

KLAN WILL PARADE IN NEW YORK CITY

Despite Threat of Mayor Hylan to Disperse Patriots by Force.

NEW YORK, July 5.—Klansmen will parade in Gotham, despite the threat of Mayor Hylan's Catholic mob order to break them up, even by force if necessary, Kleagle Johnson of New York City has announced.

"We have complied with the provisions of the membership corporation law and other laws and have a right there," he declared.

More than 1000 candidates were initiated at a Klan meeting at East Islip, Long Island, at which 25,000 members are estimated to have been present. Approximately 4000 of the Klansmen were hooded and masked, while the remainder hid their features with their handkerchiefs.

ELECT ANTI-KLAN MAYOR.

Special Dispatch. MINNEAPOLIS, Minn., July 5.—Mayor George B. Leach has been re-elected on the anti-Klan ticket. He was a colonel of artillery.

KLAN IS INNOCENT.

Special Dispatch. BIRMINGHAM, Ala., July 5.—Porter J. Newman has been acquitted of a charge of having flogged Dr. J. D. Dowling, city health officer, several months ago. At the time Dowling was whipped, an effort was made by the Catholic element to link the occurrence up with the Klan, but it availed them nothing.

KLANSMEN GIVE FLAG TO WORTHY PREACHER.

Special Dispatch. DARIEN, Conn., July 5.—At a joint meeting of the First Congregational Church and the Methodist Episcopal

Church here last Sunday night, Banker Hill day, three Klansmen in full regalia presented to Dr. J. W. Morgan, pastor of the church, an American flag. The spokesman of the party told of the principles of the organization.

CAPPER AIDS BRYAN.

TOPEKA, Kan., July 5.—Senator Arthur Capper has announced he has taken over the subscription list of The Commoner and has contracted with William Jennings Bryan to write for him.

SHIPOAD OF KLANSMEN.

Special Dispatch. MANDEVILLE, La., July 5.—The steamship *Ozma* from New Orleans was booked to its capacity one night last week with Klansmen coming here for a big ceremonial, when more than 100 were naturalized.

"He who strives for heaven only to save his soul May walk the narrow path but will not reach the goal, While he who walks in love, though he wander far, God will bring him where the blessed are."

"No man is great 'til he can see How less than little he would be If stripped to self, and stark and bare He hung his sign out anywhere."

"God! what a world—if men in street and mart Felt that same kinship of the human heart,

Which makes them in the fact of flame and flood, Rise to the true meaning of Brotherhood!"

STOP AND REFLECT, Brother, that we are like

"Ships that pass in the night, and speak each other in passing. Only a signal shown and a distant voice in the darkness;

So on the ocean of life, we pass and speak one another.

Only a look and a voice, then darkness again and a silence."

THE KLAN OATH.

"I most solemnly declare and affirm that to the government of the United States of America and any State thereof, of which I may become a resident, I sacredly swear an unqualified allegiance above any other and every kind of government in the whole world. I most solemnly pledge my life, my property, my vote and my sacred honor to uphold the flag, the Constitution and constitutional laws, and will protect, defend and enforce the same unto death."

USURY IS WORLD'S GREATEST MENACE

(Continued from Page 1) reasonable, just, pacific, beneficent, all and alone sufficient, immutable.

Apply these laws to any human effort—and they will prove such effort to be either right or wrong, good or evil.

Let us apply these laws to the so-called "Holden Land Money Bill," and see if it will harmonize with them.

The bill is not primitive, because it does not and is not intended to deal with or operate under primitive conditions, but has to do with a multiplicity of social conditions, vastly more

important than the interests of one or a few individuals. The bill is not immediate, because it creates a long process even for those who would borrow dollars under its provisions. It is not universal, because it accommodates land owners only. It is not invariable, because under its enforcement, the loan amount would vary with each assessor's or appraiser's idea of value. It is not an evident good, for the same reasons that the gold standard is an evident evil.

Corner on Land, Also.

The same persons that have a "corner" on gold, have just as great a "corner" on land. This I will substantiate further on. It is not reasonable, because it diverts from the many to the few without value received giving to the land owner an unfair advantage over the non-owner.

It is not just, because it makes no provisions for bettering the conditions of four-fifths of the people of the United States, and gives to the few the same unfair advantage that they now have under the gold standard usury system.

It is not pacific, because it will increase delays and contentions, and place a greater tax burden upon those who perform useful labor.

It is not beneficent nor sufficient, because of all the above reasons and other vital reasons. I admit, that once it is fastened upon a people, it will be almost immutable.

Millions Are Homeless.

Rand-McNally's Bank Directory, October 1, 1919, gives the number of families in the United States, as 24,000,000, 13,000,000 of whom live in rented homes. Seven million have their homes mortgaged. Only 4,000,000 owned homes at that time free of encumbrance. No informed person will deny that many thousands of these have lost their homes since October 1, 1919.

There is no logical reason for supposing that the loan sharks have become more humane; but, it should be evident to all, they would continue to do under a land standard just what they have been doing under the gold standard plus on a larger scale.

Obeys His Masters' Voice.

According to Mr. Holden's own story, he was a mercenary of the loan sharks, his field of pillage being among the farmers of Kansas, about the time that the Zimmerman circular letter was sent to all bankers and loan agents in the Middle and Western States, and when his work was finished in Kansas, what more natural than that he should hover near his master for further orders?

The fact that "Money" carries no advertising, is sent out gratuitously to such as might become faction leaders, as first class mail matter, leads me to believe he still is working for his former masters.

The Fourth Fundamental.

Ere God created man and woman, He provided for their existence, increase and progress, by creating air, water and land. Hence, these three things become fundamental to any physical organism without which they cannot exist.

In the human being God implanted a fourth fundamental; without which, God's purpose could have no fruition nor mankind advance beyond a bestial condition. Thus, human force or energy becomes of first importance both in accomplishing God's purpose and achieving mankind's greatest good and progress. Therefore, anyone or

anything that hinders or retards the full and perfect co-operation of these four fundamentals in their work, does so in opposition to all natural law, and eventually will bring about their own destruction.

The Science Of It.

The universal social organism is composed of all the smaller social organisms within the universal body. These social organisms are made up of individual cells or human beings. Human beings in turn are composed of minute cells each and all having their functions and work to do, refusal or inability to do which, breeds disease in the human cell and this in turn breeds disease in the social organism of which the individual is a part, and so on through the universal body or organism. This is why the disease which culminated in the great European Sickness (War) had such a dire influence upon our social organism as to produce much of our nauseous distemper.

Enormous Usury Toll.

There is no question but that the energy generated by our social body co-operating with the other three fundamentals which I have named, can and does produce an abundance for the needs of all if justly distributed. However, a just distribution can never be made as long as we give a few individuals complete control of conductors or transmitters by and through which the distribution is made, because these few, who control the exchange transmitters, become dictators as to the how, where and when exchanges of commodities shall be made and exact an enormous usury toll for permitting us to exchange at all.

If we remove human energy, gold, land or any other so-called visible wealth would not be worth three whoops. Why, then, make any created thing a standard of value when the creator of all visible wealth makes and sustains all values? Remove the useful workers of the United States, then let the bankers offer their "my dollars, my credit" in any market of the world and see stocks, credits and I. W. U's hit the bottom!

Where the Trouble Lies.

The plans and purpose of the "Bankers Syndicate" is no new scheme of "World Imperialism." We do not need the Hazard, Bueler or Zimmerman letters, in order to see their plan and purpose. We have but to note their encroachments, usurpations and general procedure, to know their ultimate purpose is to own and control one or more of the fundamentals.

Air is just a little beyond their greedy clutch. Water likewise is beyond their control, except the potentialities of rapids and falls; these, however, they have secured unto themselves.

Through their control of all exchange transmitters, they now have almost complete ownership and control of the other two fundamentals, land and human energy. Right here I would have every sane thinker pause

POPE SEES ENGLAND AS CATHOLIC AGAIN

Special Dispatch. BOSTON, July 5.—Too bad about England! Cardinal O'Connell has come back and he says it's only a question of time now until England is Catholic again. He says there is a decided Catholic drift in the old country and that the churches of England throughout the country are advertising "masses" and such truck and are meeting with great response.
