Harbors His Hobby.

Binger Hermann came to town Thursday of last week and remained for a couple of days with his wife and son.

Mr. Hermann is very much devoted to harbor improvements. This has been his favorite vocation in the past, and will evidently be so in the future. Mr. Hermann desires to acquire so much popular favor this year that renomination next April will come to him without the fight which he had to wage this last time.

"I shall spend the entire summer," said Mr. Hermann "studying projects for harbor improvements. I shall visit every port on the Oregon coast, between the Columbia River and Port Orford, Nehalem, Tillamook, Yaquina, Coos, Alsea, Umpqua, Coquille, Siuslaw. I shall go over them all, and by personal contact learn the commercial needs and engineering problems of each. I shall take with me charts and information which the Government engineers will give me, so that I may know just what is to be done and what should be done for each harbor. Then when I go before committees in Congress I shall have precise knowledge to impart to them. This is what carries conviction to the committees. They reply upon recommendations of engineers, of course, but this sort of testimony has more weight with them than any."

"Yes, it will take a great deal of time and effort to reach the places I intend to visit. You see, I shall have to come back inland so often in order to go from place to place on the coast. Where will I go first? Well, I think I shall begin with Tillamook and Nehalem. Portland is directly interested in those two ports, if I understand the situation correctly. But first, I shall return to Roseburg. About the middle of July I shall go to Tillamook."

"I have just inspected the Willamette at two places where Government work is needed right away, namely, at Salem and Albany. At Salem erosion of the bank opposite the town is creating sandbars out in the channel, to the hindrance of navigation. At Albany the river threatens to go off into a stray channel, which will leave the town a mile from the stream. At both places revetments are needed. The cost of each improvement, I estimate, will be between \$25,000 and \$30,000. Considerable dredging must be done also, for which work a dredge is to be built at a cost of about \$28,000. The engineers are now preparing specifications."

Oregonian.

Adam H. Grossman of Trent, Wash., is evidently of the opinion that a marriage license is good for the world over and can be secured for the asking. Any how, he has written the following letter to the County Auditor of Multnomah County:

"Dear Sir: Enclosed please find \$2 to send license to marry (parties) Adam H. Grossman and Laura B. Heron, both of Trent, Spokane County, Wash. Kindly oblige, ADAM H. GROSSMAN."

In Washington marriage licenses are issued by the Auditor, but in this state the permits must come from the Clerk. According to the Oregon law a marriage license must be applied for in person by the affiant. The woman must be a resident of the county in which the license is issued. License fees in Washington are \$5 and in this state \$3. A deputy clerk remarked that Grossman may have desired to secure a license in Oregon in order to save money.—Oregon Journal

Want Manufacturers.

"If you can head anyone our way who contemplates establishing a manufacturing plant of any kind, you can assure them of a free site and any other favors that it is in our power to extend."

The above was received this morning by Secretary Max M. Shillock of the Board of Trade, from E. L. C. Fairin of Marshfield, corresponding secretary of the Coos Bay Chamber of Commerce.

The people of the Coos Bay country have long been known as hustlers and wide awake to their every business interest. The towns situated on the bay are said to be growing very rapidly and the downtown Chamber of Commerce seems to be in favor of going out and working to put salt on the tail of trade in tad of waiting for business to slowly drift toward them.

It is thought that several manufacturing plants will soon be erected at Marshfield, Empire, and North Bend. The commerce between these cities and Portland has grown wonderfully during the past few years.—Oregon Daily Journal.

J. T. BRIDGES, Register.

The strongest castle could be reduced by siege if the garrison could be starved out. The strongest body has to give up the fight when starvation weakens it. There are more deaths from starvation than from disease. When the stomach is diseased and the food eaten is not digested and assimilated, then the strength of the body begins to fall because of lack of nutrition, and the weak body falls an easy victim to the microbes of disease.

Dr. Pierce's Golden Medical Discovery cures diseases of the stomach and other organs of digestion and nutrition. It restores physical strength in the only possible way, by enabling the assimilation of the nutrition contained in food.

"I was sick for over three years with a complaint of stomach troubles," writes Mr. John H. Canton, residing at 299 Arch St. Chicago, Illinois. "I had tried every good physician known of, as well as many patent medicines, but received only temporary relief. I then began to use Dr. Pierce's Golden Medical Discovery. I commenced to gain the first week and after I had taken only one bottle I could eat as well as anyone without exerting myself. I took five bottles, and today am happy to announce that I am as well and as healthy as any one could be. I owe it all to Dr. Pierce's Golden Medical Discovery."

The sole motive for substitution is to permit the dealer to sell the little more profit by the sale of less meritorious medicines. He gains. You lose. Therefore accept no substitute for "Golden Medical Discovery."

Dr. Pierce's Common Sense Medical Advice is a receipt of stamps to pay expense of mailing only. Send twenty-one one-cent stamps for the book in paper covers, or thirty-one stamps for the cloth-bound volume. Address Dr. R. V. Pierce, Buffalo, N. Y.

NOT IN ANY TRUST

Many newspapers have lately given currency to reports by irresponsible parties to the effect that

THE NEW HOME SEWING MACHINE CO. had entered a trust or combination; we wish to assure the public that there is no truth in such reports. We have been manufacturing sewing machines for over a quarter of a century, and have established a reputation for ourselves and our machines that is the envy of all others. Our "New Home" machine has never been rivaled as a family machine—it stands at the head of all High Grade sewing machines, and stands on its own merits.

The "New Home" is the only really HIGH GRADE Sewing Machine on the market.

It is not necessary for us to enter into a trust to save our credit or pay any debts as we have no debts to pay. We have never entered into competition with manufacturers of low grade cheap machines that are made to sell regardless of any intrinsic merits. Do not be deceived, when you want a sewing machine don't send your money away from home; call on a "New Home" Dealer, he can sell you a better machine for less than you can purchase elsewhere. If there is no dealer near you, write direct to us.
