ON THE FARM

port to the secretary of labor. "Air preserved in Brussels. and sunshine and food are plentiful." There are "changes in the landscape, of small animals on the sunny soil."

children on farms are still, like Ham- seize, but France must be disarmed lin Garland, doing a "man's work" while they are "little boys longing for code commission of North Dakota. Almost every variety of work done on the farms of that state was performed by the boys and girls included in the study. Much heavy and more handling machinery or dangerous implements, plowing and driving of four-horse or five-horse teams was done by children from the age of 10 years up. Boys as young as 7 and chief responsibility for the killing of girls as young as 10 years of age had soldiers and non-combatants and the driven stackers, hay forks and harrows. Nearly half the children studied had done some plowing in the official moments; he was something course of the year, and this was of a poet in his younger days. But found to be one of the principal kinds of work which children did. It was standards of life are put aside and also continued over longer periods of be becomes a ruthless imperialist, in time than almost any other work.

"Like Garland, Dakota children are still finding that 'to guide a team for W. S. Blunt, who died a few weeks a few minutes as an experiment was ago, was an Englishman who fought one thing-to plow all day like a hired the imperialists among his countryhand. . . was not a chore, but it men for 50 years and came to have was a job,' and a job means meager a first-hand knowledge of them in educational opportunities in the private and public. He found that spring and autumn," Miss Abbott even a man like Gladstone, a man of says. The cold and lonely children, "infinite private sympathy with she continues, count the days in the good" was so warped by his position fall till the ground freezes too deep that his public life was "a fraud-as, for plowing, as they go round and indeed, the public life of every great round the fields. Over half the 845 parliamentarian must be." Gladstone children studied had missed at least according to Blunt, arrived at the one month of school and nearly one- point where "his own personal imthird had missed two months or more. Nine per cent had missed half the school term.

Having experienced for a good many years the cold and lonely dis- indulge, but was restrained from by cipline of running a plow for a couple a higher duty, that of securing a of months in the fall when going to parliamentary majority. school would have been a pleasanter job we can sympathize with the children that Miss Abbott writes about. But we have a notion that such children do not really lose very much by being out of school provided they go to a good school when they do go. Elementary schooling, we are convinced, might be greatly speeded up and a month or so less of schooling each year is not a great handicap to country children who get a good deal of training which is denied town chil-

It is with pleasure The Herald views the many improvements made and pending in this neighborhood. The new Lents postoffice and the contemplated widening of Powell Valley Road below Fifty-second street are two of them. Foster Road is ow one of the finest boulevards in the city and is obtaining that reputation among Portlanders. Ease of access to this district means increased population and business here. Work on the immense Lents sewer project continues from the Harney avenue end. The Ross island bridge is acsured. Everywhere there is contemplated building, by individuals, fraternal societies, churches, city and

The klan had nothing to do with and Oklahoma has been successful in the Louisiana affair. They wiped breaking the color line; at its recent their hands on white, or black, capst convention it adopted a resolution If a few black caps were worn by allowing negroes the same basis of judges in the United States perhaps representation as whites in national, there would be fewer worn by minions
