Filings and Final Proofs Made by Homesteads and Pre-emptions.  
GENERAL CONVEYANCING.

Town and County.  
C. H. Pearce has been doing some cement work at the cold storage for the past week.

There was an enjoyable and well attended dance in Nielson's hall last Saturday night.  
Mrs. R. H. Hume was in town Monday night on her way to San Francisco, via Coos bay.

Prof. J. C. Logan and wife of Parkersburg, are visiting with friends in this vicinity.  
Steve Merrill is hauling lumber to his homestead preparatory to building an addition to his house.

Eddy Divilbiss was in town Saturday on business connected with the application of his mother for a pension.  
Mrs. Pfisterer walked up from her home on Brush creek Monday to see her new grand daughter at George Curry's.

Mrs. Walter S. Miller spent Saturday and Sunday in Port Orford, on her return from a visit with friends as far north as Myrtle Point.  
S. P. Petros and wife were trading in town Monday. Mr. Peirce won in the Roseburg office in his land contest with Hans Adolphsen.

Henry Chesley has moved his family from his home on the Myrtle Point road near Hare, to Bandon, for the purpose of schooling his children.  
The parties from Marshfield, who with Ed Lindberg, have been camped at the lake near Agate beach for the past month, returned to their home Thursday.

Wm. Meek was in town from his home on the Neely place Monday, and informs us that he will soon leave for his old home in Wyoming where he will again reside.  
Two men, two boys, one woman, five horses drawing two covered wagons, one dog and eight head of cattle, formed a caravan of travelers that passed up the coast one day last week.

Rev. Habagly of Bandon, held services in the church at this place last Sunday morning and evening. He will continue to preach here the second Sunday in each month until Rev. Ruch again resumes the service.  
Mrs. Thos. Lane and children returned to their home at Coquille last Thursday. They were accompanied as far as Bandon by Mrs. P. J. Lindberg and Jas. Lane, the latter driving the party up with his team.

Frank Carr, of the Coquille Custom Shoe Factory, was in town Friday night on his return from a trip to Humboldt county, California. After doing a good business here he passed on to his home the following day.  
According to the returns from all the congressional districts in the United States the next National House will contain 215 Republicans and 176 Democrats, while the present membership is 223 Republicans and 166 Democrats, with two vacancies.

Mr. and Mrs. Oscar Myther are at present in Smith River, Calif., and it is probable that they will spend the winter in Del Norte instead of going on to Humboldt as were their intentions when they left here.  
Mr. Bennett, who handles the ribbon on the north bound stage, treated his young friends to taffy last Sunday. He is an expert candy maker and pulled ten pounds of the toothsome stuff that was highly enjoyed by all who got a taste.

An important land decision has lately been rendered in a land contest at Siletz, Ore., in which the homesteader was upheld although he had not cultivated more than an acre and a half of ground and had been off his place about half the time making a living.  
The machinery in the cold storage plant at Port Orford will not be put in running order this winter, as the two gentlemen who came here some time ago to install it left last week for their homes in Portland. It was Mr. Hume's intention to have the plant in readiness to take care of the fall run of fish in Elk and Sixes rivers, but as it is already too late for that and the uncertainty at this time of the year of handling the material necessary to complete it, has caused him to discontinue the work until spring.

Beautiful weather has been on the calendar for the past week—clear bright days and warm nights, and the chances for the old cow to pull through the winter continue to look brighter.  
Mr. Barnett, who has been at Camp Merrill on Elk river for the past few months, was a passenger on the stage this morning for Oakland where he goes to assist Dr. Merrill in his sanitarium.

D. F. Dean, who has been connected with the Coquille Herald since it was founded in 1882, has turned over the care of the paper to C. O. Dryden for a year or so, while the former takes a well earned rest. We wish the new management success.  
Dr. Gianville was called to see Jas. Sutton last week, who was suffering from a bad case of cedar poisoning in his foot which the Dr. found necessary to lance. It healed rapidly however, and Jim was able to start for California yesterday with his sister.

George Taylor of Eekley, went down to the county seat with the election returns from his precinct one day last week; returning Friday. The Tribune office acknowledges a friendly call, and we extend a most cordial invitation, together with the glad hand, to others of our readers will call in the same substantial manner.  
A letter from R. L. Finlayson, who not long ago was superintendent for R. D. Hume at Wedderburn for a couple of years, states that the writer since leaving here has been a resident of Marysville, Cal., where he has been and is operating fruit canneries for the California Fruit Canners Association.

H. E. Rafferty, representing the McCormick, Saelzer Company of Redding, California, arrived in Port Orford at midnight Monday and went out to Camp Merrill the following day on a business visit to Ira Merrill. Mr. Rafferty was driven down from Myrtle Point by Wm. Weekly. They left on their return this morning.

J. Huntley was in town since our last issue returning from his vindication at the recent land fraud trials at Portland to his home at Gold Beach. Mr. Huntley received the congratulations of many friends on his acquittal, and he expressed himself as being of the opinion that the other Curry county defendants would have fared the same as himself had they not plead technically guilty.  
Jobny Hurst and Warren Neely left last week for Rock creek where they intend to do some mining and development work on locations that they have near the Curry mine. The boys expect to be gone three or four months and judging from the nice specimens that the former brought out from there a short time ago, they should at least make good wages while standing a chance to strike something rich.

Jas. and Mary Sutton started for Marshfield yesterday where they will take the Plant for San Francisco, from whence they will go to the southern part of California. While attending school in Port Orford last spring Miss Mary contracted the pneumonia from which she has not fully recovered, and she goes south in hopes that she will regain her health in a warmer climate—hopes that are echoed by all her many friends, who expect to see her return in the spring much benefited by the trip. The young people were accompanied as far as the bay by Miss Anna Dean who will probably remain for some time in Coos.

W. E. Barrow was in town over Friday night on his return from an extended visit to his old home in Tennessee and other eastern states. He was accompanied by an elder sister, Mrs. Robinson, who will spend the winter visiting with him at his Ophir home. Mr. Barrow informs us that he is doing well with the cleveat that he invented some time ago, and will soon have matters arranged so that he will be receiving a good royalty from its manufacture. Though his hair is tinged with gray Mr. B. brought with him a thoroughbred colt of racing stock, being a descendant from horses that he introduced in Tenn. more than 40 years ago, and over which he is justly proud as it was presented to him by eastern friends. He sounds a note of warning to the young men of Curry who think they have speedy horses.

Mr. Barrow and his sister were being driven to Ophir by Rufus King, who met them at Roseburg. Senator Johnathan Bourne has gone east to play golf with President-Elect Taft at Hot Springs.  
Vessels are no longer disinfected before leaving San Francisco, as there has been no bubonic plague for the past eight months.  
A Grants Pass friend sends us the following:  
"The people of Grants Pass were startled on Nov. 1st, by seeing Harvey Cook, running in his shirt sleeves bareheaded toward the west. And a cop, thinking something very wrong had happened, had a hard time to stop him, and when he asked what was the matter, Harvey exclaimed: "Let me go, I'm Dad and must tell Papa and Mamma. It's a girl and weighs 8 pounds." And on he went much faster than he ever ran a foot race, and soon Grandpa and Grandma Cook were seen to pass going to see their little granddaughter. The mother and daughter are doing fine and we hope time will quiet Harvey's nerves.

The "Coquille," the new boat which was built at Coquille, and which will run between here and that city was towed down yesterday and her machinery will be put in at once and she will then be ready for service. The Coquille River Transportation Co. has not decided as yet just what run the Coquille will take but it is possible that she will make the two round trips a day. She is an elegant little boat, built for speed and durability and will be a fine addition to the line of five steamers owned by that company.—Bandon Recorder.

Langlois Items.  
F. Thomsen and wife were in Bandon Tuesday.  
Mabel Jensen is staying with Mrs. Chenoweth for a few weeks.  
Marion Zumwalt was in town Thursday.  
Agate Circle met Thursday with a fair attendance.  
Jake White and mother and Ida Cope were Bandon visitors last week.

Mr. and Mrs. Burnham who were registered at the Pioneer Hotel for a week, left Wed. for the East.  
Jas. Chenoweth is having his porch covered which will add greatly to the appearance of his cottage.  
Jas. P. Olsen and family moved to Langlois again having spent the summer at Bandon.  
Prof. and Mrs. J. C. Logan passed through town on a visit with friends below.  
Mr. and Mrs. Storer Pierce were doing some shopping and attending business matters in town Sat.

Hazel Bement who has been at Wedderburn for some time returned to her home at Denmark.  
Ruby Sorenson and Ivy Langlois called on friends in Denmark Sunday.  
Mrs. E. Bossen left Monday for an extended stay with her daughter Mrs. W. H. Patton of Bandon.  
Calla Chandler passed through town Sat. to her home at Myrtle Point. Miss Chandler has been teaching at Elk River.

Mrs. F. M. Langlois had the misfortune to let fall and break a valuable piece of plate ware.  
Mrs. Langlois is heart stricken at her loss as it is almost impossible to replace it.  
While playing with some other children last week, Ivan Bowman fell and broke his leg, but it is doing nicely and he will no doubt be about soon.

Asking too Much  
I believe there's a story told of Mark Twain that in youthful days, being sent out by his mother to weed a certain flower bed, and finding more weeds than flowers, he came back in and asked if he might not "flower the weed bed."  
Our little Alfred probably has as great an aversion to work as had the youthful Clemens. Admonished to pull some rather large weeds in the back yard, after a faint hearted hit on one of them, he shouted: "Mama, how do you think I'm going to pull these weeds when the whole world is hitched onto them?"—November Woman's Home Companion.

(COQUILLE HERALD)  
Last Saturday was the last trip of the afternoon train and the service has been discontinued for the time being. We understand that the two train schedule will be taken up again in the spring.  
To the visitor in our city things do not look so slow when they view the new buildings in progress. One good point to be noticed is that all of them are modern, up to date houses and every one will be great credit to our town.  
A junior football team has been organized in this city and the boys are practicing and will be out for a few match games in the near future. There is good material in the team and with the proper handling we expect to hear some good reports from them.  
Adam Pershaker, the retired sawmill man of Prosper, returned Saturday from a trip to his old home near St. Louis, Missouri. He told us about meeting many of his boyhood acquaintances and friends with whom he talked over old times with exceeding great pleasure. He took an old fashioned squirrel hunt and succeeded in bagging a squirrel, after which he was obliged to climb a tree, which he did, not with the alacrity he used to do it, but got there just the same. J. W. Clinton who accompanied him has not returned.

(COOS BAY NEWS)  
Trotting for salmon afforded good sport in the Coos river channel, opposite town last week. Nearly all the fishermen were lucky enough to get one or two during a portion of each afternoon, and some got as high as nine.  
Hallowe'en passed off quietly in town this year, and if there was any wanton destruction of property we haven't heard of it. It's all right for the girls and boys to have a little fun, but it should be confined to harmless pranks, which was not the case on similar occasions heretofore.  
The hull of the new dredge lately built for Julius Larson at Eastside for work in the beaver slough drainage district, was ready for sea, Saturday and will be towed to the Coquille by the Wilhelmina when conditions are favorable. The machinery has already been shipped to the Coquille and will be installed on her arrival there.  
Once more the Drain Noupriable learns from the most reliable authority that work is soon to be resumed on the Drain—Coos Bay R. R. Grading is not to commence before spring, but work on the tunnels and clearing off the right-of-way may begin within a few weeks.  
Harriman must have heard that some of hill's surveyors were in Coos county; but he must think Hill is an easy game if a little tunnel work and brush cutting will scare him out. It may do, however, for the winter, but if Hill's men return in the spring, it will be necessary for Bro. Harriman to ship another cargo of cement to the Umpqua and contract for an extra ton of hay in Paradise valley.

The Knock-out Blow  
The blow which knocked out Corbett was a retaliation to the prize fighters. From the earliest days of the ring the knock-out blow was aimed for the jaw, the temple or the jugular vein. Stomach punches were thrown in to worry and punish the fighter, but if a scientific man had told one of the old fighters that the most vulnerable spot was the region of the stomach, he'd have laughed at him. Dr. Pierce is bringing hope to the public a parallel fact; that the stomach is the most vulnerable organ out of the five rings as well as in life. We protect our throats, feet and lungs, but the stomach is utterly indifferent to, until disease finds the solar plexus and knocks us out. Make your stomach strong and strong by the use of Dr. Pierce's Golden Medical Discovery. It cures weak stomach, indigestion, or pure blood and other diseases of the organs of digestion and nutrition.  
The "Golden Medical Discovery" has a specific curative effect upon all mucous surfaces and mucous canals, no matter where located or what stage it may have reached. In Nasal Catarrh it is well to cleanse the passages with Dr. Sage's Catarrh Remedy while using the "Discovery" as a constitutional remedy. Why the "Golden Medical Discovery" cures catarrhal diseases, as of the stomach, bowels, bladder and other pelvic organs will be plain to you if you will read a booklet of extracts from the writings of eminent medical authorities, endorsing its ingredients and explaining their curative properties. It is mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y. This booklet gives all the ingredients entering into Dr. Pierce's medicines from which it will be seen that they contain not a drop of alcohol, pure, refined, and free from being used instead.

Dr. Pierce's Great Medical Discovery will be sent free, paper-bound for 21 one-cent stamps, or cloth-bound for 31 stamps. Address Dr. Pierce as above.

A Boston schoolboy was tall, weak and sickly.  
His arms were soft and flabby. He didn't have a strong muscle in his entire body.  
The physician who had attended the family for thirty years prescribed Scott's Emulsion.  
NOW:  
To feel that boy's arm you would think he was apprenticed to a blacksmith.  
ALL DRUGGISTS, 50c. AND \$1.00.

Eugene surprised the people of this entire country last year by raising a great advertising fund and paying a salary of \$5,000 annually for an expert. Up to last Saturday night there had been subscribed for the coming year \$13,661, to which will be added \$1400, the total being more than a dollar and a half for every man, woman and child in the city, and this will be used in advertising the resources and advantages of Eugene and Lane County. Eugene is determined to go ahead and doesn't mind a little thing like a national election. What other town of 10,000 people in Oregon, Washington or California can match this record?  
Only a Lack of Facilities  
Clara's aunty took her for a visit to Niagara Falls. After viewing the great waterfall for some time and the little girl failing to make any remarks, aunty tried to draw some expression from her as to what she thought of the spectacle. Finally she said:  
Clara, don't you think the falls are beautiful, wonderful?" and was amazed at the child's nonchalant reply:  
"Oh, yes, I suppose so; but I think our creek at home could do it if it had a place."—November Woman's Home Companion.

Sales Agents Wanted.  
\$36.00 PER WEEK OR 400 PER CENT PROFIT. All samples, stationery, and art catalogue free. We want one permanent agent in this locality for the largest picture and frame house in America.
