They are workers from Euchre creek to Rogue river along this route, and one is surprised at the changes made in two or three years.

He hopes after a little rest at home to be entirely recovered, which is also the desire of his many friends who are rejoicing at his safe return.—Coos Bay Times.

Hon Robert Moore, an early pioneer of Oregon, and at one time Co. Judge of Curry, passed away after a lingering illness at his home in the little village of Smith River, Del Norte Co., Cal., last Friday, Dec. 18th, 1908, at the advanced age of 92 years.

Judge Moore was a man of rugged ability, sound judgment and of sterling integrity. He was a man of generous, heroic mould, of warm temperament and true steel to his friends, and obligations, and was beloved by all honorable people. Several grey haired sons survive to uphold his honored name besides his aged widow who is his third, but childless wife. Few men reach a riper age, and it was mete that rest and sleep should come like a blessing to the feeble limbs, that could no longer march.

**Read This Letter.**

Foster, Linn Co. Ore, Dec. 17, '08.

Mr. Tax-Payer and Sportsman,

Your attention is respectfully called to the petition following this article, the same is self-explanatory and we beg that you will carefully read and consider the facts therein contained.

To the Western man there is nothing so attractive as the desire to go on a hunting trip, the mighty mountains, the mysterious forests the camp by the clear running creek or river, the fat venison in the frying pan, these are the influences that appeal to us, the call to the primitive as it were, out of the misty past, calling us to once more draw near to nature and partake of her bounties.

The knowledge that we can go, when opportunity offers us a respite from our labors, enjoy ourselves and satisfy our desire for sport and recreation for a season; or that the ranchman can supply himself with the choicest of meat through a portion of the year, is a privilege that is dear to us; and it is the aim of the petition to perpetuate these opportunities we so much prize, to preserve our heritage for future years, before it is too late, for without the gamey black-tail or mule-buck the mountains would lose their chief attractiveness for the sportsman; and the valley lands without the beautiful imported pheasants, the piping native quails and bobwhites and the foot hills without the bush pheasant and blue grouse, would be a dreary country indeed, especially for a true Oregonian.

We fully believe that the figures relative to the destruction of deer by varmints, as given in the petition, are none too large. This is about what it figures up to: 26,000 deer destroyed by wild beasts, averaging 65 pounds of dressed meat each, makes 1,690,000 pounds of meat. Put at the low figure of 8 cents per pound we have \$135,700.00 worth of meat. 26,000 deer hides at 50 cents each foot up to \$13,000.00, bringing the entire amount up to \$148,700.00 in this state for one year. How does that read? Don't you think it is time something was being done to stop this slaughter? You may think the proposed bounty which we are endeavoring to have the state offer for the scalps for the different animals, as enumerated in the petition, too high. In answer to this objection we will ask you to figure up what it costs to feed a wolf or cougar a year. You will find that, figuring from our former estimate, it will cost \$296.40. How does that suit you? Do you think we can afford to pay \$25.00 each for their destruction? and as for the rest of the deer destroying animals; we feel assured the proposed bounties which we ask the state to offer, are none too high.

Now as to the bounties which we ask the state to pay for the scalps of coons, skunks, digger squirrels and crows. To those who are not acquainted with the habits of these pests, the same may seem excessive; but to those who have had an opportunity of studying their modes of obtaining a living, it is very moderate indeed, for these bird killing, egg sucking vermin are so numerous it is a wonder any young birds are hatched out or reach maturity. Taking all things into consideration, although we have nothing to figure from, still we judge if the truth of the matter were fully known the loss caused by these depredators

Deafness Cannot be Cured by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed, you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result, and unless the inflammation can be taken out and this tube restored to its normal condition, hearing will be lost forever; no case out of ten can be cured by cathartics, which is not only a most injurious condition of the mucous surfaces.

We will give One Hundred Dollars for any case of Deafness (caused by catarrh) that cannot be cured by Hall's Catarrh Cure. Send for circulars free. E. J. CHENEY & Co., Toledo, O. Made by Druggists.
