It has been found that two families out of three who are classed as poor owe their condition to bad habits of spending rather than actual lack of money. It is almost as important therefore that we learn how to spend money as to make it. It has been said that even the great World War would have been worth all it cost if it had only taught us as a nation how to be economical, says Boys' Life. A great educational movement is on foot to teach boys and girls even in the early grades of the schools how to spend money intelligently. One of the first steps is to learn to keep a budget of expenses, no matter how small they may seem. With such a foundation a boy begins life with an excellent start in the right direction.

JUNE 8th TO 10th DATE OF 1921 ROSE FESTIVAL.

The board of directors of the Portland Rose Festival association have fixed June 8th to 10th as the date for this year's three-day fête. For fifteen years the rose festival has been the most important celebration in the Pacific northwest, and ranks in beauty and entertainment features with the famous Mardi Gras of New Orleans and the New Year's Day floral parade at Pasadena.

Preparations for the festival are proceeding, and an elaborate entertainment program is being arranged including two great day parades. The floral parade, always a thing of marvelous beauty, will this year be made even more attractive by the addition of new features. The automobile section of the parade is expected to include at least three hundred handsomely decorated cars. The industrial and port development parade will be designed to depict Portland's growth as an industrial and shipping center.

The annual rose show will be put on for three days in the municipal auditorium; competitors from all parts of the rose growing sections of the United States will enter blooms for the contest. The American Rose Society's principal test garden is located in Portland and is expected to produce some new and wonderful roses for the event. Several new roses will be named during the show.

Nobody cares greatly to read the story of the breaking off of a marriage engagement in high society. The story of the divorce later would be so much more spicy.

The African pygmies who dance the shimmy have been identified as the gentlemen who put the "hot" in Hot-tentot.

If you want True Music you must choose
The NEW EDISON
"The Phonograph with a Soul"

CONSIDER your object in buying a phonograph. It is to bring true music to your home—the living performances of great singers and instrumentalists, of great bands and orchestras.

Over five thousand times, before more than five million people, the New Edison has stood side by side with the living artist in a direct comparison test, and no one has been able to distinguish between the living performance and the RE-CREATED performance.

The New Edison is the only phonograph or talking machine that sustains this test. It is the only phonograph that has actually proved beyond question that it gives you true music.

Which Paint Costs Less?

NOTE how the best paint spreads easier and covers more square yards than cheap paint does.

Figure in the extra gallons of cheap paint that you must buy and the extra cost of application.

It means that cheap paint costs just as much as good paint on the house.

The best paint then gives five or more years' protection to your property investment. Cheap paint on the average, starts cracking in twelve months. Which paint costs less?

72 Years' Experience
The house paints we specify for your home are the result of 72 years' experience in making paints and varnishes for every purpose. Made to stand the peculiarities of western weather.

The best material—PIONEER WHITE LEAD, pure linseed oil, zinc and color—are combined with long-time skill, in scientifically exact proportions.

Our white lead base must pass through a silk screen with 40,000 meshes to the square inch. A patented purifier makes it "whiter," so Fuller paints are exceptionally clear-toned. The paint when finished and applied on the house is a beautiful, elastic, tough, protective coating.

Such paint costs but a trifle more to buy per gallon and is five to ten times more economical in service.

Don't allow surfaces to rot. It costs less to paint them.
