ADVERTISING RATES REASONABLE.

Dr. Geo. A. Wilchoff with aliases, was arrested in England lately for bigamy polygamy (and pig amy) having 500 wives, scattered over the earth. Solomon had a thousand women, and he is classed as the wisest of all men—Dr. Wilchoff is entitled to his mantle.

There seems to be truth in the report, that a plot was hatched by Anarchists in Paris, and a vessel dispatched with mines to blow up our fleet in Rio Janerio, and already the Brazilian government has arrested five of the devils, and are after the rest who have fled into the country.

It is said that at last Roosevelt secured a modification of our treaty with Japan, excluding all Japanese laborers. It has been noticed that the sailing of our fleet has had a marked effect in softening Japan's stubbornness. Our navy is our best guaranty of Peace. Hereafter we should keep pace with England in building vessels of war.

It seems so far that the Republican nomination for Joint Representative is not an enticing bait, as no one has bit as yet. Like Mother Hubbard's cupboard there's nothing in it. Curry county once had six Republican Ex-Representatives all of whom refused a re-nomination when their election would have been certain. The small pay, the short session and the hard trip shoo good men off.

Prognostication.

The Taft and Hughes fight in New York, the Taft and Foraker fight in Ohio; the Taft and Cortelyou fight in Washington, are almost certain omens of Taft's defeat, unless he shall have a majority over all, including Cannon and Fairbanks, on the first ballot. Should Taft fail, and we believe he will, not one of the above aspirants stands a ghost of a show of getting the nomination. In such a case, the chair will fall to either LaFollette or Roosevelt. It is stated that LaFollette is gaining ground all over the West. There is no question that next to Roosevelt he is thought more of by the plain people than any other Republican, and there are signs that the people may force the nomination of a man whose deeds have proved his loyalty to the masses as against the classes. Bryan is such a man in the Democratic party, and Roosevelt and LaFollette are such men in the Republican party, and the only ones who have been tried and found not wanting

How Shall We Vote.

There are about twenty propositions, or laws, to be voted upon at the coming June election, under the Initiative and Referendum law of Oregon. It is entirely too many. But few men have the time, or inclination, to study them, so as to vote intelligently. Not twenty men could name them. Anything will break down when overloaded, and the enemies of the Initiative and Referendum must be laughing at the consternation which will smite our voters next June. We are an earnest friend to the great measure, and do not want it made a farce of, but there must be a limit to the propositions to be submitted at any one time or the measure will become unpopular, and be shot to death by the ridicule of its enemies.

Every proposition submitted to the voters of the state should be of general importance and exclude local matters, which are no doubt injected by its cunning enemies, or its shallow friends. Let U'Ren prune up his old plants before starting other new ones!

Why Refer to Doctors

Because we make medicines for them. We tell them all about Ayer's Cherry Pectoral, and they prescribe it for coughs, colds, bronchitis, consumption. They trust it. Then you can afford to trust it. Ask your own doctor.

The best kind of a testimonial—"Sold for over sixty years."

Made by J. C. Ayer Co., Lowell, Mass. Also manufacturers of SARSAPARILLA. Ayer's PILLS. HAIR VIGOR.

We have no secrets! We publish the formulas of all our medicines.

Ayer's Pills greatly aid the Cherry Pectoral in breaking up a cold.

H. M. Cake of Portland is again out for U. S. Senator, to oust Fulton. He is the man who jumped into the race against Senator Bourne two years ago, and came so nearly winning. It will be remembered that in every town where there were Bankers he ran ahead so remarkably as to show that he was branded all over with a big "B." Since then he has been known as the "Bankers' Candidate who ran against Bourne." The people would be crazy to vote for such a man, unless by a vigorous canvass he can clear his skirts. There are too many Bankers and their tools in the U. S. Senate now, and we do not believe that Oregonians will help to increase their numbers.

CURRENT TOPICS.

Editor TRIBUNE:—A conspiracy of wealthy so called Democrats nearly everyone of whom has been supporting the Republican national ticket for years, propose to meet in a great "conference" to draw up a "platform" to be submitted to the approaching National Convention at Denver.

The purpose of such a move is plain. It is to defeat Bryan's nomination if possible, and, failing in this, to handicap him in the race with an imposeible platform. All exploiting "Democrats" dread Bryan for the simple reason that he is able, steadfastly honest and infinitely courageous; in short, a man, were he in the Presidential chair, could not be used by the "Interests," in their habitual campaign of spoliation. And yet it would be a misfortune to the country if such a man were elected. At best his administration could only temporarily improve the operation of a bad system while it would be no part of his purpose to abolish it, the prevailing industrial panic, his latest of a long series of economic misfits, emphasizes the alarm that neither of the old parties is capable under the existing order of protecting the people at large against oft recurring calamities. The "Interests" could precipitate a panic under Bryan as easily as they have done under Roosevelt.

Some months since, Hon. Elihu Root and later President Roosevelt boldly proclaimed the doctrine that the United States treasury ought to finance national political campaigns in this country, for the educational effect of each recurring campaign on the country! If party leaders would be frank and always truthful there might be some basis of reason in the proposition, but they will not, each of the great parties habitually have recoure to expediency and subterfuge by which the people have been misinformed and purposely misled. Grover Cleveland, for instance, soon after his inauguration in 1893, called Congress together to repeal the Sherman silver law and delivered a very profound message prepared by J. P. Morgan assuring the country in the most unequivocal terms that the repeal demanded (by the "Interests") would restore prosperity to the country at once! Well, he secured the repeal, and yet times grew harder and harder throughout his administration, continuing to grow worse well on through the first half year of McKinley's administration, when the great flood of new gold came to the relief and gradually turned the scale, this giving the lie to Cleveland's proposition that it was not more money the country stood in need of but more confidence (in J. P. Morgan and his gang of financial buccaneers.)

Another example of a deliberate attempt to mislead the public was McKinley's campaign slogan that the "foreigner paid the tariff" And the leading Republican organs echoed the absurdity, the same Republican organs which are now hysterically clamoring for the removal of the tariff from print paper and wood pulp!

It will be remembered that, during the 1904 campaign, the Republicans were compelled to defend "expansion." It was during that campaign that the "Boxer" trouble in China called for the interference of the "powers" for their suppression. Well, Mr. Roosevelt, candidate for Vice President, was campaigning out in Kansas at the time, and deliberately pointed to China as an example of a country that had never "expanded," Whereas, as a matter of fact, China proper is but a small speck on the map of China at present after her numerous "expansions" during the ages. It was China's attempt at "benevolent assimilation" of Corea that brought on her quite recent war with Japan.

It was during the 1904 campaign that Gen. Shafter made a trip east, and, in his travels through the western States assured the people that, if the thirteen original States had been content after they had won their independence, to be confined to that narrow strip along the Atlantic Coast, and had not "expanded," the ground he stood on would still be occupied by foreign people! It may indeed be said in excuse for General Shafter that he did not know that the same treaty of peace that gave us the thirteen colonies, included all the western country south of the great lakes to the Ohio river and west to the Mississippi, all of which territory England had long since wrested from the French nation; and if he was this ignorant, or if, knowing the truth General Shafter deliberately falsified it, furnishes a conclusive argument why our people should not tax themselves to pay the expenses of campaign instruction.

The Spirit of Winter.

The Spirit of Winter is with us, making its presence known in many different ways—sometimes by cheery sunshine and glistening snows, and sometimes by driving winds and blinding storms. To many people it seems to take a delight in making bad things worse, for rheumatism twists harder, twinges sharper, catarrh becomes more annoying, and the many symptoms of scrofula are developed and aggravated. There is not much poetry in this, but there is TRUTH, and it is a wonder that more people don't get rid of these ailments. The medicine that cures them—Hood's Sarsaparilla—is easily obtained and there is abundant proof that its cures are radical and permanent.

ECZEMA and PILE CURE FREE Knowing what it was to suffer, I will give FREE OF CHARGE, to any afflicted a positive cure for Eczema, Salt Rheum, Erysipelas, Piles and Skin Diseases. Instant relief. Don't suffer longer. Write F. W. WILLIAMS, 400 Manhattan Avenue, New York. Enclose Stamp.

Trespass Notice.

All persons are hereby notified not to enter upon or trespass upon the lands of the undersigned at and near Port Orford, and upon Hubbards Creek in Curry County, Oregon, for any purposes whatsoever without the owners consent.

Persons so doing for purposes of hunting, fishing, or traveling through or tearing down fences, leaving gates open, or molesting property, will be prosecuted according to law.

Louis Knapp.
