The Bandon left here for the city last Wednesday evening, having taken on deck 75,000 feet of clear cedar from Jamieson's mill, but left the matchwood, as we understand because some of it was inferior in quality.

Six race horses passed through town Thursday morning, on the way to the Marchmont races, from Coos Bay. They belonged to L. J. Simpson and John Herron, the latter having Creserton and Doc Russell, both hard to beat.

The mountains are gradually filling up with smoke, and if the warm, dry weather continues for some time forest fires will soon be doing damage to the greatest resources that nature bestowed upon Curry county—her thirty-one billion feet of lumber.

"Howard William," yes, that's what they call him. The bouncing baby boy Mrs. Allen Boice presented her husband with July 31st 1908. Just a word of warning to all young papa's. Don't on your life tell Allen your son is the "best ever."

An Eye on the Future.  
Tommy's aunt had called attention to some of that young man's misdemeanors thereby causing him to be punished. Tommy pondered awhile then asked, "Papa will little sister Gladys be an aunt to my children when I am a man?"

"Yes Tommy," answered his father, much interested. "Why do you ask?"

"Cause she might as well get married and have a home of her own, for I don't intend to low any aunts to stay around my house, making trouble for my children."

Woman's Home Companion for August.

Coos Bay Fair.

The arrangement for the Southern Oregon District Fair to be held at Marshfield, August 26th to 29, promises that it will be the largest fair ever held in this district. The work of repairing the old fair grounds is nearly finished. The local people have given about \$3,000, all of which was expended in making improvements. The fair grounds have not been used for fair purposes for a number of years so the grandstand was rebuilt to seat 2000 people, a new pavilion was constructed for the exhibits and new stalls and sheds for the live stock.

The race track is in the best of condition. Fifteen or twenty horses have been in training there for some weeks and a better half mile track can hardly be found in the state. There are four events for each day and some fast time is expected. Horses are entered from California and from Curry and Douglas counties in Oregon as well as many of the Coos county horses. The races will be the best Coos Bay has ever seen.

The farmers throughout Coos county are being solicited to bring in exhibits and the fruit growers of Douglas county are also being seen by representatives of the fair with the result that those who want to exhibit will likely arrange a wagon load of fruit to be taken across the mountains. The fact that Coos Bay and Douglas county are only connected by a stage makes it a little difficult to get across with the exhibits, but live stock can be taken without any trouble and many of the Douglas County farmers have signified their intention of bringing their stock.

In fact every effort is being made to have the fair not only a county meeting, but a district gathering with all the counties represented.

Portland, Oregon, August 3rd—"Seven thousand people in twenty minutes"—that's the rate at which the various transportation interests of Portland have assured the directors of the County Club and Live-stock Show that the crowds attending that event in September will be handled. Every day at the grounds is busier than the day preceding. The intense interest of the whole Northwest is evidenced by the great number of entries already made, while the national interest is shown by a heavy correspondence from every part of the United States.

A "Mild" Roast.  
Albany Herald: We are in receipt of a communication that came through the Albany postoffice and signed "A Citizen." This citizen (?) warns us against supporting a certain enterprise which is well on its way in this city. But the pin head didn't give his name. Insolent, degenerate, cowardly whelp, your zeal is a cankered sore, and you doubtless stink. You are a dam liar, a purloiner of all that is sacred. You state that the men are crooked. We defy you to appear at their office with the writer. If you will prove your assertions we will take off our hats to you even though we think you a foul feeder at the most contaminating end of a corrupt city sewer.

You know who the writer is, and you know where the Herald office is located. Drop in and make your self known. It may be that you can run a bluff.

Vessel descends 2000 foot Wall.  
Crater Lake Or., Aug. 5.—Will G. Steele, manager of the Crater Lake Company, and his crew of workmen have successfully launched a large gasoline launch on the lake. The feat was a difficult one as the boat had to be let down by means of ropes over more than 2000 feet of rock walls. When near the water a large boulder came rolling down the wall of the lake, striking the bow and puncturing it. It was necessary to repair this before the craft could be put in the water. There are now two launches and several rowboats on the lake, and Mr. Steele is making careful preparation to care for a number of visitors. During the next few weeks he will entertain Governor Geo. E. Chamberlain and family and also E. H. Harriman, with his family and a number of Eastern friends.

The present month is the best one in the year for visiting the lake and a string of wagons is continually passing over the mountain, some coming from Medford and others going, while there is always a large party in the National Park that has come in by way of Klamath Falls. Indications at this time are that the number of visitors to this great world wonder during the present summer will be far greater than last year, which showed the number of any year since the discovery of the lake.

Practically all the Portland excursionists who are now visiting Klamath will make a trip to the lake before returning home. All of the visitors seem highly pleased with the country.
