Protection for Maternity and Infancy

REPRESENTATIVES of eleven national organizations of women have created a joint congressional committee to work in Washington for the passage of various measures, among them the Sheppard-Towner bill to provide protection for maternity and infancy. Among the members of the committee are Miss Ethel Smith, National Women's Trade Union league; Mrs. Kate Trenholme Abrams and Miss Lida Hafford, General Federation of Women's Clubs; Mrs. Ellis Yost, Women's Christian Temperance union; Miss Louise Stanley, American Home Economics association; Miss Mary O'Toole, District of Columbia Woman Suffrage association; Mrs. Maud Wood Park, chairman National League of Women Voters; Miss Jugu-

THE object of an inventor, attempting to produce a phonograph, should be to achieve the highest possible degree of realism. That has constantly been my goal, and, as is now well known, we have succeeded to a point where our phonograph reproduces, or RE-CREATES, the human voice and other forms of music, with such fidelity to the original that the most sensitive ears are unable to distinguish any difference. Our success in registering and emitting every quality of the human voice has revealed some rather remarkable facts.

Clipping from "An Interview with Mr. Edison" published in the leading magazines. It is intensely interesting. Read it or ask us for a copy.

WILL You Believe Your Own Ears?

HEAR it! Prove—or disprove, our claim that when listening to the New Edison, you feel as if you are hearing the actual performance of the living artist. Let your ears be the judge.

When you come we will show you proof that the New Edison is the only phonograph that sustains the acid-test of direct comparison with living artists. This proof is documentary—it would be good in any court in the world.

"The Phonograph with a Soul!"

Remember, if you are a music lover your credit is good with us. Pay cash or make your own terms. All we ask from any man or woman is a Gentleman's Agreement. Let us explain our Budget Plan—the simple, common-sense way of buying a New Edison.
