meeting of the grange will be held on the 26th at 8 o'clock.

This (Friday) afternoon at 2:45 the Lents parent-teacher association will hold their regular monthly meeting in the assembly hall of the school. A short business meeting will precede the program. However, all mothers are cordially invited to attend. A fern will be given to the room having the greatest number of mothers present.
