The Fourth of July during the past seven years caused the death of 1531 persons, and the wounding of 35, 134,—occasioned mainly by the insane use of fire-works. This year the loss has not been so great, because many cities either for-bade or restricted the use of explosives.

Jeffries was hammered into a helpless condition in the fifteenth round, and Johnson was hardly marked. Jeff got $117,000 for the licking, and Johnson got $120,000 for licking him. The promoters got $130,000. As a result of the fight riots broke out in nearly all the cities of the East and South, in which many men were killed—especially negros—and the end is not yet. In order to appease the curiosity of its readers in this end of the county, will the Globe kindly publish the names of those who attended the 4th of July celebration at Gold Beach, from Port Orford and Langlois, or at least enough to make good the statement that these places were "well represented." It would not be requested, but for the apparent fact that the Globe would convey the impression that people from this end of the county, not satisfied with the "doings" at Port Orford, went down to the county seat to celebrate.

Seattle, Wash., June 28.—After a terrific struggle lasting seven hours, a gigantic shark, 36 feet long and estimated to weigh more than 15 tons, was captured by the combined crews of the fishing boats Good Partner and Pioneer 11, between Port Angeles and Port Crescent, last Sunday. The monster is believed to be the largest fish ever caught in these waters.

Besides the personal injuries suffered by the various members of the crew, a big net valued at $1000 was completely destroyed. When the belly was cut into after 15 minutes work with an ax, bones indicate that it is a man eater. The bones from their size and weight, are pronounced to be human. A much chewed up and battered camera was also found.

The basket supper was really better than could be expected, the ladies received many thanks for the interest taken in preparing the eatables. Altho' some of the people expected did not come on account of sickness, we had a very jolly crowd.

The river and harbor bill provides for improving the Siuslaw river bar at a cost of $431,000, one half the cost to be paid by the local people; the work to be placed on the continuous contract system and $50,000 to be available immediately.

Assessor T. J. Thrift, who was in town last week, informed us that his visit was for the purpose of assessing church property, outside of church buildings and sites. This is a new departure here but is done on orders received from the State Tax Board, which has made a ruling that no church property, except the church buildings, pews and sites, can be exempted from taxation.

Bar Harbor, Maine, July 4.—Chief Justice Melville W. Fuller of the supreme court of the United States, died here today of heart failure. Justice Fuller was born in Augusta, Maine, February 11, 1833, and had served as chief justice since October 8, 1888. He took the oath of office on October 8 of the same year. Judge Fuller's father was Frederick A. Fuller, and there is a coincidence in the fact that his father was the son of a daughter of Chief Justice Nathan Weston. Young Fuller attended school at Augusta and was graduated from Bowdoin college in the class of 1853.

Judge John L. Childs, republican candidate for congress to succeed Mr. Englebright, recognizes the accessibility of Roseville because of its central position geographically, and has decided to open permanent quarters here and direct his campaign from this point. W. H. Wilson, who has been intimately connected with Mr. Childs in the newspaper business in Del Norte county for several years, will be in charge and act as manager for Mr. Childs.

Reports from various parts of the district are most encouraging, and from present indications there is little doubt but that Mr. Childs will be the choice of the Republicans at the August primaries. The Judge is now on a tour through the northern counties and will arrive in Roseville about July 7th.

The acquisition of Messrs. Childs and Wilson to our population, even tho' it may not be permanent, is a matter of congratulation. They are both wide awake progressive gentlemen, and while their time will necessarily be devoted to the work of the campaign, they may be depended upon to befriend this city whenever opportunity offers.—Roseville Register.

Deafness Cannot be Cured.

by local applications, as they cannot reach the diseased portion of the ear. There is only one way to cure deafness, and that is by constitutional remedies. Deafness is caused by an inflamed condition of the mucous lining of the Eustachian Tube. When this tube is inflamed you have a rumbling sound or imperfect hearing, and when it is entirely closed, deafness is the result and unless the inflamation can be taken out and this tube restored to its normal condition, hearing will be destroyed forever; nine cases out of ten are caused by Catarrh, which is nothing but an inflamed condition of the mucous surfaces.
