OUR REPUBLIC IN DANGER

Papal Agents Framing National Convention to Revise Our Constitution.

By C. L. LOCKE Written expressly for The Wester

The force of any statement deper upon the truth it contains and how that truth is expressed or demon-strated. I shall try to make clear and understandable the papal plot to change our Constitution as dictated by the Roman hierarchy,

The papal agents in the United States already have received their or- is such a thing as party, and vote inders. Rome's Political-Apostolic-Delegate is now in our Capitol City. The papal-press aiready bas started its avalanche of propaganda which is expected eventually to carry the American people out of saue and safe thinking, into the treacherous intrigue of papal desire.

I have traced carefully their infamous doings through more than three dividends or other corporate expenses, thousand years. Everywhere their as long as they control our mosetary plan and purpose has been and is the system. same. Through all these years they have been gathering gold, silver, lewels of all kind, land, and power. Countries which they could not control, they have sought to destroy by war and strife. The people of those countries which they have controlled, invariably have been reduced to peon-

Huge Toll of Vatican.

The Pope now claims to control 288 million subjects. The most reliable information obtainable, shows that these subjects pay into the papal treasury a toll of almost six cents per capita. Even at one cent, the papal income would amount to \$1,651,200,000 annually, from the gathering of Peter's Pennies only.

I heave it to those who have a estimate the probable accumulations of the Roman Empire during the last fifteen hundred years, not forgetting that the Jeault priesthood has the priesthood used to strip the Roman people and bring them to pauperism. Morgan Tool of the Vetican.

It took me many years to gather the evidence which finally showed me with its vast resources. A newspaper item stating that J. P. Morgan, Rome in close consultation with the Pope relative to international finances," put me wise to the whole scheme; and I saw at once why it was that so many writers had falled to give the true solution to the economic troubles which for so long a time have afflicted the peoples of the world.

Papal Agents in the Banks.

Having once grasped the idea that the international banks of all countries were controlled by the Roman hierarchy, it did not take long to gather and prove it to be a fact. Then, I began to investigate farther, and I found that the papal agents, installed in the the great corporations.

This, the Pope has given positive orders must be changed. As I already have stated, the papal agents n America are now marshaling their forces to have a national convention convened to revise the Constitution of the United States. They propose eight amendments to start with. The first of these is "child labor." This is intended as a vote-getter. The Pope knows that all loyal men and women are ready at all times to do all in their power for the children in the United States; but, before falling into the papal trap, we should consider: what as Rome ever done for her own children that gives her license to be con-
