A. L. Nagler, of Bridge, was again  
 called to the bedside of his father,  
 Judge J. H. Nueler, of this city,  
 who is now in an exceedingly criti-  
 cal condition from heart trouble  
 and dropsy. The old gentleman  
 has been declining in health for  
 some time, and owing to his advan-  
 ced age, little hope is entertained for  
 even a temporary recuperation.

WASHINGTON, Jan. 27.—Dis-  
 trict Attorney Bristol of Oregon  
 will be permitted to retain his present  
 office until he concludes the  
 trial of the Oregon land fraud cases  
 but will be expected to clear the  
 docket before Congress reassembles  
 next December, at which time he  
 will be requested to step aside and  
 make way for some man to be ap-  
 pointed on recommendation of the  
 Oregon Senators. This programme  
 was mapped out today.

Keby, Or., Jan. 26.—Ten miles  
 north of here a mammoth ledge  
 of asbestos has been uncovered. So  
 far known is the biggest and  
 richest body of this mineral ever  
 brought to light on the coast. Sam-  
 ples of the asbestos from the ledge  
 have been brought out and have  
 been sent to Grants Pass for dis-  
 play at the minerals exhibit room.  
 Though asbestos has been found  
 before in southern Oregon it has  
 never been uncovered in merchant-  
 able quantity and never in such an  
 immense body as this. The ledge  
 found is from five to ten feet wide  
 and contains no foreign matter.  
 The quality is of the best, the quartz  
 being white, and it works up into  
 an excellent, silken fibre. Practi-  
 cally the entire ledge from ship-  
 ping quality. The ledge has been  
 taken on the surface for 5,000 feet.  
 The discovery was made by Fred  
 Moss, A. M. Wilson, W. W. Dill  
 and J. B. David, all of Keby. The  
 locators have already done con-  
 siderable prospect work upon the  
 claim and are now building a good  
 trail to the property. They will  
 then go to work developing the  
 proposition and intend to open it  
 up thoroughly.

**IF YOU WANT CASH**  
 For Your Real Estate or Business  
**I CAN GET IT**  
 No Matter What Your Property is Worth, or in What Town, City, State or Territory it is Located  
 If I did not have the ability and facilities to sell your property, I certainly could not afford to pay for this advertisement. This "ad" (like all my other "ads") is practically sure to place on my lists a number of new properties, and I am just as sure to sell these properties and make enough money in commissions to pay for the cost of these "ads," and make a good profit besides. The only thing I have to do is to wait until I have a large number of real estate business today.  
 Why not put your property among the number that will be sold as a result of these "ads"? I will not only be able to sell it—some time—but will be able to sell it quickly. I am specialized in quick sales. I have the most complete and up-to-date equipment. I have branch offices throughout the country and a solid force of men to find buyers.  
 I do not handle all lines usually carried by the ordinary real estate agents. I MUST SELL real estate—lots of it—or go out of business. I can assure you I am not going out of business. On the contrary, I expect to find, at the close of the year, that I have sold twice as many properties as I did the last year, and it will be necessary for me to "step" some, according to want to the "YOU" and "SELL" it. It doesn't matter whether you have a farm, a home without any land, or a business; it doesn't matter what it is worth, or where it is located. If you will fill out the blank letter of inquiry below and mail it to me today, I will tell you how and why I can quickly convert the property into cash, and will give you a complete plan.  
**FREE OF CHARGE**  
 and terms of handling it. The information I will give you will be of great value to you, even if you should decide not to sell. You had better write today before your property is sold. If you want to buy any kind of a Farm, Home or Business, in any part of the country, tell me your requirements. I will guarantee to fill them promptly and satisfactorily.

The politicians of New York are out of a job. They have a Governor who is decidedly lit. With Hughes at Albany, and Roosevelt at Washington, their occupation is gone, and they have retired to the shades to cool off in the "winter of discontent." Hughes and Roosevelt are very much alike, and very much unlike, and the politicians can't catch on to either. Roosevelt talked loud but performed big—his stick always matched his word. Hughes doesn't talk, but he does things—and he does them on his own hook—and he books the right things. We congratulate New York, and hope her Governor may prove to be almost as good as Oregon's.

Admiral Dewey is reported to be indignant at what he terms "cowardly" acts of certain high officials, who acts as if he was afraid of Japan. Dewey says we can get our navy in the Orient in six weeks, and that in two more we would sweep the Japanese navy out of existence. If Japan should capture the Philippines and the Sandwich Islands we could quickly reclaim them when ready. Dewey believes in steadily increasing our navy, rather than in too many costly foras. The navy can go to a fight, but the fight may come up a foot. Dewey also believes that if we have to fight Japan, now is the time to do so, as delay will be of more help to Japan than to us. We heartily subscribe to Dewey's views if the foregoing represents them. We believe in diplomacy of the Bismarck type, that speaks at night, and at day's light it has to strike. We believe that Japan is inevitable. We endorse the speeches of Senators Garlin and Perkins, as true exponents of our country, and of this coast in particular, but we have a contempt for Perkins' well-known denial of the best part of his speech.

The 29th annual Convention of the National American Woman Suffrage Association is to be held in Chicago Feb. 14th to 19th. Miss Anthony was the founder of the National Association, and this will be the first meeting held without her. Feb. 15th, the 87th anniversary of her birth, will be devoted to exercises in her memory.

We had thought that we would be able in this week's issue to give some important legislative news; but no bills of striking importance have yet been passed. They are fighting red-hot over the Normal Schools, and the Railroad Commission. Hon. Ed Raackley has introduced a bill to give our Commissioner a salary of \$125, which is not enough in our opinion.

Senator Fulton has interviewed the President in relation to his contest order in relation to Patents on timber and homestead claims, and it is said that his able statement, has opened the President's eyes to things he did not understand, and will result in a modification of the order. We have been surprised at Fulton's lack of zeal in exposing Hitebocks' unlawful administration of land affairs, but perhaps he knows how best to do so, and when and where to strike "Sola Plexus."

Feeling confident that the legislative session will not do us any harm, the Southern Pacific, through political agents, is watching quietly from across certain combinations in the Oregon and Nevada legislatures which seems undoubtedly and justly. These agents were in town for two days. Having got their instructions, they are off to Salem and Carson to accomplish their respective jobs. It is believed that there are enough honest men in the Oregon legislature to withstand the machinations of the railroad lobby, and pass the Commission bill.

**Scrofula**  
 Few are entirely free from it. It may develop so slowly as to cause little if any disturbance during the whole period of childhood. It may then produce dyspepsia, catarrh, and marked tendency to consumption, before causing eruptions, sores or swellings. To get entirely rid of it take the great blood-purifier,

**What Does it Mean?**  
 The President is reaching up a Treaty with Japan. The latter is willing to prevent her laborers from coming here. This is the kernel of the whole question. Suddenly Roosevelt sends for the entire California Delegation for a confidential talk. He convinces them by what is yet "State Secrecy," and they will push no Japan legislation at present. They send for the San Francisco School Board, and will try to have them rescind their order excluding the Japanese from their schools. Two of the Board left for the Capitol on the 30th, saying that they would not yield; but we predict that the arguments which captured their consciences, will capture them.  
 It is believed, that Japan has demanded admission to the schools, and the rights of naturalization or there will be war. Nobody believes that Treaty is sealed, or doubts our ability to lick Japan—we will certainly have to do before long—but we may not be prepared just now, and a prudent President does not want his country to get the worst of it at the start, or at any stage of the ground. There is much business now in hurrying up our unfinished vessels of war, and in patching up the old ones. There are plenty of evidences of huge preparations for something that looks about the size of a war with Japan. We will bet a quarter that a big chunk of the fleet that went down to the Caribbea sea for "target practice" never stopped to fire a shot, but are now racing on the Pacific for "fuel". We do not believe that Roosevelt is asleep; but that the situation is critical we do not doubt; and if we have to fight Japan, we believe in doing it now! She will never yield her claim to be the equal of the Caucasian Race, until war shall have taught her her proper sphere as an Oriental, or as a Mongolian.
