Wood and Iron Work promptly done at moderate prices. Give him a trial before going elsewhere.

J. H. UPTON,
U. S. COMMISSIONER,
NOTARY PUBLIC.
LANGLOIS, COOS CO., OREGON.
Dealer in Town Lots, and Improved and Wild Lands.
Filings and Final Proofs Made on Homesteads and Pre-emptions.
GENERAL CONVEYANCING.

DENNIS CUNIFF, JR.,
Dep. U. S. Mineral Surveyor
Surveyor for the District of Oregon.
Gold Beach, Oregon.

Town and County.

Mrs. Ames Johnston was visiting at John Fromm's last Saturday and Sunday.

Rev. Geo. H. Bosch of Bandon, held regular services here last Sunday at the usual hours.

Nielsen, our merchant, left for Bandon last week on business, returning a few days afterwards.

John Wendell of Floras Creek was in town Thursday, after supplies which are scarce in Port Orford.

The Berwick left Rogue river for Portland last week, having been bound at the former place for some time.

Will Colebrook came up last week and bought some young cattle of George Forty, driving them down to his ranch.

Guaranteed Forest Reserve scrip for sale in large or small quantities, by Frank E. Alley, upstairs over Land Office Roseburg, Oregon. Will place same for non-resident purchasers.

Some steamer, passing close to Port Orford last week, gallantly saluted our town by blowing her whistle, but Port Orford is too dry to whistle back.

Agates by the tens of thousands were thrown up on agate beach last Thursday and Friday, and many people have enjoyed the pleasure of hunting for rubies.

W. R. Miller, his son Wesley, and nephew Oscar, were in town last Wednesday night enroute to Myrtle Point on business, and will return in about a week.

Wm. Hurst, Sr. who had been to Marshfield to consult Dr. Straw as to his failing sight, returned to Port Orford Wednesday, greatly improved and encouraged.

Marion Zumwalt left here last week on his way to San Francisco via Coos Bay. Marion is a steady, capable young man, and has started out to solve the problem of his future, and we all wish him good luck.

John R. Miller has bargained the merchandise in his store to Ames S. Johnston, who if the deal is completed, will rent the building and continue the business. They are now busy invoicing the goods. Mr. Miller has not stated what he will do in the future.

Several homesteads were located on, and near Hubbards creek last week—Geo. Forty locating the Wright place, claimed by J. Unican. Walton Miller and H. T. Stewart, locating between Sutton's and Elk river, on claims discovered by Fred Stewart.

M. Doyle, who has been in Port land for some time attending his son Charles who has been very low with typhoid fever, was in Port Orford Monday night on his way home, and says that his son is now out of danger. Gov. Chamberlain visited Charley, for which kindly act Mr. Doyle will ever hold him in sacred remembrance.

The work of surveying the S. P. Coast Railroad route, has in common with all of Harriman's railroad construction on this coast, and elsewhere, been suspended, and Brown's and Mitchell's parties have been ordered to San Francisco, and our local men have returned home. Brown's party going to Coos Bay, and Mitchell's going out to the railroad via Crescent City.

The elections in the country Nov. 5th have generally gone the same old way, save where local questions were important. San Francisco went strong for Good Government, the Democrats and Republicans being defeated decisively. Rhode Island elected a Democratic Governor and Kentucky a Republican. Tom Johnson beat Burton for Mayor of Cleveland, which pleases all independent men. The elections throw no light on the Presidential election next year.

This office received a pleasant call yesterday from Hon. R. D. Hume, who laid over a day at Port Orford while on his way to Portland, via Coos Bay. One finds in Mr. Hume a "live wire" on all the topics of the day and a free lance in the battles of his country, who believes in, and practices free speech to the limit. He is against Roosevelt and holds him responsible for the financial and business depression prevailing all over our country. He will build a Cold Storage Plant here next spring.

Catarrh

One of the most common ailments of the human system, is much aggravated by the changes of weather at the time of year. It is caused by the action of the cold winds upon the mucous membrane of the throat and nasal passages. It is a disease of the blood.

40,000 Testimonials
In two years, which prove a wonderful efficacy in purifying and enriching the blood. Best for all blood diseases. In usual liquid form or chocolate tablets known as **SCOTT'S**. 25 CENTS.

Theron Fromm and Alf Caughell passed through Port Orford yesterday on their way to San Francisco to see the sights.

Remember the shooting-match, horse race and dance at Port Orford on Thanksgiving, and make arrangements to attend if you wish a good time.

What is it that you can't see; two ears, but can't hear; four feet that can't walk, but yet it can jump as high as Mount Hood? Answer: a dead cat. But, you say, "a dead cat can't jump." Neither can Mount Hood, we reply! Sold again!

F. F. McMullen, one of Coos county's prominent and prosperous dairy farmers, accompanied by his estimable wife, were in town Sunday and Monday. They went to the bay to have a look at that section as well. Mr. Mc was heard to say that they had just come up to "see Coos county grow."—Herald.

W. H. Wilson, formerly editor of the Crescent City News, who has been in Southern Oregon for some months, arrived here on Thursday.

W. L. Childers commenced work this week on the building to be used for a modern laundry. It is being built at the corner of Fifth and E. streets.—Del Norte Record.

(BANDON RECORDER)
Last Thursday evening, October 31st, Doris McKenzie and Earnest E. Erickson were married at the home of James T. Mars, by Judge Topping.

Miss Theresa Mancetti leaves tomorrow morning, via Breakwater, for Seattle, where she will enter a business college. She will remain there this winter, staying with her aunt.

A. D. Morse, with authority to represent one of the largest Creamery Institutions on the coast, has interested a number of our progressive merchants in obtaining a sub-lease for Bandon. After considerable correspondence he has matters closed up and has gone ahead and secured a site suitable for such a new industry. The only concession asked is a desirable location for their plant. It will take \$1,000 in cash to secure this site, and will no doubt be raised very shortly.

W. F. Taggart shoots County Clerk Murphy.
Monday afternoon the community was shocked to hear that County Clerk W. I. Murphy had been shot by W. F. Taggart, the proprietor of the O. K. saloon.

From what we can learn of the affair the facts are about as follows: Murphy and Taggart met in the Del Norte saloon on Front street and both were drinking and somewhat under the influence of liquor. They got into conversation, which resulted in a quarrel, and Taggart struck Murphy and pulled a revolver on him. They were told by Mr. Delaney, one of the proprietors of the saloon to go outside to settle their difficulty, as he could not have any fighting in the saloon. Both men went outside and Murphy struck Taggart, telling him to the ground. Taggart pulled his revolver and fired a shot at Murphy, the bullet taking effect in the county clerk's left side, going in near the back bone and ranging around toward the front only a short distance from the surface. Mr. Murphy is a fleshy man and it is said that the abundance of fat turned the course of the bullet, else it would have gone straight through his body instead of turning toward the surface again. His condition is not thought to be serious, but the wound is quite painful.

Mr. Taggart was given a hearing and put under \$500.00 bonds for his appearance at the preliminary examination.

Both men are well known, and neither of them has been of a quarrelsome nature. Mr. Murphy was born and raised here, being a son of the late Judge Murphy and Mrs. C.

Timber Claims

I am purchasing fir, cedar and pine Timber Claims from the original holders at prices warranted by their location, quantity and quality of timber. What have you to offer? Write to ANGEUS G. MACKAY, Port Huron, Michigan

A Most Valuable Agent.
The glycerine employed in Dr. Pierce's medicine greatly enhances the medicinal properties which it extracts from native medicinal roots and holds in solution much better than alcohol would. It also possesses medicinal properties of its own, being a valuable de-aqueous, nutritive, antiseptic and anesthetic. It adds greatly to the efficacy of the Black Cherry Bark, Bloodroot, Golden Seal root, Stone root, and Quercus root, contained in "Golden Medical Discovery" in subduing chronic or lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

In all cases where there is a weak stomach, as in the early stages of consumption, there can be no doubt that glycerine acts as a valuable nutritive and aids the Golden Seal root, Stone root, Quercus root and Black Cherry bark in promoting digestion and building up the flesh and strength, controlling the cough and bringing about a healthy condition of the whole system. Of course, it cannot be expected to work miracles. It will cure many cases of chronic, catarrhal and lingering coughs, bronchitis, throat and lung affections, for all of which these agents are recommended by standard medical authorities.

It is a most efficient preparation. Glycerine will relieve many cases of chronic (decaying) and excessive gastric (stomach) troubles.

"Golden Medical Discovery" enriches and purifies the blood, curing itching, pimples, eruptions, scrofulous swellings and old sores, or ulcers.

Send to Dr. R. V. Pierce, of Buffalo, N. Y., for free booklet telling all about the various medicinal roots composing our concentrated medicine. There is no alcohol in it.

Most people know that if they have been sick they need Scott's Emulsion to bring back health and strength.

But the strongest point about Scott's Emulsion is that you don't have to be sick to get results from it.

It keeps up the athlete's strength, puts fat on thin people, makes a fretful baby happy, brings color to a pale girl's cheeks, and prevents coughs, colds and consumption.

Food in concentrated form for sick and well, young and old, rich and poor.

And it contains no drugs and no alcohol.

ALL DRUGGISTS; 50c. AND \$1.00.

(COOS BAY NEWS)
Robert O. Stevenson, of Forest Grove, has been appointed State Game & Forestry Warden by Gov. Chamberlain, to succeed J. W. Baker, of Forest Grove, whose term of office has expired. The office pays a salary of \$100 per month, with necessary traveling expenses.

After living six years and two weeks the Gardiner Gazette has joined the silent majority. It made a gallant struggle for life, but could hold out no longer on the starvation diet dished by Gardiner business men, and the grim reaper gathered it in. Gardiner and the Lower Umpqua should support a local paper. Its benefits to a community are many, and the money contributed to its support comes back with big interest.

The steamer Redondo, which has lately been running between Portland and Puget Sound, is to be placed on the Coos Bay route, to run between here and California ports. At present she is loading lumber at Portland for San Pedro, and after discharging at the latter point will come to Coos Bay. The Redondo was built at Toledo, Ohio, in 1892. She is 183 feet long; 38 beam and 11.5 depth. Her indicated horsepower is 800. She is owned by the Simpson-Lumber Co. and is in command of Capt. Bendig, formerly of the Signal.

Capt. Ames, hull inspector, finished the work of inspecting gasoline boats in this section last week, and left for Portland on the Breakwater. Capt. Ames and Geo. J. Weldin, boiler inspector, will make regular visits here in the future, taking the places of Messrs. Edwards and Fuller, who are now local inspectors stationed at Portland. While on the present trip Capt. Ames informs us that he hunted up the owners of 130 gasoline launches in this part of the state, and has the books properly listed for reference. He says that he understands that the matter of regulating the number of passengers that launches can carry will soon be taken up by the proper authorities. This is a move in the right direction, and should be attended to before some fatal accidents occur.

Orders issued on Oct. 30 by J. P. O'Brien, vice-president and general manager of the S. P. lines in Oregon, to stop work on all new lines, was no surprise to Coos Bay people. There may be a few people here who believed in the "official" announcement, made Aug. 3, 1905, that the Drain Coos road would be built at once; and also that statement given out a few weeks ago, that a money stringency, then predicted would not hurt the Drain road, as the line had been financed, and that "work would continue right along." The majority of Coos Bay people, however, were "wise" to S. P. methods, and believed, as they still believe, that the Drain road will not be built until the coming of a transcontinental line here forces construction. Nearly all of the other "new work" in Oregon is in the same boat; the object here is to hold rights of way and prevent other roads from encroaching on the S. P.'s private territory.

\$100 Reward, \$100.
The readers of this paper will be pleased to learn that there is at least one dread disease that science has been able to cure in all its stages, and that is Catarrh. Hall's Catarrh Cure is the only positive cure now known to the medical fraternity. Catarrh being a constitutional disease, requires a constitutional treatment. Hall's Catarrh Cure is taken internally, acting directly upon the blood and mucous surfaces of the system, thereby destroying the foundation of the disease, and giving the patient strength by building up the constitution and assisting nature in doing its work. The proprietors have so much faith in its curative powers that they offer One Hundred Dollars for any case that it fails to cure. Send for list of testimonials.

Address: F. J. CROFT & CO., Toledo, O. Sold by all Druggists. The Take Hall's Family Pills for constipation.

\$50 Reward, \$50.
I will pay fifty dollars (\$50) for evidence that will lead to the arrest and conviction of the party or parties who broke into my ware-house room in my stable at Dairyville on Friday night Oct 18th 1907, and stole some liquors therefrom.
DICK SORENSEN.

THE VIRGIN MARY,
"Was the Virgin Mary the mother of more than one child—it being Jesus Christ?"—T. D. Marlon, O.
Matthew xii, 46, 47, shows that Mary had other sons than Jesus. See also Mark iii, 31, 32, and Luke viii, 19. Specific reference to his four brothers by name is made in Matthew xiii, 55, while His sisters are mentioned, but not by name, in the next verse. The same occasion is referred to in Mark vi, 3. His brother James was prominent among the Christians in Jerusalem, and is referred to in Galatians 1, 19. It is believed that he was the author of the general epistle of James. In Acts ix, 27, we find him mentioned on an equality with Peter. The writer of the epistle of Jude was in all probability another brother of the Lord.

New Ruling by the Land Office.
Washington, D. C. Oct. 21, Registers and Receivers, U. S. Land Office.

Sirs:—You are directed at once to inform all newspapers in your respective districts, as a matter of news, that in all cases where homestead entries are made after November 1, 1907, commutation proofs must show actual and continuous bona fide residence for the full period of fourteen months.

In all cases where the entries were made before November 1, 1907, the rule heretofore existing that six months constructive residence allowing the date of the entry will be considered as a part of the required fourteen months residence, will remain in force.

You are directed to give this matter immediate attention and as wide publicity as possible and to post a copy of this letter in a conspicuous place in your office.

Very respectfully,
R. A. BALLINGER, Commissioner.

\$100 Reward, \$100.
