La Follette broke the record in the Senate by speaking 18 hours and a half May 30, in an effort to prevent a vote on the Currency Bill, which passed by accident.

The Money question has been, and will be, until ruin destroys our country, or revolution destroys our Money Power, the biggest question before our people.

Chamberlain has carried the state, but if it can be shown that Democrats registered as Republicans in order to defeat Fulton and nominate Calkins, many State No. 1 members of the legislature will feel themselves absolved from an obligation to support a candidate imposed upon them by the trickery of a minority party.

The vote of Curry County on Prohibition shows that having had two years of no saloons, the people were satisfied that it was a good thing and many voters who voted wet, two years ago, voted dry this year because they have seen that crime has decreased, that expenses are diminished, that rowdiness is a whiskey evil, and that many a man is practically reformed of drunkenness, and his family is happier and more comfortable.

In our opinion Taft will not be nominated, because the wise leaders know that he can not be elected. His reputation as a statesman is reflected from his great adviser Roosevelt, who has moulded and guided his official deeds.

Congress adjourned at 11.50 P. M. May 30, having done some good because of the President's constant whacking with the big stick, and because it occasionally heard from the people in no uncertain tones.

Thanks to our strenuous President some good was done by Congress; but more good will result to our country from the proof furnished that the Senate is the tool of trusts, which has aroused in the people the determination to elect Senators by a vote of the people.

Your Duty is to be Well.

But you cannot be well if you neglect taking Hood's Sarsaparilla when you know you should take it. Impure blood, poor appetite, headache, nervousness, that tired feeling—by these and other signs your system demands Hood's. Get a bottle today.

Clow of Health—My blood was very poor. Since taking Hood's Sarsaparilla I have more color in my face, sleep and eat well, and work is a pleasure. Mrs. A. A. Howard, Taunton, Mass.

In Worst Form—I had earache in the worst form and was advised to try Hood's Sarsaparilla. I took seven bottles and am now in good health. I hope everyone who has earache will give Hood's a fair trial. Mrs. William Brevard, Packerfield, Pa.

Always Praised—I first took Hood's Sarsaparilla 12 years ago, and always speak in favor of it. H. Cowdell, 227 Perry Street, Lowell, Mass.

Hood's Sarsaparilla is sold everywhere. In the usual liquid, or in tablet form called Sarsatabs. 100 Doses One Dollar. Prepared only by C. I. Hood Co., Lowell, Mass.

CURRENT TOPICS.

Editor TRIBUNE:—Floras Creek precinct did itself proud on the occasion of the general election Monday the first instant in that the "wets" were snuffed under to the tune of 63 to 15 while the suffrage amendment carried by a good majority.

So decisively were the "wets" overwhelmed throughout the county, that it is unlikely that the voters will again be pestered with the saloon question for many, many years.

I have seen nothing later than the Portland Journal of the 2nd on the subject of results in the state at large. That paper predicted that Chamberlain would have 5000 majority; but the most surprising bit of news it contained was, that Clatsop, a strong Republican county, and Fulton's home, had given Chamberlain 400 majority! It is to be hoped however, that the figures are not correct, since, rightly or wrongly, the suspicion would prevail to a greater or less extent, that Mr. Fulton had knifed Mr. Calkins, his successful rival in the primary contest.

In this precinct Doyle ran like a "sacred wolf" for Joint Rep., getting 57 votes to 14 for Muncy. Hume received only 8 votes for Joint Senator.

The "Conspiracy of Silence" among the so called "great" newspapers was carried to unusual lengths in the matter of the late National Socialist Convention at Chicago. Neither the Examiner or Chronicle or Call of San Francisco, nor the Oregonian of Portland, mentioned the Convention nor do either of the papers mentioned seem to know that Debs and Hanford were nominated. The New York World however, which is in very truth a great paper, printed the ticket and an elaborate and fair synopsis of the platform adopted.

The aforesaid "great papers" generally give due space to the proceedings of Hearst's Independence party, because, as I take it, they regard the party as a puling infant and devoid of teeth. Not so with the Socialist party, whose National Convention was attended by more than 200 delegates and was in session a whole week. They regard the Socialist party as a force that must be reckoned with. Jefferson's Democratic party and Lincoln's Republican party were at first ignored and then ridiculed, but they got there finally all the same.

During the week that the "great papers" were ignoring the Chicago Convention they were carrying columns of salacious stuff written to the gay Lothario, the late millionaire Col. Snell, by mercenary Mamas and brazen daughters in quest of money at any price. This shameless correspondence was all brought out during the contest of Snell's will by his son at Clinton, Illinois.

Though Prof. Rowan failed to carry the county for School Superintendent, Floras Creek, his own precinct and where he is well known, gave him a good majority. This was a compliment which friends duly appreciate.

The total appropriation by Congress is \$1,008,804,894. The total revenue is \$878,153,011. Deficit \$120,651,883. The large items of expense are as follows: Army, \$95,382,247; fortification, \$9,317,145; Navy, \$122,652,485; pensions, \$163,53,000; postoffice, \$222,962,392.

South Dakota's Great Asset.

The refusal of the state of an offer of \$100 an acre for certain school lands in Beadle county shows how great has been the increase in the value of those lands in recent years. The law fixes \$10 an acre as the minimum price at which these lands can be sold. Here is an offer of 10 times this amount, and it is refused. The incident shows how wise the state was in holding back the sale of these lands, and it throws some light on the immense sum that will be available for school maintenance when all these lands are turned into cash. Several years ago the amount was estimated at \$30,000,000. Then the estimate was raised to \$40,000,000. Perhaps now it should be raised to \$50,000,000. Any school boy can figure up the prospective income at five per cent. It will be nearly enough, when finally secured, to put an end to taxation for school purposes.—Sioux Falls Leader.

A bounty is paid for all crows killed in Chicago. This seems incredible. Chicago has lived for many years by crowing so loud that no one within 600 miles could be heard.

"Fighting Bob" Evans thinks we ought to have at least 48 battleships. There is nothing effeminate about "Bob", hence we can't understand why he didn't make it an even 50.

The Taft boom is beginning to drag" says the New York press. Yes, dragging every thing with it.

"King Solomon, at least, was never sued for breach of promise" says the San Antonio Express. No, indeed; in fact, he appears to have always been willing to carry out his part of the agreement.

BELLINGHAM, Wash., May 30. (Special).—An immense blackfish or finback whale, 30 feet long, located its self under a pile-driver at a fish-trap location near the entrance to Deception Pass yesterday. The pile was forced through the huge body of the fish, and was pounded into the tidelands underneath by the heavy driver-hammer. The struggle of the fish shook the pile-driver so vigorously that the loftman fell from the second station of the driver rigging to the deck and was rescued from drowning only by the prompt action of John Nelson, working on the deck.

COMMON SENSE Leads most intelligent people to use only medicines of known composition. Therefore it is that Dr. Pierce's medicines, the makers of which print every ingredient entering into them upon the bottle wrapper and attest its correctness under oath, are daily giving in favor. The composition of Dr. Pierce's medicines is open to everybody's eyes. Being destitute of having the slightest admixture of anything but the best of ingredients, they are known to be pure. Being wholly made of the active medicinal principles extracted from native forest roots, by exact processes original with Dr. Pierce, and without the use of a drop of alcohol, triple-refined and chemically pure glycerine being used instead in extracting and preserving the curative virtues residing in the roots employed, these medicines are entirely free from the objection of doing harm by creating an appetite for either alcoholic beverages or habit-forming drugs. Examine the formula on their bottle wrappers—the same as sworn to by Dr. Pierce, and you will find that his "Golden Medical Discovery," the great blood-purifier, stomach tonic and bowel regulator—the medicine which, while not recommended to cure consumption in its advanced stages (no medicine will do that) yet does cure all those catarrhal conditions of head and throat, weak stomach, torpid liver and bronchial troubles, weak lungs and hang-over coughs, which, if neglected or hurriedly treated lead up to and finally terminate in consumption. Take the "Golden Medical Discovery" as time and it is not likely to disappoint you if only you give it a thorough and fair trial. Don't expect miracles. It won't do supernatural things. You must work for a reasonable length of time to get its full benefits. The ingredients of which Dr. Pierce's medicines are composed have the unqualified endorsement of scores of medical leaders—better than any amount of lay or non-professional testimonials. They are not given away to be experimented with but are sold by all dealers in medicines at moderate prices.

Keep the Balance Up.

It has been truthfully said that any disturbance of the even balance of health causes serious trouble. Nobody can be too careful to keep this balance up. When people begin to lose appetite, or to get tired easily, the least impudence brings on sickness, weakness, or debility. The system needs a tonic, craves it and should not be denied it; and the best tonic of which we have any knowledge is Hood's Sarsaparilla. What this medicine has done in keeping healthy people healthy, in keeping up the even balance of health, gives it the same distinction as a preventive that it enjoys as a cure. Its early use has illustrated the wisdom of the old saying that a stitch in time saves nine. Take Hood's for appetite, strength and endurance.

State Wins Big Suit.

Two decisions handed down by the Supreme Court of Oregon recently are of great interest to the people of the State. In one instance the State gets \$200,000 as its share of the net dividends of the Williamette Falls Canal & Lock Co., and in the other the question of fishing on the Columbia river is settled. A special to the Capital Journal has the following to say on the subject:

In the case of the state of Oregon versus the Portland General Electric company, Justice Bean reversed the decision of the Multnomah county circuit court, which denied the state the rights to collect its interests in the Williamette Fall Lock and Canal company at Oregon City.

In 1876 the state of Oregon gave this Co. \$200,000 from the school funds, to build a canal and locks, with the express condition that the state receive 10 per cent of the net proceeds of the company. The first company that controlled the locks lived up to its agreements for a few months. The company has changed hands, and a transfer of the franchise has occurred several times since. None of these new companies has ever paid a cent into the state treasury.

In the decision of the supreme court today the action of the Multnomah court was not only reversed, but remanded, the justice declaring that when the locks were bought by the state, the people had a right not only to the \$200,000 originally paid them, but also 10 per cent on all the profits that have occurred since the first company began doing business at Oregon City.
