THE TEXT BOOK GRAFT.

It has been announced that the state text book commission has just completed the work of selecting a set of text books for the ensuing six years.

Oregon's school resources have been mis-managed and squandered until her finances for the education of her children are in a shameful condition.

And then, on top of the poverty-stricken condition of our school system, the parents are forced every six years to buy a complete set of new books for their children.

Oregon in many ways is a leader in progress, but her school system has not kept pace with her other activities.

"AID"? THAT IS NOT WANTED.

The editor of the Gold Beach Reporter attempted last week to justify his treacherous attempt to defeat the Port of Port Orford, and in doing so only made bad matters worse.

The Reporter says a recent editorial in the TRIBUNE entitled "Jack In The Box" touching upon the reason why the Gold Beach paper made the attack upon the Port, was filth.

In beginning his article the Reporter editor takes a slap at those who voted the Port by saying of them, "which goes to show they are progressive in the extreme if not overly cautious with regard to the expenditure of public funds".

The Reporter was an enemy to the Port before election and it stands to reason it is one yet though now in the role of a wolf in sheep's clothing, and the people of Port Orford who worked long and earnestly for this Port as the means of the development of their community would serve notice upon the Reporter editor that they want none of the well-wishes and aid of one who while fawning upon the Port yet is seeking opportunity to knife it in the back.
