**Christmas Candies**  
**Toffee**  
One pound of powdered loaf sugar, one teacupful of water, one-quarter pound of butter, six drops of essence of vanilla. Put the water and sugar into a brass pan, and beat the butter to a cream. When the sugar is dissolved, add the butter, and keep stirring the mixture over the fire until it sets when a little is poured on to a buttered dish; and just before the toffee is done add the essence of vanilla and as many almonds as desired. Butter a dish or pan, pour in the mixture and when cool it will easily separate from the dish. Butter-Scotch, an excellent thing for coughs, is made with brown, instead of white sugar, omitting the water and flavored with one-half ounce of ginger. It is made in the same manner as toffee.

**Cocoanut Drops**  
To one grated cocoanut add half its weight of sugar and the white of one egg, cut to a stiff froth; mix thoroughly and drop on buttered white paper or tin sheets. Bake 15 minutes.

**Molasses Candy**  
One cup of molasses, two cups sugar, one tablespoon vinegar, a little butter and vanilla, boil ten minutes, then cool it enough to pull, cut in small pieces with scissors.

**Chocolate Caramels**  
Two cups brown sugar, one cup molasses, one cup chocolate grated fine, one cup of boiled milk, one tablespoon flour; butter the size of a large English walnut; let it boil slowly and when it forms a soft ball in cold water pour in square tins to cool; mark off while warm.

**Cocoanut Bisque**  
One egg beaten stiff, one cup granulated sugar, one cup grated cocoanut or more if desired and it does not make the candy stiff enough to hold its shape, one teaspoon vanilla. Mix well, form into small biscuits, place the half of an English walnut on top of each, place on waxed or buttered paper and set in the oven to brown. This amount makes 25 bisques.

**Peanut Candy**  
One cup molasses, butter size of a walnut, boil until it will harden in water. Have ready 1/2 cup or more of fresh roasted peanuts with the brown hulls rubbed off, and spread out on a buttered pan. Pour the candy over them and set in a cool place to harden. Break in chunks or cut in squares.

**Ice Cream Candy**  
Three cups sugar, a little less than 1/2 cup vinegar, 1 1/2 cups cold water, butter size of walnut, vanilla. Boil until it hardens in water, cool then pull until it is white, cut in drops or pull until it is white, cut in drops or

**SOMETHING TO EAT**  
With a few boxes of gelatin in the house and a little forethought, many delicious desserts may be prepared.  
**Apple Charlotte.**—Take one-half of an envelope of sparkling gelatin and one-fourth of a cupful of cold water, and when softened add one-half cupful of boiling water. Add one cupful of sugar and two tablespoonfuls of lemon juice; cool and add one cupful of cooked apple pulp. Cool, and when the mixture begins to thicken beat with a wire whisk until light, then add two well-beaten whites and beat well. Turn into a mold lined with lady fingers or cake. Serve with whipped cream.

**Rice With Pineapple.**—Soak one-half package of gelatin in one-fourth of a cupful of cold water, then add one-half cupful of scalding hot pineapple juice, one-half cupful of sugar, and one cupful of cooked rice, one teaspoonful of salt, and one tablespoonful of lemon juice. Turn into a mold lined with slices of canned pineapple. Chill and serve with whipped cream. Two egg whites may be used in place of whipped cream.

**Toasted Sandwiches.**—Mix two tablespoonfuls of salad oil, one tablespoonful of vinegar, one-fourth teaspoonful of salt, a dash of paprika with one-half cupful of cottage cheese or thick cream. Spread on one-fourth inch slices of graham bread, then sprinkle with chopped walnut meats. Put together in pairs and cut in finger-shaped pieces and toast.

**Cantaloupe Pickle.**—An unripe cantaloupe makes a very good pickle. Cut the melon in sections and remove the seeds. Soak in a salt solution, using one-quarter of a cupful of salt, to a quart of water. Drain and add to the following syrup: Four cupfuls of water, four cupfuls of sugar, one cupful of vinegar, one tablespoonful of cinnamon, one tablespoonful of allspice and cloves; put spice in small bag and cook with the melon. Boil ten minutes and let the fruit stand in the syrup all night. Drain, boil the syrup, add the fruit and cook until the cantaloupe is clear. Seal in hot jars.

**FOR THE YOUNGER MISS**

No junior need look with envy on her older sister's coat, while fashion decrees garments like this one for her own wear. It is a small replica of grown-up coats, and for this reason alone will make a hit with the younger miss. She will dote on the sleeves that widen to the wrist and on the chin collar of fur or fur fabric, and her joy will be completed by the silk tassels that end the long strap girdle.

**BURDETTE AGAIN ON TOP**  
"No matter when we go to Burdette's wagon and take a sample," says Dr. D. W. Mack, of the city of Portland health department, "the quality is the same. Mr. Burdette's milk scored 99 per cent at the International Livestock Show in North Portland last month. Lehman Bros., also of Portland, scored 99.2 for first place, a man from Seattle, scored 99.1 and Mr. Burdette, 99. Milk samples from all over Washington, Oregon, California, Salt Lake City and other places were entered.  
"Mr. Burdette is a dairyman in a small way. He is working hard; he has put out a product from the start that has been A-1, and he keeps that product A-1. If he delivered anywhere near my house I should take milk from him, and I think I know something about milk and milkmen."  
This high commendation of Jim Burdette came from Dr. Mack when The Herald telephoned him about Jim's score at the show.

We expect also Willamette university glee club. All friends of the church are invited.

**HURRY**  
Hurry is a chronic American disease, an evil habit that has fastened itself, cancer-like, on our life, and has sent its roots deep into our vitals, says the Dearborn Independent.  
Hurry is not speed. It is not energy. It is not the opposite of slothfulness. It is not a means by which great ends are accomplished.  
A study of men of affairs, who have made, or are making, history will demonstrate that hurry is not characteristic of the man who is doing things worth while.  
There are exceptions, of course, but almost invariably the man of affairs is deliberate. He accomplishes much, but he does it calmly, measuredly, and according to schedule.  
His schedule is so planned, perhaps, that every moment of the working day is assigned, but there is sufficient time for each task when its time comes. He does not hurry.  
The hurrying man is one who, with immature plans, is trying to keep up with a poorly arranged schedule, and is always a little behind.  
Hurry, because it involves lost motion, makes for inefficiency.  
Some men imagine that hurry is a virtue, that their feverish activities help to keep them in the limelight.  
Such activities may impress some persons, but not those who read below the surface.  
Among the most reprehensible of the hurry tribe are those to whom traffic rules are anathema, and who are willing to take long chances to save ten minutes in a trip to or from town.  
Another class of the hurrier, who, however, injures only himself, orders and eats his meals with a rush.  
One chef is quoted as saying that the curse of American cooking is the injunction, "Rush this order, please." Neither good preparation of food nor good digestion goes with such an order.  
Whoever is living a hurried life is living a poorly planned, disordered, nervous, inefficient life, and is meanwhile rushing the undertaker!

**SEX EDUCATION OFFERS PROBLEM**  
Chicago, Ill., December 7.—The problem of giving sex education to the children of the Chicago Public Schools, ordered by the Board of Education, is still giving Superintendent Peter A. Mortenson and his aids considerable concern. They still have not found a way to carry out the order. One of the most recent plans is to pass the burden to the various Parent-Teachers' associations of the schools, and have them instruct the parents how to instruct the children.  
The latest bombshell tossed at the plan was that of Dr. Lee Alexander Stone speaking before the Association of Military Surgeons of Illinois, when he declared that in the plan for such instruction to pupils, "the schools are preparing for another Waterloo."  
"Not many school teachers," said Dr. Stone, "possess knowledge of biology or parentology. Frequently they are biological non-essentials in that they have never enjoyed the privilege of parenthood. All they know about sexual hygiene has been gained from sex novels, sex plays and sex cinemas.  
"I can imagine no more disastrous thing that could happen to a child attending a public school than to have it taught sex hygiene in a perfunctory manner by a spluster or by a back-slator."  
He held that the only place for such teachings was the home but warned that in many cases parents first needed to be instructed, before they could instruct their children.

**WHAT A WOMAN EATS**  
Of 20 women lunching at a popular restaurant, a few days ago, says a writer in the Ladies' Home Journal, five ordered ice cream and cake, three a piece of pie and cup of coffee each, two had bread and butter, followed by dark fruit cake, and the eight remaining women were divided between eclairs, cream cakes, jelly tarts and doughnuts, with an occasional cup of coffee or tea. The one sensible woman had soup, a sandwich and light salad, with a piece of sponge cake and a cup of chocolate. I lingered over my luncheon, so that the 20 women all changed during my stay. But the proportion of cake eaters remained the same. The majority of these lunchers were working women. They had probably, at the least calculation, been at work since 9 o'clock that morning, and had some four or five hours of labor before them. During that time they expected to sustain life and nourish their body and brain upon one piece of pie and a cup of coffee. Among the harder working class the same thing exists also, and women deliberately refuse to avail themselves of cheap and nutritious food preferring instead worthless, harmful pastry.

He—They say that people who live together grow to look alike.  
She—Then you absolutely must consider my refusal as final.

Walter M. Pierce, democrat, defeated Ben W. Olcott, republican, for governor at the recent general election by a majority of 34,237 votes. This was announced by the secretary of state after complete official returns on state offices had been received from every county in Oregon. Mr. Pierce carried 23 of the 37 counties in the state.  
The district attorneys of Oregon will hold their annual convention in Eugene December 15 and 16, according to announcement by Clyde N. Johnston, Lane county prosecutor, who is secretary and treasurer of the state association.

**IMAGINATION and VISION**  
The story teller's fancy created Hop-o-My-Thumb and the seven-league boots—the step of twenty-one miles was the limit of his imagination.  
Accomplishment as wonderful as the imagery of the fairy tale has followed the vision of Alexander Graham Bell—the instantaneous transmission of the human voice a few feet or thousands of miles.  
The seven-league boots exist only in the minds of "the little folks." Over 33,000,000 conversations a day in the United States testify to the value and importance of the telephone in the elimination of distance in the social and business activities of a nation.  
Every Bell telephone is a Long Distance station.
