

Mt. Scott Herald Trade-at-Home CONTEST

Throughout the advertising appearing in this section letters purposely have been omitted, which, correctly composed, will spell the name of one of the advertisers herein. Competition in this contest is open to all readers of the Mt. Scott Herald, and those living in the Mt. Scott district have the same chance of winning one of these cash prizes. Simply find the missing letters, to accomplish which you must read every ad in this section, and mail or bring your answer to the Contest Manager of the Mt. Scott Herald. All answers will be placed in a box in the office of the Herald and will be opened every Wednesday evening. The person who submits the correct answer, together with the largest number of votes, will win first prize, \$5.00 in cash and 500 extra votes. To all who submit a correct answer 500 extra votes will be given, good in count for final prizes.

Perhaps it is hypocritical of us. Hiding in a limousine is a magnificent and awful thing, and how should any plain mortal be expected to endure it without amendment, to his soul? Still, from our sidewalk, we do observe and protest, says New York Tribune. Can no human being, even though to the limousine horn, learn to ride in a closed car and avoid the closed face, that blank, tolofty aloofness of expression so alien to normal American worry and cheerfulness? The limousine look attacks any happy, laughing debutante or bank president the instant the door slams and they sit back in what is technically known in motorcar literature as "mildady's drawing-room on wheels." It comes on or off the face very much as do the detachable tops that convert the ordinary touring car of commerce into a miniature palace fit to stand before the blazing glory of an opera house with a uniformed attendant handing in a very charming and expensive wife.

The experiment stations are the sources of accurate, reliable agricultural information. The progress being made in agriculture in each state centers around the experiment station of the state. The growth of agricultural colleges and the work of the extension departments means that the experiment station must, with redoubled energy, continue investigational work. This of course means that ample funds must be provided by the state for the support of the experiment stations.

Digestible Foodstuffs

A grocer can buy two kinds of foodstuffs—the kind that possesses nourishing qualities and is readily digested, or the kind that is produced for huge profits and overtaxes the stomach.

Buy digestible foodstuffs and you will have less occasion to call in the doctor.

Rather than further reduce prices, speculative holders of hides are said to be selling them to be made into glue. The public has suspected that most of them were being transformed into paper for use as soles.

If the report that three Americans have been brutally killed by Bolsheviks is true, Americans thrown into contact with Bolsheviks hereafter will probably take pains to conceal their nationality.

Home bread-making is urged to drive the price of the loaf down. A good many husbands, however, rather than face that extremity, would prefer prices to remain as they are.
