

Dean Mastenbrook

Jeweler

Watches and Clocks repaired at reasonable prices. All work guaranteed.

PORT ORFORD, OREGON.

Curry County Abstract- Realty Company.

Gold Beach, Oregon

He thought the title good, for he had bought from old man Brown, an honest man. Come to find out the deed was not on record; he would file it at once. The Patent he had never seen, but would look that up too. The buyer wanted the farm if the title was good, but had to be shown. The deal fell through. Get an abstract and be ready.

KNAPP HOTEL

Port Orford, Oregon.

L. KNAPP Proprietor.

First-class in every respect.

Good Feed Stable attached.

Notice of Sale.

Notice is hereby given that pursuant to an order of sale made and entered by the County Court of Curry County, State of Oregon, on the 19th day of April, 1916, in the matter of the estate of Thomas Cornelius, deceased: I will sell at private sale, by sealed bids, on Thursday, May 25th 1916, to the highest and best bidder for cash in hand, the following described property:

The East half of Lot Eight in Section thirty-two in Township 32 South of Range 15 West of the Willamette Meridian, Curry County, Oregon, subject to the confirmation of the court. Ten percent of the offer must accompany each bid, cash or certified check.

F. J. LINDSAY,

Administrator of the estate of Thomas Cornelius, deceased.

Date of first publication April 28, 1916.

Trespass Notice.

Notice is hereby given to all persons whom it may concern, not to enter upon or trespass upon the premises of L. Knapp, for the purpose of hunting, or fishing with hook and line. Said premises are situated on Elk River, Curry County, Oregon, and generally known as the "Bond" place.

Any person or persons so trespassing for the purpose of hunting, fishing, or traveling through in any shape or manner, or tearing down fences, or leaving out side gates open, or molesting personal property, will be prosecuted to the full extent of the law.

W. B. Johnson,

Lessee of the above named premises.

FOR SALE.

Logging Donkey in good condition. Line and equipment practically new. Apply to N. H. LARSON.

Local Happenings

Dentist in town.

Dance Saturday night.

Celebrate the 4th at Langlois.

June 21st—the longest day in the year.

Sheriff Bailey and wife passed through town last evening on their way north.

Mr. and Mrs. J. R. Miller, after spending the winter here, have gone to Portland for the summer.

Two linemen from Marshfield were in town yesterday on their way to Rogue river repairing the Coos Curry telephone line.

At the school meeting at Elk river Monday, E. L. Wagner was elected director and Mrs. A. J. Marsh was re-elected clerk.

The Black Sand Plant at Gold Beach, with a lot of auxiliary equipment, will be sold at auction sale at Gold Beach on July 13th.

The young ladies of the town will give a dance in the Fromm hall Saturday night. Refreshments will be served, and everybody is invited.

Franz Nordberg left yesterday morning for Wedderburn where he expects to spend the summer mining on the ocean beach about three miles north of that place.

Oris Knapp returned home from Portland last week, a few days after his brother, Lloyd, had arrived. Oris graduated from the Columbia college this spring, while Lloyd still has two years' work ahead of him.

Mrs. T. L. Carey and two little daughters came up from Wedderburn with M. D. Sherrard Saturday and are spending the week visiting at the TRUNK home. Mr. Carey will come up after them in his Dodge car next Sunday.

The people of Euchre creek decided at their annual school meeting Monday to levy a special tax and increase the length of their school term from six to nine months. It shows an intelligent and progressive spirit that is a credit to that community.

E. C. Mather of the Coos Bay Grocery company of North Bend, accompanied by his wife and sons, passed down the coast the first of the week on their way to Wedderburn where they will visit for a month with Mrs. Mathers parents, Mr. and Mrs. M. Doyle.

Steve Spoerl, who went to Portland recently to meet his great grandmother and a cousin, Miss Perkins, returned in company with the two ladies last Friday. The party were driven from Bandon to the E. J. Baker home near Corbin by M. D. Sherrard in a Dodge car.

R. L. Macleay has the Coos and Curry county agency for the Ford automobile. Several sales have been made in the southern end of the county, and among those at Rogue river who have placed their order for a Ford, are J. Huntley and W. T. White Jr.

Miss Bernice Chandler came down from Myrtle Point last Friday to stay for a time with her sister, Mrs. J. H. Zumwalt. Miss Chandler taught school here a couple of years ago and is popular with the young folks who would like to see her back in the school room again—a wish that the older ones too would like to see realized.

Dr. and Mrs. C. W. Robbins and their little son came up from Gold Beach Friday and returned home Monday. The Dr. had a call to Cape Blanco, and also performed an operation upon Mrs. J. H. Zumwalt in which he was assisted by Mrs. Robbins. Last week the Dr. and Mrs. Robbins drove to Bandon and met the Dr.'s parents who are visiting him from their home in the east.

Several workmen filed attachment last week in Justice Wright's court on the property of the Hydro Sixes mining company. C. C. Inman, Supt. of this company, recently made a clean up that is said by those who saw it to be exceptional good. Mr. Inman at the present time is in California and it is believed that as soon as he can be reached the difficulty will be settled. The mine, which is several miles above the Dr. Elgin place on Sixes, gives every indication of being a good paying proposition, and many thousand dollars have been expended getting it in shape to work.

The Ladies Aid will meet this week with Mrs. A. S. Johnston.

Several teams came down from Bandon last week to engage in hauling ties here during the summer.

The big railroad bridge across Coos Bay is being painted. It will take a large crew of men six months to do the work.

J. Huntley, editor of the Gold Beach Reporter, passed down the coast the first of the week, returning home from a short visit to Coos county.

Geo. W. Cornwell, editor of the Timberman, a lumber publication of Portland, was in Brookings recently writing up that place for his publication.

At the Democratic convention in St. Louis last week President Wilson and Vice-President Marshall were re-nominated, as per program, without opposition.

Rudolph Loutwyler and Peder Pederson, of Sixes, were at Gold Beach last week on citizenship matters. Several witnesses from here went down with them.

Mrs. Dorothy Langlois, daughter of Mr. and Mrs. A. J. Marsh, and her little child, of Coquille, have been visiting the past week at her parents home on Elk river.

Dr. F. A. Voge, the reliable and painless dentist from Bandon, arrived in Port Orford yesterday and will remain over tomorrow. He is accompanied on the trip by Mrs. Voge.

Note the change in Chas. E. Mathers' clothing ad. in this issue, in which he offers to clean and press your old clothes as well as sell you new ones. Mr. Mathers is an old tailor and his work is first class.

Mrs. Della Nichols and little daughter, Velma, passed through town last week on their way to Langlois. Mrs. Nichols has been engaged as principal of the Gold Beach school for the ensuing year.

The Gold Beach boys are organizing a baseball team, and will go to Brookings on the Fourth of July and cross bats with the Brookings and Crescent City teams. Each of these teams have promised to be at Gold Beach later on for a return game.

Capt. John Swing with the Tramp, accompanied by several of our local people, went out to Blanco reef and returned yesterday with over 1000 lbs. of deep sea fish. They caught some 20 halibut, several of which were large ones.

Owing to the publication of a budget showing that it would be necessary to levy a special tax in the district, there was a larger attendance than usual at the school meeting in Port Orford Monday. John Fromm Sr. was elected director for three years, P. H. Poole clerk for one year and a 3 mill tax was levied.

The steamer Bear, running between Portland and San Francisco, was wrecked in the fog last week near Cape Mendocino. Of the 210 persons on board all were rescued but five. The old battleship Oregon and the steamer Grace Dollar picked up many survivors, while others from the wrecked steamer reached the shore through the surf.

Mr. and Mrs. Will Moore and little daughter Stella, of Euchre creek, passed through town yesterday en route to the Willamette valley for a two weeks' visit with friends and relatives. They will go direct to Lebanon where they will visit a few days at the T. J. Cook home, and will then return to Eugene and visit it with some of Mr. Moore's relatives at that place.

There will be a show in town tonight and another one tomorrow night. This evening the Edison Eljiot dramatic and comedy troupe will give a performance, while tomorrow Hal & Herndon will arrive with their Hawaiian singers and dancers. The former company is on its way up the coast, while the latter has been playing in Coos county where it is highly recommended.

The first load of cedar poles was hauled into town for shipment last week. This is a new industry here and is quite a help to the tie makers as it permits them to work up their small timber, a foot or so in diameter, into poles where heretofore much of it was wasted. A road has been graded from Jefferson street around to the foot of Fort Point, where the poles will be hauled and then rolled onto the beach at Battle Rock. From there they will be floated into the ocean and loaded onto vessels in the bay.

Mexican War is Close.

Following Refusal of United States to Withdraw her Troops Mexico Threatens War Proclamation.

President Carranza of Mexico has practically declared war against the United States. He has issued a proclamation ordering Americans out of Mexico because the countries are in a state of war. His order came following the refusal of this country to withdraw our troops from Mexican territory until they had accomplished the purpose for which they had been sent there.

State militias are being mobilized, and Uncle Sam is preparing energetically for this unpleasant duty which President Wilson has striven in vain to avoid.

We buy Sacks, Bras, Copper and Hides—McKenzie & Poole.

McKenzie & Poole among other things have just received a line of boys' blouse waists, size 6 to 14 years. Price 35c each. We have also received silk cordinet—plain white also in colors. Ladies' summer vests 15c each also a full line of ladies white stockings.

In Bandon last week J. M. Young shot and killed James Condas, a Greek, whom he found occupying a room with his 17 year old daughter. Young, who is 63 years of age, has given himself up and is in jail at Coquille. The sympathy of the community is said to be with the father, and it is believed that he will be cleared under the unwritten law.

N. C. Divilbiss and two sons from Bandon, and Ed Divilbiss from Sixes, were in town Sunday, the former in their Buick six and the latter in his Dodge automobile. Ed looks quite lonesome riding around in his car alone, and admits it is lonesome as it looks. He is a genial, reliable young man with no bad habits, whom we gladly recommend as the making of a model.

W. H. Bennett made a trip to Coos bay last week to see if he could not make arrangements with some of the gasoline boats to bring a load of merchandise to this place. As a result of Mr. Bennett's visit the Tramp came down Monday with a full cargo for this place. It was the first boat to land anything here to speak of since the wharf went down. The stores were running short several lines, and the Tramp's visit was a welcome one.

Ex county Judge, E. A. Bailey and two sons, Clark and Tom, passed through Port Orford Monday on their way to Gold Beach. Since last fall their home has been in Portland, and after a visit at Rogue river Mr. Bailey and his youngest son will return to that city, while Clark expects to remain here during the summer. Several months ago Judge Bailey underwent quite a severe operation, and his many friends in the section will be glad to learn that his health is now considerably improved.

Take Option To Buy Wharf.

Joseph Fyfe, of the Fyfe Wilson Lumber company who succeeded the A. F. Estabrook company in this business in this section, accompanied by his local agent, A. W. Best, came down from Bandon last week. These gentlemen went on to Wedderburn and were accompanied on their return by R. L. Macleay, and in a meeting with the Port Orford Wharf company Sunday. Messrs. Fyfe and Macleay took an option for two weeks to buy the wharf. It is believed that the sale will be made without doubt, in which event work will commence rebuilding the wharf as quickly as possible.

While nothing definite has been given out, yet it is generally understood that the new wharf will be more substantial than any that has heretofore been built at this place. The combining of the two companies represented by Messrs. Fyfe and Macleay in the ownership of the wharf, should be a good thing for Port Orford. It will probably mean that Mr. Macleay will make this the headquarters for much of his shipping, which at the present time is being done through Coos Bay. Both of these gentlemen give the assurance that they will work in harmony with the people in every way possible to assist in the further development of the community.

WANTED—Brush cutters, apply DAVID MCKENZIE, Elk river bridge.

McKenzie & Poole, Agency for Bandon Steam laundry, Suits cleaned & pressed and returned promptly.

E. B. Thrift and family, and Miss Nettie Gibson, of Langlois, were Port Orford visitors Sunday.

W. T. White Sr., who has been buying wool, has been wired by his company to make no further purchases. The order comes as a result of the probable war with Mexico.

Jack Guyton, who arrived at Wedderburn some two weeks ago having come into Curry via Grants Pass and Crescent City with R. L. Macleay, was in Port Orford over Saturday night on his return to Coos bay. Mr. Guyton is a newspaper reporter and has been writing up his trip for the Oregonian.

Mr. and Mrs. H. C. Hampton, of Eckley spent several days in town since our last issue visiting with Mr. and Mrs. L. Knapp. Mr. Hampton has had the old Joe Haines place at Eckley leased for the past several years. He is a progressive farmer, and has built up what is probably the finest herd of beef cattle in the county. Some of his Hereford stags have won the blue ribbon at the state fair, and he was the first in this end of the county to build a silo. That the modern methods he introduced on the place are a success have been proven by the big price he has received for the stock he has turned off, and in his success in carrying them through the winter. Last winter one of his neighbors lost 17 cattle out of 36 and 3 horses out of 5, while Mr. Hampton out of his large band did not lose a hoof. Mr. Hampton's lease on the place will expire Sept. 1, and he and Mrs. Hampton plan at the present time on moving back this fall to near his old home in Virginia where they will reside in the future.

Have Good Time At Social.

The social given in the band hall last Saturday night by the Ladies Aid was well attended and was a success socially and financially. The Aid cleared something over twenty dollars, which, as stated before, was donated to the band for uniforms.

The program consisted of a number of selections by the band, songs by Messrs. Marsh, Johnston and Larson and violin solos by C. H. Pearce, all of which won hearty applause from those present. After the program, games were played and the affair as a whole was a very enjoyable one.

The Toredos.

C. H. Pearce brought the torredo eaten end of one of the piles that went out of the late wharf, to his shop in town a few days ago, that attracted considerable attention. The stick was taken as a sample of the destructive work of these insects. It was cut from a pile that was 16 inches in diameter at the small end, and had been driven in 23 feet of water one year ago. The stick was fairly honey-combed and when it was split open these insects or worms were so thick that they covered about half the wood, the vitality of which they had sapped. A peculiar feature, found on examining the piles, was that the torredos had invariably selected the largest ones to attack, many of the smaller piles being almost as sound as when they were driven. The torredo commences its work as a very small insect, usually where there is a break or fault in the pile. Its tail just reaches to the surface of the stick and there it remains while the torredo grows head first in to the wood. It is equipped with two little shells on its head which are used as an auger. The torredo is about the same in diameter as a lead pencil and varies in length according to age. Some of these, that were less than a year old, were 15 inches in length, while it is claimed that they will sometimes grow to be two or three feet long.

Do Not Neglect Your Teeth

It is dangerous. Scientists have proven that bad teeth and gums cause a great many diseases of which the following are the most common: Neuralgia, dyspepsia, ulcers of the stomach, rheumatism, endocarditis (inflammation of the heart lining), appendicitis, insanity, and a great many other ailments. "A stitch in time saves nine." If you have pyorrhea I can positively cure it. If you haven't it yet, don't wait till you get it, for with the proper care and a visit to my office once or twice a year you can remain free from that dreaded disease at an extremely low cost. It is easier to prevent than cure, and that is my constant aim. I teach you how to take care of your teeth, thereby preventing disease and decay, and reducing your dental bills at least one-half.

Fear keeps most people away from the dentist. That is not the case with my patients, for I can do your work with so little pain that it takes away that dread and fear. In most all work the prick of a needle is all that you feel.

I stand back of my work; if at any time you are not satisfied I will be only too glad to make it right. I want all my patients to be my friends and co-operate with me in spreading the gospel of mouth hygiene.

Don't procrastinate; come in and let me advise you what you are in need of, and give you estimates of cost. I will make regular trips to Langlois and Port Orford—watch this paper.
