WHEN a country becomes civilized it demands typewriters. When in becomes posted on comparative values it demands

THE SMITH PREMIER TYPEWRITER

The fact that The Smith Premier Typewriter is used in every civilized country on the globe is not so important as the further fact that the demand increases year after year.

The reputation of The Smith Premier is world-wide. World-wide use has made it so.

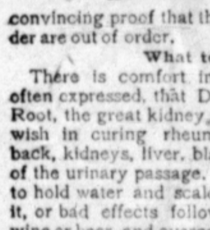
Thousands Have Kidney Trouble and Don't Know It.

How To Find Out.

Fill a bottle or common glass with your water and let it stand twenty-four hours; a sediment or settling indicates an unhealthy condition of the kidneys; if it stains your linen it is evidence of kidney trouble; too frequent desire to pass it or pain in the back is also convincing proof that the kidneys and bladder are out of order.



What to Do.

There is comfort in the knowledge so often expressed, that Dr. Kilmer's Swamp-Root, the great kidney remedy fulfills every wish in curing rheumatism, pain in the back, kidneys, liver, bladder and every part of the urinary passage. It corrects inability to hold water and scalding pain in passing it, or bad effects following use of liquor, wine or beer, and overcomes that unpleasant necessity of being compelled to go often during the day, and to get up many times during the night. The mild and the extraordinary effect of Swamp-Root is soon realized. It stands the highest for its wonderful cures of the most distressing cases. If you need a medicine you should have the best. Sold by druggists in 50c. and $1. sizes.

You may have a sample bottle of this wonderful discovery and a book that tells more about it, both sent absolutely free by mail, address Dr. Kilmer & Co., Binghamton, N. Y. When writing mention reading this generous offer in this paper.

TIRED MOTHERS find help in Hood's Sarsaparilla, which gives them pure blood, a good appetite and new and needed **STRENGTH**.

PERIL IN STONE SETTING.

Rewards Are Offered for a Method to Remove Risk of Lead Poisoning—Little Hope.

Advices from Washington are to the effect that the government of the Netherlands has offered a prize of 6,000 florins, some $2,000 in the currency of this country, for a complete solution of the problem involved in the setting and resetting of diamonds without incurring the danger of lead poisoning.

It is to be feared that nobody will come forward to claim this reward. For years scientists on both sides of the water have been experimenting with a view to remedying the defects of diamonds, eliminating their dangerous properties, but thus far their efforts have not been productive of the desired results. Many diamonds, particularly the larger stones, can be set without the metallic background which threatens the health of the gold and silversmiths, but in every instance they lose their brilliancy, and, attached to the shirt bosoms of "dressy gentlemen" or the bodices of portly dowagers and matrons attract scarcely more attention than window glass. Four and even six-karat white diamonds, shorn of a thin, filmy under surface of lead or lead and tin composition, frequently become transparent and fail to refract the light. Unhooked and presented as pledges after banking hours these gems are appraised at from $2.45 to $3.60 a quart, which is but a tithe of their apparent value.

The lead which enters into diamonds of "purest ray serene" not only imperils the lives of those who handle them for the market, but also stains the clothing of those who wear them. Some little time ago the French bureau of chemistry announced that it would give 50,000 francs to the person who would devise a process which would free diamonds from the taste peculiar to alum which many of them possess, but the department mentioned still has the money.

SHE MET PAINLESS DENTIST

Mammy Is Made Victim of Clever Trick by Tooth-Extractor with Harmless System.

"Ever since we came to New York," says a Virginia woman, in the New York Press, "our old mammy has been enduring tortures with toothache. Time and again I've tried to get her to go down and have the tooth out, but till last week I never could persuade her that New York dentists aren't 'night doctors.' You know down home the colored people all believe that doctors roam about after dark trying to catch people to cut up. You can scare a pickaninny by saying: 'Night doctor,' when nothing else will bother him a bit. Well, at last mammy consented to go with a daughter of hers to one of those painless dentists.

"'Did it hurt?' I asked, when she came home.

"'Lan', no, chile,' she said. 'I suttinly am glad I went to him. He taken an' hooked them tongs onto my tooth, an' he says:

"'"Good thing you didn't go to Dr. Jones, downstairs. This is the way he pulls teeth."

"'Then he give a powerful yank at my jaw, an' I lets out a screech.

"'"Unhuh," he says, "I reckon you better be glad you ain't a got Doc Jones a workin' on your jaw. An' Doc Smith ain't no better. This is the way he pulls teeth."

"'With that he shows me how Doc Smith would a done me, and I lets out another screech.

"'"An' now," he says, "I'm a-going to 'monstrate my own method of substraction."

"'An' he gives that tooth just a little twis', easy as can be, an' out it comes. Never hurt a bit. My land, chile, I suttinly am glad I didn't go to none of them other doctors.'"

Justification.

"Who can say anything to justify race suicide?" thundered the orator, and a thin, small voice piped up: "Poets are born, not made!"—N. Y. Herald.

A GREAT record of cures, unequalled in medical history, proves Hood's Sarsaparilla possesses merit unknown to any other **MEDICINE**.
