"FLORINDA" DRAWS LARGE AUDIENCE

The people of Lents will long remember the beautiful rendering of the opera "Florinda, or the Rose and Pearl", given by the school children in the assembly hall on May 24.

The stage was beautifully decorated to represent a woodland scene. A background of fir trees, with banks of broom and other flowers, made a most pleasing effect.

The opera tells the story of a beautiful mermaid, Florinda, who becomes separated from her brother, Yorling, and is lost in a forest inhabited by witches, fairies, elves and other sorts of sprites.

The first change in the arguments came near the close of the session, when Mrs. George W. Chilton and other persons who have been against the sewer project informed the council that they would withdraw their objections if the council would authorize the construction of the sewer to the Willamette river.

After some discussion on this point Mayor Baker informed the delegation that the city council would instruct the city engineer to prepare plans immediately for the second unit of the sewer.

The first unit will extend to Ninety-second street and Johnson Creek, while the second unit will extend from this point to the Willamette river, probably running at all points within the city limits.

Inasmuch as the city engineer already has plans and specifications prepared for the second unit, Mayor Baker declared it was probable that both units could be constructed at the same time.

SEWER FINALLY DECIDED UPON

Property owners of the district to the west of Lents who have been striving for the past four years to have the city council authorize the hard-surfacing of Foster Road and the construction of a trunk sewer for the district finally were rewarded with success yesterday when the city council, by unanimous vote of four members present, overruled the remonstrance filed against the project and passed an ordinance to proceed with the improvement.

The special session of the council was devoted to hearing the remonstrators, who repeated practically the same arguments which have been heard time and again at Foster Road hearings before the city council.

The only change in the arguments came near the close of the session, when Mrs. George W. Chilton and other persons who have been against the sewer project informed the council that they would withdraw their objections if the council would authorize the construction of the sewer to the Willamette river.

STREET RAILWAY TO MOVE TRACKS

Officials of the Portland Railway, Light & Power company Monday consented to move the tracks on Foster Road from 50th to 72nd streets, to the center of the roadway, at an expense of \$200,000, in order that other improvements may be made.

Franklin T. Griffith, president, and F. I. Fuller, vice-president of the company, after a conference with Mayor Baker, City Commissioner Barbur and City Engineer Laurgaard, announced that a written communication would be forwarded to the city council at once, in which the railway company would outline what it would do in connection with the proposed improvement.

President Griffith explained that at no time had the traction company refused to move its tracks in accordance with the wishes of the city council. The company, it was said, did not wish to make the move, however, until such time as it was certain that the improvement would be carried out.

"The work which must be performed by the street railway company," declared Mr. Griffith, "means the laying of new tracks, paving of certain important intersections, macadamizing others, and laying of proper drain pipes, all of which will cost us in the neighborhood of \$200,000."

"It will not be profitable for the company to make these improvements, but to fail to make them would mean the discontinuance of service. Despite the fact that on this particular line the railway company is not making profits, the district in which the improvement is contemplated is well populated. The first duty of the railway company is to give service and for that reason it is willing to go ahead and do its part."

Officials of the company agreed to lay new tracks. They proposed that no pavement be laid between the tracks and that certain important intersections be designated for hard surface. The rest of the roadbed will be built up with crushed rock and macadam, according to the proposal.

City officials have expressed willingness to permit this plan. City Engineer Laurgaard had recommended a similar course to the council months ago.

It will be necessary for the city to purchase the private right of way on which the street-car tracks are now located. This strip is about 30 feet wide and 6000 feet in length and has an estimated value of between \$8000 and \$8500.

Should the city officials and the railway officials fail to agree upon a price for this right of way, it will be necessary to condemn the strip.

Thomas George Hay Funeral services for the late Thomas George Hay were held Monday, May 23rd, 2 p. m., from Kenworthy parlors, Lents. Rev. Owen Day of the Arleta Baptist church, of which Mr. Hay was a member, officiated. "Asleep in Jesus," "Face to Face," "Some Time the Silver Cord Will Break" were beautifully sung by Miss Henkle and Mrs. Louise Heinrichs. Pallbearers were W. E. Whitman, C. A. Alvord, J. E. Olson, Mr. Torpling, Wm. Mison and Arthur Stearns.

Thomas George Hay was born in Stanislaus county, Cal., Aug. 12, 1881. He lived in that state until twelve years of age, when he moved with his parents to Linn county, Oregon. In 1901 he came to the Dalles, Oregon, and made his home with his parents on a farm there.

He was married to Miss Zoë Campbell in 1905 and they made their home on the Hay farm near The Dalles until 1915, when because of Mr. Hay's failing health they moved to Portland.

Mr. Hay died on Friday, May 20, at 1:15 p. m., at the age of 39 years, nine months, eight days. He is survived by his wife, two daughters, Thelma and Della May Hay, two sisters, Sarah Hayden of Portland, and Ada Coleman of Vancouver, Wash., and six brothers, James Hay of Silverton, Ore., Joseph Hay of Salem, Ore., Archie Hay of Vancouver, Wash., and Charles, Lee and A. J. Hay of The Dalles.
