Eckley.....J. A. Haines.

JONATHAN BOURNE, JR.

Republican Candidate for U. S. Senator. Champion of Statement One.

Jonathan Bourne, Jr., candidate before the Republican primaries for the nomination of United States Senator for Congress, for the long term commencing March 4, 1907, was born in New Bedford, Mass., February 23, 1855; was a member of the class of 1877 at Harvard University; came to Portland May 16, 1878; was a Republican member of the Oregon Legislature in the session of 1885 and the extra session of 1886; was one of Oregon's delegates to the Republican National Convention of 1888 and Oregon's member of the Republican National Committee from 1888 to 1892, and a delegate to the Republican National Convention of 1892; and was elected as a Mitchell Republican to the Oregon Legislature in 1896.

Mr. Bourne has been more prominently identified with the development of the mineral resources of Oregon than any other man in the state, having expended in the last 30 years over \$1,000,000 of his own money in the acquisition and development of Oregon mines.

While Mr. Bourne has had his residence and main office at Portland since 1878, he has had another office at New Bedford, Mass., and has carried on the business of his father's estate since 1889, which makes him familiar with many of the large interests and leading men in the East. These qualifications, in conjunction with his tremendous energy, originality, executive ability and experience in business and political affairs pre-eminently qualify him for making an able and influential Senator for the State of Oregon.

He says that the choice of United States Senator should be by direct vote of the people, and that the Legislature should be compelled to elect the man the people select. To accomplish this result, he is championing statement No. 1 of the primary election law as the only method by which public opinion may be crystallized and made effective upon the Legislature.

In his petition for nomination he says: "If I am nominated and elected I will, during my term of office, favor: Republican Politics. Amending National Constitution for People's Election of United States Senators. Publicity Political Campaign Expenses. National Control of Corporations in Interstate Commerce. Right Exclusion of Asiatic Coolie Labor; Good Wages Make Good Citizens. Legal Limitation of Hours for Safety of Railroads. Parcels Post, Including Rural Delivery. Pure Food Laws. Liberal Appropriations for Panama Canal, Coast Defenses, River and Harbor Improvements, Including Columbia, Willamette Rivers, Coos, Yaquina and Other Oregon Harbors, Celilo Canal, Government Canal at Oregon City. Fair Share of Irrigation Fund for Oregon. Loyal Support of Successful Candidates. Rigid enforcement of Statement One. Roosevelt for Second Elective Term.

I desire that the following statement be printed after my name on the nomination ballot: "I WILL SUPPORT PRESIDENT ROOSEVELT'S DETERMINATION THAT JUSTICE BE DONE ALL MEN."

English Walnuts, Fruit Trees, Shrubs, Plants, Etc.

Oregon is wonderfully adapted to the growing of ENGLISH WALNUTS; it is their true home. Large plantings are being made, numerous trees in bearing, producing tremendous crops yearly, in proof. A small grove gives independent income, is the coming great industry. Big profits, small outlay of capital. Write today for free catalog, a treatise telling conditions and results, also Nursery catalog.

WALNUT NURSERY. BROOKS & SONS, Carlton, Oregon.

J. H. UPTON, U. S. COMMISSIONER, NOTARY PUBLIC, LANGLOIS, CURRY CO., OREGON.

Dealer in Town Lots, and Improved and Wild Lands.

Filing and Final Proofs Made on Homesteads and Pre-emptions.

GENERAL CONVEYANCING.

Treasurer's Notice.

Notice of Forfeiture of Mining Claim.

To William Brown: You are hereby notified that we have expended the sum of Five Hundred Dollars in labor and improvements upon the following described quartz and placer mining claim, to-wit:

That certain mining claim known as the J. T. Lewellen Claim, and particularly described as follows: Beginning on the left bank of Elk River, in Curry County, Oregon, 500 feet above the geodetic B. M., 181 feet elevation, at the mouth of the Bald Mountain Creek in Section 17, Township 33 South, of Range 14 West and running thence in an easterly direction 300 feet to a square post, thence down Elk River and parallel with said River 1320 feet to a square post, thence 600 feet in a westerly direction to a square post, thence up said River 1200 feet to a square post, thence in an easterly direction 300 feet to the place of beginning.

Also that certain Mining Claim known as the L. W. Deyoe Claim and particularly described as follows: Beginning in the center of Elk River on lower line of J. T. Lewellen claim and running thence in an easterly direction 300 feet to a square post, thence down said River and parallel with said River 1320 feet to a square post, thence 600 feet in a westerly direction to a square post, thence up said River and parallel to same to a square post, thence 300 feet in an easterly direction to place of beginning.

Also that certain Mining Claim known as the William Brown Claim and particularly described as follows: Beginning in the center of Elk River at the lower end of L. W. Deyoe's Claim, running thence in an easterly direction 300 feet to a square post, thence 1200 feet down and parallel with said River to a square post, thence 600 feet in a westerly direction to a square post, thence up said River and parallel with the same 1320 feet to a square post, thence 300 feet in an easterly direction to the place of beginning.

Also that certain Mining Claim known as the Wm. S. Hall Claim and particularly described as follows: Beginning at the lower end of the Wm. Brown Claim on the extreme high water mark on top of the bank on the right hand side going up said River, running thence in an easterly direction 300 feet to a square post, thence down and parallel with said River 1320 feet to a square post, thence in a westerly direction 600 feet to the extreme high water mark on the right hand bank of said Elk River to the place of beginning.

And also that certain Mining Claim known as the L. S. Binard Claim and particularly described as follows: Beginning at the lower corner of the Wm. S. Hall claim on the extreme high water mark on the right hand bank of Elk River going up said stream, running thence 600 feet in an easterly direction to a square post, thence down and parallel with said River 1320 feet to a square post, thence in a westerly direction 600 feet to a square post on the right hand bank of the said Elk River, thence up the said Elk River on a line with the extreme high water mark along said bank 1320 feet to the place of beginning.

As will appear by affidavit recorded in the office of the County Clerk of Curry County, Oregon, in Curry County Records, Book of Mines Vol. 7, page 1, on the 10th day of January, 1906, in order to hold said premises, under the provisions of Section 2324, Revised Statutes, being the amount required to hold the same for the year ending December 31, 1905.

That said work amounting to the said sum of \$500.00 was done by F. G. Bancroft at our expense between the 1st day of January, 1905, and the 1st day of January 1906; That there is now due from you as Co-owner of said Mines for your proportion of said assessment work the sum of One Hundred Dollars, and you are hereby required, within ninety days from the date of the service of this notice upon you, to pay to us, the Co-owners who caused to be performed such assessment work, your proportion thereof.

And if within ninety days from the service of this notice or within ninety days after this notice by publication, you fail or refuse to contribute your proportion of such expenditure as Co-owner, your interest in said claim will become the property of the undersigned Co-owners, under said section 2324, Dated this 10th day of February, 1906.

J. T. LEWELLEN, L. W. DEYOE, Wm. S. HALL, L. S. BINARD.

First publication February 28, 1906.

Women as Well as Men Are Made Miserable by Kidney Trouble.

Kidney trouble preys upon the mind, discourages and lessens ambition; beauty, vigor and cheerfulness soon disappear when the kidneys are out of order or diseased.

Kidney trouble has become so prevalent that it is not uncommon for a child to be born afflicted with weak kidneys. If the child urinates too often, if the urine scalds the flesh or if, when the child reaches an age when it should be able to control the passage, it is yet afflicted with bed-wetting, depend upon it, the cause of the difficulty is kidney trouble, and the first step should be towards the treatment of these important organs. This unpleasant trouble is due to a diseased condition of the kidneys and bladder and not to a habit as most people suppose.

Women as well as men are made miserable with kidney and bladder trouble, and both need the same great remedy. The mild and the immediate effect of Swamp-Root is soon realized. It is sold by druggists, in fifty-cent and one dollar sizes. You may have a sample bottle by mail free, also pamphlet telling how to get it.

Thousands of testimonial letters received from sufferers cured, in written by Dr. Kilmer & Co., Binghamton, N. Y., be sure and mention this paper.

FOR SALE.

A good Dairy Ranch situated on Sixes River, 9 miles from Port Orford, consisting of 320 acres of land—80 acres bottom land under cultivation, rest bench and hill land mostly in grass. The place is capable of running a Dairy of 25 cows at present time, two houses, two barns, two orchards, plenty of good running water and place mostly well fenced.

For further particulars call or address me at Port Orford, Oregon.

H. C. ALLER.

Pension the Life Savers.

There has for many years been a demand, that Pensions be granted to all men of the Life Saving Service who have served a certain number of years, and been honorably discharged, and there is now a Bill pending in Congress to provide for this delayed recognition of the heroic services of the bravest and most humane calling on earth.

To those familiar with the duties and dangers of the service, it seems incredible that there should be any delay or hesitation.

But, unfortunately the vast majority of our people know but little of the services and nothing of its usefulness, its constant tension of alertness, and its ever-readiness to go into battle with the elements, with a humane courage more desperate than is ever shown in battle, save by soldiers in "forlorn hopes."

The soldier of the Army and Navy has long years of peace, and often grows gray without facing a foe. He lives in snug quarters, and has delightful drills that keep him bright in his calling, and in a fine state of health. He journeys at ease from one camp to another amid the most noted scenes of his country, or if a sailor, he sails the seas of every clime, and sees the wonders of the world on a cruise that never ends, and which he ever enjoys.

And after he shall have served his years in such delightful service, he gets a position from a grateful country, which is just and proper. We do not deprecate or undervalue the Army and Navy Service. Their work has been grandly and bravely done when exigencies arise. But we wish to show by contrast, that they have their long periods of peace, while the Life Saver is ever on picket duty, and listening for the bugle call to battle, to go upon what may be a forlorn hope, in a humane endeavor to save life, at the risk of his own, exposed to inclemencies of storm and the dangers of seas that may at any time overwhelm him. Of all callings, this is not only the noblest, but is also the most dangerous, requiring at times the most strenuous endeavor possible to man. In our forty years of experience on this coast, we have learned much of the dangers of the deep, which is shroud and coffin to some of our brave young friends who tempted its dangers in open boats. In the short time since the Life Saving Service was installed on this coast, three of our friends were lost in the Bandon crew, and narrow escapes is the common experience of every person whether in or out of the service. Monuments should be erected to these heroic dead, and pensions bestowed upon those dependent upon them; and if it should be the good fortune of a Life Saver to escape death, and reach old age with long years of service to his credit, no man who respects courage or approves humane deeds would withhold a pension as a recognition of his service by a grateful country. A Congressman cannot have intelligence and a generous heart and do so.

Each Annual Report of the Lives and Property saved by the Service sends a thrill of joy and admiration to every manly man, and of all callings in which brave men are engaged, we take off our hats most reverently to the gallant Life Savers of the United States, and of the world.

A GREAT record of cures, unequalled in medical history, proves Hood's Sarsaparil's possession merit unknown to any other MEDICINE.
