Hammond's New Scheme.

Portland Telegram.

A. B. Hammond has gone East, and it is said his mission is to sell the Astoria and Columbia River Railroad on terms that were submitted some time ago. No official authorization of this statement is made in any quarter, but a few shrewd railroad observers read this story in certain developments of tendencies in Pacific Coast railroad projects. They say Mr. Hammond desires to get rid of the Astoria line in order to be free to turn his energies in another direction, namely, to operate with Mr. Harriman for the construction of a transcontinental line to Humboldt Bay. It is presumed that the Astoria railroad will fall to the Harriman interests, and that the transaction will form the bridge to a new deal by which Mr. Hammond will get the support he desires for a transcontinental line to Humboldt Bay or to Port Orford. That, it is said, is at the bottom of the talk about a line to cross the Southern Pacific at Redding and extend across the country to Boise or to a connection with the Great Northern at Butte.

It is believed not to be in contemplation now to build the road by way of Redding. Another rail road enterprise has entered the field —the Oregon & Pacific, which is surveying a line between Grants Pass and Crescent City Cal. This, it is intimated, is a part of Hammond's scheme to span the mountains and deserts between Butte and Eureka.

In an interview in Portland about a year ago Mr. Hammond admitted the feasibility of a railroad skirting the ocean between San Francisco and the mouth of the Columbia, but he said such a scheme would be for the remote future and could have no immediate bearing on the development of the country. Those who have watched the course of affairs since then have noted the increasing desirability of a railroad along considerable stretches of the coast, and since the Butte-Eureka line has been talked of Mr. Hammond has been credited with the design of a transcontinental road that shall have wings spread out for it at the coast. That is, for example, that the Butte-Eureka line shall find at Humboldt Bay feeders reaching north and south into the heavy timber resources of Oregon and California, and also, perhaps, an entrance over the southern arm into San Francisco. The possibilities of the scheme are great.

It is evident that Pacific Coast Railroad plans are watched with the greatest interest just now in New York, and unusual activity in this field is expected before the end of the year.

General Chaffee, who was recently relieved from duty as military governor of the Philippines, will return home via Suez.

Cholera is still spreading in the Philippines. The provincial totals are 14,567 cases and and 10,937 deaths. Manila averages 40 cases dailey.

Grants Pass, July 17.—A great ledge of nickel, copper and gold has been uncovered on Butcher Knife Creek, of Western Josephine county. The discoverers are A. H. Ramsey and W. A. Ingram, the two prospectors who made the recent copper discovery on Slate Creek, and which is located just over the divide from Butcher Knife.

The big ledge just uncovered is 190 feet wide. Butcher Knife cuts directly through it, at which point the vast ledge is exposed for a height of over 200 feet up each wall of the precipitous canyon. In size the big vein is one of the largest bodies of ore ever found in Southern Oregon. Samples of quartz from the new strike have been brought into Grants Pass by the discoverers. Mineralogists here pronounce them excellent specimens of nickel ore, they being almost pure nickel pyrites. The chunks of quartz resemble brass in lustre and weight, with a pinkish tint, and a brilliancy that makes them most beautiful The predominating value of the quartz is undoubtedly nickel, the remaining values being copper and gold.

A MAN CAN'T swim in shackles. It isn't a question of his winning a race, but a question of being able only to keep afloat. The man who is suffering from malnutrition is like the fettered swimmer. His stomach and its allied organs of digestion and nutrition are diseased. It is not a question with him of winning in the race for business but of simply keeping up under any circumstances.

Whenever disease affects the stomach it is affecting also the blood and the health of every organ of the body. For blood is only food converted into nutrition and nutrition is the life of the body and every organ of it.

Doctor Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It purifies the blood and enables the perfect nutrition of the body which means perfect health.

"For six long years I suffered with indigestion and my liver and kidneys, which baffled the best doctors in our country," writes E. L. Ransell, Esq., of Woolsey, Prince William Co., Va. "I suffered with my stomach and back for a long time, and after taking a 'cart-load' of medicine from three doctors I grew so bad I could hardly do a day's work. Would have death-like pains in the side, and blind spells. I began taking Dr. Pierce's Golden Medical Discovery and 'Pleasant Pellets.' Before I had taken half of the second bottle I began to feel relieved. I got six more bottles and used them, and am happy to say I owe my life to Dr. Pierce."

Accept no substitute for "Golden Medical Discovery." There is nothing "just as good" for diseases of the stomach, blood and lungs.

The Common Sense Medical Adviser, 1008 large pages, in paper covers, is sent *free* on receipt of 21 one-cent stamps to pay expense of mailing *only*. Address Dr. R. V. Pierce, Buffalo, N. Y.
