200 Oppose Foster Sewer

Large Delegation Holds Up Project Pending Investigation by Council

The Foster road trunk sewer project came off decidedly second best in a concerted attack upon it by some 200 property owners from this section made Wednesday morning before the city council.

As a result of the meeting, the council ordered all preliminary work on the \$400,000 project halted until an official canvass of the district is made, to determine exact sentiment. As soon as the results of the referendum are tabulated, definite decision will be made.

Chief among the speakers Wednesday morning was N. J. Hedlin, manager of the Wapinita irrigation project east in eastern Oregon, who came to Portland for the purpose of lending aid in checking construction of the proposed sewer.

"This district cannot pay for this sewer yet," Hedlin said. "Property values are not high enough. Land would be assessed for more than it is worth. In addition, the sewer after completion would have to lie idle for five or six years, pending construction of its ultimate outlet, the Johnson creek trunk sewer. This latter probably will cost an additional \$1,000,000.

"We are willing to have pavement laid in Foster road, from Fifty-second to Seventy-second streets. But we don't want to pay for a sewer before the pavement is put in, then we are willing to forego the paving improvement.

"I am, however, sure that it is an elementary engineering fact that part of the roadway can be paved now, and the other portion hard-surfaced in a few years more, after the sewer is completed.

Multnomah county has appropriated \$85,000 to pay for an 18-foot strip of pavement along the north side of Foster road.

Other speakers representing the protesting delegation were L. L. Levings of the Woodmere Improvement club and J. R. Robinson.

The Kern Park Senior Christian Endeavor society has been growing rapidly and now has 47 members enrolled.

The past two weeks have been very busy ones for the Endeavorers. A week ago last Monday night the society won the Multnomah county banner for the third consecutive time at a rally held in Westminister Presbyterian church. The society is the only one in the county to reach the fortieth anniversary goal assigned to them and is now 3000 points ahead of its nearest competitor.

The society sent eleven members to the convention at Corvallis Feb. 11, 12 and 13, the reports of the convention being given during church hour last Sunday night.

The Endeavorers are planning to organize an intermediate society next Sunday afternoon at 4:00 o'clock. All eligible young people between the ages of 12 and 17 will be admitted to this society.

RULES OF TRAFFIC DANGER

Remember that you are a pedestrian when walking on the street and must obey the laws just as an operator of an automobile must obey them.

1. Stop and be sure the way is clear before starting across the street.

(a) Woodpiles, streetcars and parked automobiles form blind corners and drivers can not see around them.

(b) Remember that automobiles with good brakes require ten feet to stop when going ten miles per hour; 20 feet to stop when going 15 miles per hour; 37 feet to stop when going 20 miles an hour.

(c) If you dart out from behind a wood pile, street car or parked automobile, it is almost impossible to stop an oncoming nearby machine or driver in time quickly enough to avoid colliding with you.

2. Cross the streets at regular crossings and at right angles.

(a) Never cross a street diagonally. This is "jay walking" and increases by 75 per cent the danger of being struck. Besides, it compels you to look in four directions. This cannot be done safely.

(b) On approaching a curb before crossing a street, first look to the left. If the way is clear, proceed to about the middle of the street, then look to the right, and if the way is clear, go ahead. Keep your mind on what you are doing.

(c) Never turn around in the middle of the street to retrace your steps. First go to the curb in front of you.

(d) Never stop in the street to talk to a friend. Go to the sidewalk.

(e) Do not read a paper or book while crossing the street.

(f) Always carry your umbrella, when raised, above your line of vision.

3. Play in public parks, playgrounds or vacant lots; not in the street, unless it is roped off.

(a) While playing, boys and girls seldom heed approaching traffic and are likely to dart into the street at any moment, without looking.

4. Wait until the street car or machine stops, before getting on or off, and then always face in the direction the car was moving.

(a) You are likely to fall under the wheels, break your leg or arm, or fracture your skull by "flipping" cars.

(b) After getting off a car, never cross to the far side of the street by passing in front or rear of the car. Wait until it has passed and your view is clear before crossing.

5. "Hitching on" very dangerous.

(a) You are likely to lose your head, fall to the pavement, be run over by a car or an automobile coming from behind.

(b) Fast moving automobiles are likely to turn a corner suddenly and throw you.

(c) If you are on roller skates or a bicycle, "hitching on" is extremely hazardous. Roller skates or the sidewalk and ride your bicycle as near the right hand curb as possible.

6. Look out for broken wires.

(a) Never touch a wire lying on the ground or hanging down. It may be full of electricity and may kill you.

Obey the traffic officer. Remember he is your friend.

(a) When the semaphore at the street crossing shows red, stop. Remember the traffic is permitted to travel in the opposite direction. Wait until the semaphore shows green, then go.

(b) Be a good scout and urge your parents and friends when driving an auto to observe the traffic laws absolutely and keep their cars under control at all times, so that they will not get into a collision with another auto or strike a pedestrian.

8. In case of an accident in which a person is badly hurt—

(a) Get the number of the automobile.

(b) Call the Police Bureau by telephone, Main 7181 and tell them the number of the auto and where the accident occurred.

(c) Inform your principal if a boy or girl of school age is injured.

Creston Community Club Works

Under the leadership of the Creston Community club the residents of Creston district banded together on February 22, and cleared the acreage adjoining the Creston school. Stumps and brush and refuse vanished before the army of workers of 100 men and boys. Dinner was served them at the schoolhouse by the women.

Activities were directed by several men from the park bureau, and the city supplied a truck in which to haul away the garbage.

The dinner was arranged by the P. T. circle of Creston, and 105 men and 52 women ate it.

Evidently a good deal of work was done by all, and in celebration of the event, a big rally will be held by the Creston club on March 4, in the school house. A dinner will be served followed by a programme. Officers of the city will be invited to take part in the affair. A swimming tank is one of the goals for which that district is working and it would indeed be a boon to them. C. E. Carlton, 4535 40th avenue, is president of the club.
