John Deadwood left on the stage Saturday on a visit to relatives in Coos.

Otto Neumann was in town Wednesday night and went down the coast next morning.

M. T. Wright has sold out his business in San Bernardino and his address is now Norwalk, Calif.

Mr. Hoyt of Bandon came up the coast Monday from Rogue River where he had been on business.

We received a pleasant call from Mr. Williamson, the timber cruiser, and Mr. Ellingson, of Coquille, Monday.

Dr. Tyler and his youngest son were down to Rogue river last week where he bought a lot of sheep to stock his ranch.

Prof. Wood's school closed last Friday, having been the longest term ever taught here, and one of the most successful.

Mrs. Huntley and grand-daughter arrived in Port Orford Thursday on their way to Gold Beach from their visit at North Bend.

Jamieson rushed in 4 loads of clear cedar last Wednesday to ship on the Bandon, which was to have been here that morning.

The Enterprise came down from Coos Bay Friday, discharged a lot of freight here Saturday morning and departed for Rogue river.

The "Abington," one of Portland's most aristocratic office buildings was gutted by fire last week entailing a loss of nearly \$400,000.

The foundation of the cold storage building will be completed next week and then the building will be rapidly pushed to completion.

Max, and R. Peterson, brothers, arrived from Seattle a few days ago, to do their assessment work on their placer mines on Elk river, near Astoria.

Jo Knight passed through town Monday with men and camping outfit, and will drive up from Rogue river a band of 2,000 sheep lately purchased there.

The Enterprise went ashore at the mouth of Rogue river on her last trip down, caused by the machinery balking on the bar, but they soon got her into the river, not seriously injured.

Ketchell the phenomenal young pugilist knocked out Hugo Kelly in the opening of the third round. It is thought that he will defeat Tommy Burns for the heavyweight championship.

Mr. Milbury of Eden Valley, a Forest ranger, was in Port Orford Monday night, on a tour to prevent forest fires. He left for the south next morning and will investigate the fire at "Brushy Bald."

On July 30th at her home in Coquille City, Mrs. Thomas Lane presented her husband with a fine daughter, Mrs. Lindberg. Mr. Lane's mother is with them, and writes that everything is well.

Next Monday the Teachers Institute will begin at Gold Beach, and the Examination will begin on Wednesday. On the following Monday the Wedderburn races will open and last during the week.

Henry Axtell came down from Bandon with Mr. Merrill's crowd, and will spend some time at his mines on Elk river. He knows all the surrounding country by heart and will make a good guide and general utility man.

Mr. J. B. Ender and wife, nee Clara Fleming, passed through town Monday on their way to their home at Crescent City, having as they said, made a most enjoyable visit as far as North Bend. We regret that we did not meet them, and that they did not tarry here long enough to see the charms of Port Orford.

Mr. Merrill the missing man who left here about six weeks ago with samples of ore he discovered on Elk river returned here Sunday from San Francisco via Bandon where he landed from the Elizabeth. He left Monday morning for Astoria where he will make his headquarters, and thoroughly exploit the ledges already found and prospect for others. It is one of the most promising undertakings that ever entered the mineral fields of this county, and we all hope that it will be crowned with success, as we believe it will be.

Marshfield is to have a new school house that will cost \$31,000.

The steamer Bandon arrived last night from the Coquille and is loading with lumber as we go to press.

Mrs. Zumwalt, we are sorry to say will give up her hotel on account of her poor health, mainly rheumatic affliction.

Not for many years has Port Orford been so full of people as during the past week, going and coming on "business and pleasure intent."

Dr. Merrill of Oakland, son of the missing man, arrived here by stage Monday, and will enjoy an outing in the sequestered wilds of Elk river.

Smithson, Gilbert and Kelly, three Oregon athletes were winners at the Olympic games in London, where Americans won by a large percentage, in competition against the world.

E. J. Gallier and family and his father, of the Bandon hotel, spent several days camping at this place last week, hunting, fishing and gathering agates. They left for home Thursday.

Prof. J. A. McKnight, of Salt Lake, a member of the faculty of the State University, and who is enjoying a year's vacation for his health has been in Port Orford a few days. His wife is at Bandon.

Ernest Divilbis, of Sixes, brought in last Saturday some very fine vegetables, peas, potatoes, turnips, cabbage and cauliflowers which were readily snapped up, being fresh from the garden.

The beaches near the mouth of Rogue river are richer in black sand, gold and the platinum metals than anywhere else on the coast, and it seems that Capitalists would first try to develop the Outley Steel manufacture in such a place, rather than where the sand has but little of these rich metals.

The weather was unusually warm during most of last week, although very high north winds were blowing. The air is now smoky from forest fires which people fear will spread, for never were conditions along the coast more favorable for disastrous fires. Our fire wardens are no earthly use unless they burn out our forests in June.

We received a pleasant letter from W. H. Wilbur last week, from which we learn that he is president of the Lucerne Drilling and Construction company, of Alpaugh, Tulare Co., California. Mr. Wilbur is a man of ability, with indomitable energy, and we have heard through other sources that he has met with great success financially since leaving Curry County.

The new gasoline schooner, Wilhelmina, Capt. Christensen, came down from Coos Bay Thursday, with a lot of merchandise for our merchants, and several hundred sacks of cement for the cold storage foundation. Mr. Murray, expert, and agent of the Engine Company, will remain on her for a short time, and says she made as high as 10 1/2 knots and will be better.

We have heard many remarks that Frank Tichenor's report of the Denver convention, in the last TRIBUNE, is the most interesting they have read. Frank was a Port Orford boy and has risen to commendable prominence by reason of natural ability, self-help and persistence. His home is now in Spokane, but his duties as Organizer of the Wool men keep him on the wing.

A party of Coquillers came down to Port Orford last week and camped several days at the mouth of the lake near Agate Beach, returning home Saturday. The party comprised the following persons: E. W. and S. W. Fahy and their families, John Hemblock, A. Barrows and family, Mr. Sweet and wife, and Mrs. Robt. Simpson and son of North Bend.

The gasoline schooner, Fish, of Coos Bay, came up from Rogue river Thursday, and lay here for several days, on account of heavy north winds. Alf Nichols and Glen Roselle have their families with them, and George Wilson the old Empire band leader was with them. They had a hunting trip up Rogue river and a good time generally. Captain James Coughlin, our County treasurer, George Smith, our County clerk, and his family, and Ed Marster's family, came up to Port Orford on the little vessel which made the run from Rogue river in 2 1/2 hours.

FOUND—Between Port Orford and Hubbard's Creek, a buggy robe. Owner can have same by calling at this office.

The new giant cherry, a cross between the Lambert and the Bing, created a sensation on the Portland market last week. There were some specimens that measured an inch and a half in diameter.

The Oregon Agriculture College catalogue for this year, is full of information and finely illustrated, giving a complete view of the buildings, grounds and of the various departments in class work. It is a credit to Oregon's most useful institution of learning.

Basing our report on insured authority, most up-to-date, we announced that the steamer Bandon had come down and relieved the overloaded wharf here of its burden. But she did not come, because Neptune barred her coming and shut her in at Bandon, not permitting her egress.

W. A. Marvin wife and child, and Mrs. Marvin's brother J. S. Roher and Miss Roher arrived here from Bandon Sunday, and will reside in the Masterson building as soon as it is vacant. Mr. Marvin was formerly Mrs. Roher and with her brother spent several months here a year or so ago. Mr. Marvin is a mining expert and is here to look up our minerals and will remain indefinitely if inducements are sufficient.

The Coos Bay party on the little schooner "Fish," are very grateful to our old friend Moritz Fritzie, for his courteous treatment at his bachelor home up Rogue river, and for his assistance in many ways. They discovered what we long knew: that Fritzie is a gentleman with a big heart and good head. They had a successful hunt and Mrs. Roselle, nee Georgina Nichols, who is a fine shot, killed one of the large bucks they bagged.

The Hearst convention of the so-called "independent party," met in Chicago and nominated Thomas L. Hiegen, of Mass, for president, and John E. Graves, of Georgia, for vice president. It is not apparent that Hearst really means, for there are so many reform parties in the field that it looks suspicious. Our people who divide into small parties will never win against the strategists of plutocracy, and Hearst may be one of their genera.

J. A. C. Freund of Langlois, who has charge of the drilling for oil in Curry county, is in Marshfield today. He says that the well is now down about 900 feet and that strong prospects of oil has been found. The present well is the second one drilled, the first one having been given up after they had gone several hundred feet on account of some of the machinery being lost. He says he is sure there is oil there but whether it is in paying quantities cannot be determined until the test hole is finished. It is understood that Portland capital is backing Mr. Freund in his test.—Coos Bay Times.

We received the following communication from Ben Schuyler of Bandon, which explains itself: Ben Schuyler of Bandon, is organizing a base ball team to play a series of six games at Wedderburn with the best team in Del Norte county, Cal. The games will be played during the Marchmont race meet, which begins August 17 and ends August 22. Mr. Schuyler's team will be known as the "Coos Co. Alerts" and will be independent of the organized league. As there is good material here there should be no trouble in securing a "bunch that will do credit to Coos county"—C. V. Sentinel.

The names of the following are those that were present at the Leap Year ball given at Port Orford August 1st:

Misses Violet and Magnolia White, Katie Fromm, Lizzie Coughlin, Pearl Synnam, Maud Cook, Calia Chandler, Linda Sutton, Georgia Forty, Emma Stover, Anna Dean, Ruby and Lida Marsters, Ida Talbot, Ethel and Eunice Jamieson, Lorena Marr, Katie Adolphsen, Belle and Florence McKenzie, Bessie Kerr, Edna Richard, Mamie Masterson Marie Meagher and Mesdames Knapp, Unison, Stone, Richard, Forty, Masterson, Nielsen. The music was by Ethel Jamieson and Oscar Mather which is always pleasing to the dancers. Many say that Port Orford never had a finer ball,—but, then, the Port Orford girls were never known to fail.

The effect of Scott's Emulsion on thin, pale children is magical.
It makes them plump, rosy, active, happy.
It contains Cod Liver Oil, Hypophosphites and Glycerine, to make fat, blood and bone, and so put together that it is easily digested by little folk.
ALL DRUGGISTS, 50c. AND \$1.00.

While fishing on Elk river, near Charlie Forty's home last Sunday Mr. Nielsen a Port Orford merchant, was accidentally shot in the leg by his pistol falling from his pocket—the ball 32 caliber entered the outside of his right leg about four inches above the ankle, ranged upward and lodged in the muscles below the knee and is not located sufficiently as to warrant cutting it out. He's around on crutches and seems to be doing well.

Miss Dollie White, Nellie and Emma Sydnam gave a picnic Sunday, July 26th, at Floras Lake. The day was enjoyed by boat riding on the lake and gathering agates on the beach.

There were quite a number invited. The guests were, Walter and Jake and James White, Charlie Sydnam, Misses Francis and Lydia Hofness, Clio Tyler, Edna Capps, Mabel, Lola and Otha Norton and Raymond and Edgar Capps and Winnie and Walter Norton.

The young ladies being excellent cooks served a swell dinner, while some of the young gentlemen made the coffee. The day passed off very pleasantly, and all went home, 'happy as a clam.'

Harbor Items.

Editor TRIBUNE: Nothing of particular interest has occurred in this vicinity of late.

Hunters and prospectors are beginning to flock to the mountains by the score.

It seems that some of the newspaper editors change their politics pretty often.

Mr. Fen E. Newton, of the International Correspondence Schools, is in this vicinity enrolling pupils, and is meeting unbounded success.

Not changing the subject how is it that we do not have any more items through the columns of the TRIBUNE from Gold Beach and Agnes?

David Dryden, of Monroe, Calif., accompanied by his wife and two children returned to his old home at Winchuck where he is visiting friends and relatives.

Mrs. A. F. Gardner, of Harbor, who was taken violently ill on the 20th inst., she being afflicted with severe cramps of the stomach. Dr. Cawwils was summoned and at last accounts she was gradually improving.

Miss Lillian Tolman, of upper Chetco, who has been in ill health for some time, returned from Crescent City Friday last, accompanied by her father, where she has been under medical treatment by Dr. Fine. She reached home much improved in health.

School in Dist. No. 23 is prospering under the skillful management of Miss Gladys Miller. Eighteen pupils are in attendance. Miss Miller is an efficient teacher and also an accomplished musician. No wonder so many young fellows are attracted to this vicinity under the pretense of deer hunting.

Typoon in China.

Hongkong, July 29.—The whole southern coast of China is today suffering from a terrible typhoon that swept over the China sea Monday night. Reports from Canton today say that over 12,000 were drowned, instead of 3,000 as was at first reported, and that thousands of people of the coolie class are homeless.

In Hongkong conditions are at most as bad. The immense public gardens are almost a total wreck and houses have collapsed all over the city. Over 100 Chinese vessels were sunk in the harbor.

Gold in the City.

Los Angeles, Cal., July 29.—While digging a cess-pool yesterday on his lot in a fashionable new residence district in the southwestern part of the city, Morris Hurst found four gold nuggets, weighing about half a pound each, within a radius of five feet, and a depth of 25 feet. The yellow chunks, each about three inches long and two inches in diameter, were taken to an assayer who valued the four at \$500, or \$125 each. They were found in a stratum of gravel, and he immediately stopped work and spread the news broadcast. The result was a wild stampede to the scene. It is expected that by daylight tomorrow hundreds of persons will be digging in the vicinity, and trouble over the ownership of property is feared. Every lot will be turned into a gold mine.

Portland, Or., July 29.—Fire blotted one full block off the map of the North Portland business district burned most of the property off three other blocks, and threatened the entire district, late yesterday afternoon. Property worth approximately \$225,000 was destroyed, property representing nearly \$1,000,000 was actually scorched and property worth well into the millions was within the dangerous zone.

No meeting was ever called in Oregon which has attracted the universal enthusiasm that has been created by the Oregon Good Roads Conference that is to be held in the Convention Hall, 6th floor, of the Portland Commercial Club on Tuesday, Aug. 11th. An effort will be made to call the meeting to order promptly 9:30 a. m., so that there may be a morning, and afternoon and evening session. The railroads have made a rate of a fare and a half a round trip for the occasion.

Delegations representing every grange, the commercial bodies, and the different counties to be appointed by the county judge, are already reported that they will be present. Every delegate at large, as is the the mayor of every city, and every county commissioner. A program is being prepared, but every effort is being made to get rid of long winded speeches and to get down to actual work that will produce results.
