The KITCHEN CABINET

Let not him who is homeless pull down the house of another, but let him labor diligently to build one for himself.—Abraham Lincoln.

THE DAILY MEAL

An unusual way of serving potatoes provided by the following recipe:

Potato Timbales

Wash and boil potatoes with their jackets on in boiling water well salted. Cool and peel, chop and season with salt and pepper and moisten with cream. Brush timbale molds generously with butter and sprinkle with soft breadcrumbs, using some of the crusts. Pack into the mold the potato mixture, place in a dish and put into a hot oven until the crumbs are well browned. Remove to a serving dish and garnish with sprigs of parsley.

Imperial Salad.—Wash scraps and chop celery to measure one-half of a cupful. Add an equal measure of chopped pineapple. Soak one and one-fourth tablespoonsful of gelatin in one-fourth of a cupful of cold water five minutes and dissolve in one-fourth of a cupful of boiling water. Strain and add to the first mixture, then add one-fourth cupful each of vinegar and sugar, two-thirds of a cupful of canned pineapple sirup and one tablespoonful of lemon juice with a few grains of salt. Turn into individual molds dipped in cold water and chill thoroughly. Remove from the molds to nests of crisp lettuce and accompany with mayonnaise dressing.

Fruit Salad Dressing.—Beat two eggs until very light, add gradually three tablespoonsful of melted butter, beating well, three tablespoonsful of lemon juice and one-half teaspoonful of salt. Cook over hot water, stirring constantly until it thickens. Add one cupful of heavy cream beaten stiff, one-fourth of a cupful of powdered sugar, one-half teaspoonful each of celery salt, vanilla and a few dashes of cayenne, three drops of onion juice and one-fourth of a teaspoonful of paprika. Chill thoroughly.

Somerset Sandwiches.—Mix one-half cupful of canned shrimps, one-half cupful of cold cooked chicken livers, one-half red pepper and one-half of a Bermuda onion, both chopped. Force through a meat chopper. Season with salt and pepper, moisten with mayonnaise and spread on thin slices of buttered bread. Cut in fancy shapes.

Old Style Election Cake
Older people who were born in the country will no doubt recollect the election cake which was prepared for the lunch when the men went to election in the spring. It was designed for nourishment and economy, as well as a delicacy. The following recipe appeared in the Circle magazine a long time ago and gives good suggestions for present adaptation:

To make the old-fashioned election cake, rub 2½ pounds of well-sifted flour with one pound of butter until the blend is perfect. Add half a pound of sugar, 3 gills of home-made yeast, ½ pint of warm milk, 2 well-beaten eggs. Mix thoroughly and while beating add gradually another pint of milk. When through beating set the mixture aside for about 12 hours. At the expiration of that time or in the morning, if the cake was set at night, beat the dough and add another ½ pound of sugar and nutmeg enough to flavor distinctly—about a quarter of an ounce should be sufficient. Let the cake rise for three hours longer, or even four hours if it is not very light; then add a pound of assorted fruits—currents, raisins, citron, etc., all well floured. Put the dough into thoroughly greased pans, and bake in a slow oven.

As will be seen the above was a generous batch. We can use the home-made yeast in some homes remote from stores, but when preferred one compressed yeast cake, or more if more rapid rising is desired, may be used in place of the home-made liquid yeast.

Fruit Punch
Boil four cupfuls water and two cupfuls sugar together 15 minutes. Cool, add the juice of six oranges and two lemons, a little pineapple cut up in it, serve with cracked ice.

Orange Pudding
Pare and cut five oranges into small pieces, removing the seeds. Let one pint of milk come to a boil. Add the yolks of three eggs, one tablespoon of cornstarch. Stir till thickened and then pour over the fruit.

Cream Dates for Dessert.
Clean, drain and dry one cupful of dates, stone them and cut in small pieces. Spread on a platter and sprinkle with lemon juice. Whip one pint of cream and fold in stiffly whipped whites of two eggs and the pieces of dates. Pile lightly in a glass dish and keep very cold until time to serve. It makes a delicious accompaniment for a not very rich cake.

Melting ice in the glaciers of the Alps is yielding up the bodies of persons who met their death many years ago.

The chief requisites of a courtier are a flexible conscience and inflexible politeness.—Lady Blessington.

Did You Ever See

- A sword fish or a stone fence?
- A house fiddle or a pig iron?
- A bottle fly or a bed spring?
- A tomato row or pot roast?
- A star fish or a rat-tail file?
- A clock spring or a cow slip?
- A band box or a cat nip?
- A barn dance or a chimney sweep?
- And did you ever hear—
- The shoe blow its horn?
- A harebell ring or
- A pillow tick, or a
- Tree top hum?
- And did you ever see—
- A board walk or a mill race?
- Butterfly and the dish mop?
- A hill farm and a hill mop its brow?
- A tree spin its top or a bee chew its gum?
- Corncob pricks up its ears or a potato wipe its eyes?
- A clock wring its hands or a table cross its legs?
- A man pull up the lake or a cat take up a tree?
- A girl drop her eyes, or the night fall?
- An apple turn over or a clock wash its face?
- Did you ever eat any door jam when the door was a jar?
- Or see a peanut stand or a stone step?—Young People.

Shows Value of Education
The Wisconsin Educational News Bulletin gives the following advantages of education:

- It is a financial investment that yields the highest dividends.
- It results in safe and sane citizenship.
- It increases the ability and desire to serve others.
- It adds to the appreciation and happiness of life.
- It multiplies the chances of success in life.
- With no schooling the child has only one chance in 150,000 of rendering distinguished service.
- With elementary schooling the child has four times the chance of the one without it.
- With a high-school education, he has 87 times the chance.
- With a college education he has 700 times the chance.
- Fewer than 1 per cent of Americans are college graduates, yet this 1 per cent has furnished:
- Fifty-five per cent of our presidents.
- Fifty-four per cent of our vice-presidents.
- Forty-seven per cent of our speakers of the house.
- Thirty-six per cent of our members of congress.
- Sixty-one per cent of our secretaries of state.
- Sixty-seven per cent of our attorney-generals.
- Sixty-nine per cent of our justices of the supreme court.

Struggling Youths

The head of a large shipping firm in the west received a letter from a millionaire banker asking that his son be given a job where he could learn the business. Soon after the head of the shipping firm wrote back to the young man's father:

"Your son has arrived. I have given him employment in my office at \$20 a week, with others of his class. One of these young men has just bought a \$100,000 yacht and another comes to the office in a \$20,000 motor car. I think your son will find his surroundings congenial.—Philadelphia Ledger.

Another Advantage of Selling the Best Milk

You not only get the best prices and the best class of trade, but you always have a list of new customers waiting for a chance to buy milk from you. We are not taking in any more new customers unless it is someone who wants milk for their baby. A number of people, especially those with babies, have phoned for milk during the hot weather. Their names and addresses will be given upon request.

Why Do So Many People Have Weak Arches?

If shoe clerks are correct in saying that 60 per cent of the women they wait on have weak arches; if the army examiners were correct in rejecting, on account of flat foot enough men to make a big city—then it does seem strange that so many people should have to suffer from failure of the foot to hold up under the weight of the body. They're not all fat people, either.

The Answer

Broadly speaking, the reason is this: Every part of the body is always clad so as to permit reasonable muscular freedom, except the foot. Here the ligaments and muscles which should hold the arch bones in place, become atrophied through restricted circulation and lack of exercise in shoes that are rigid, tight, ill-fitting. Down goes the arch. There are other special causes, but the bulk of the sufferers can blame the shoes they have worn.

You Can Avoid It

How much better to wear Cantilever Shoes, with their flexible arches, and room for every part of the foot. They allow the arch muscles to exercise and strengthen naturally as you walk. Circulation is free. They are restful shoes to wear all day. They are comfortable. All these features for your comfort and well-being have not prevented Cantilevers from being good-looking shoes. Their trim appearance is one of the pleasures in wearing them.
