VOL. 1. No. 4

REDMOND, CROOK COUNTY, OREGON, THURSDAY, AUGUST 4, 1910

\$1.50 PER YEAR

GOOD PRICES WILL PREVAIL

Farmers and Ranchers Are Assured of Returns This Season

All kinds of crops in the Redmond District will yield a bountiful harvest this season, and the prices for same promise to go far ahead of former years. The hay crop that is being gathered now is the largest ever harvested in this section, and the second cut of most places will go, it is said, as large as the first. Some of the ranchers will cut three crops. How high the price of hay will go before the winter is not problematical, but it is an assured fact that the price will go below \$20 per ton, and we predict the price will reach \$40 mark. As nearly every farmer and rancher in this district will have hay to sell this fall and winter, the outlook is that they will get a good piece of money from this crop alone.

The potato crop is another source of revenue this year that will help put the farmers and ranchers on Easy street. While it is stated that the potato acreage is not much larger than last season the yield is expected to be greater, and the price higher. Some ranchers in this section have already been offered 75c per pound for their crops as they lay in the ground. But these offers have been refused, for the growers confidently predict that the price will go to between 50 and three cents a pound at least, before the first of the year.

YOUNG WIFE TAKES LIFE

Acid of Prineville Salesman's Wife With Acid Is Unaccountable

Mrs. J. W. Stewart, 19-year old wife of a dry goods salesman at Prineville, took three ounces of carbolic acid at home in that city last Wednesday afternoon at three o'clock, and died an agonizing death three hours later.

Mrs. Stewart went to Prineville a month ago with her husband and 2-year-old daughter from Spokane. Mr. Stewart bought lots and built a little cottage in one of the best residence sections of the city.

He went to work last Wednesday as usual and about 3 o'clock Mrs. Stewart and the little girl went to the home of a neighbor for a visit as was her custom. Mrs. Stewart asked to borrow a little carbolic acid and was given a four-ounce bottle about three-fourths full. She kissed the little girl and said she would let her play awhile and went home alone.

Two hours later the little girl went alone, and failing to get into the house called the assistance of a neighbor. The neighbor found the door locked and raved through the window. Mrs. Stewart was sitting propped up on her bed. The acid bottle was found by the bedside. Physicians could do nothing to save her.

A note was found clasped to Mrs. Stewart's breast addressed to her mother. It read as follows: "I am well pleased with Mr. Stewart and his little girl is a darling. I have told you several times I was going to leave this world and now I have decided to go. I will meet you soon."

Another note was found which read: "Don't let Ines know anything like this ever happened." Ines is Mr. Stewart's little girl.

At the foot of the bed was found a loaded pistol. Mr. Stewart says that he has owned it for a long time but that it hadn't had a load in it for years, so far as he knew.

Is Pleased With the Redmond District

S. S. Early of Couer d'Alene, last week bought the L. E. Garlinghouse farm of 80 acres five miles north of the city, and has moved onto the place. Mr. Early has been in the Redmond District for some time looking the

country over with a view to investing, and the Garlinghouse place was just what he wanted. Mr. Early is an experienced farmer and rancher and will be a welcome addition to this section of the county.

Enjoying Good Business

Since taking charge of the Royal Cafe in this city Stairs & Finn have established a nice business, and their patronage is increasing. Both of the proprietors are experienced restaurant men and have for their motto: "Nothing is too good for our patrons." The Royal Cafe is located at the corner of Sixth and F streets.

BE A PAYING PROPOSITION

Dairy and Chicken Ranches Would Make Money In This District

One of the best paying propositions that could be instituted right now in this section is the establishing of small dairy and chicken ranches. There is a wonderful scarcity of butter and eggs in this section. The Pioneer Creamery at Prineville is supplying most of the butter sold here, and even then there is a call for more. Eggs are being shipped in from Portland by some of the merchants, as the local supply falls far short of the demand.

The demand for the above commodities is constantly increasing. The price for both butter and eggs is way up, and the persons who engage in furnishing the Redmond market with these two necessities would be sure of making a satisfactory return on their investment.

Property Values Show Increase

Last Thursday G. M. Huffman sold the F. E. Mills residence and a 50-foot lot to T. M. Manderscheid for \$1300. A month ago this property was bought by Mr. Mills for \$1200, and while the \$100 advance it sold for in thirty days is not of great magnitude still it shows that Redmond property is having a steady and sane growth. It is understood that Mr. Manderscheid will reside in Redmond.

Business Changes

Last Saturday Frank Zumwalt purchased his brother Lee's interest in the pool and billiard hall on the corner of Seventh and E streets, and Monday sold the place to Snell & Green. Mr. Snell is from Arlington and Mr. Green has been a resident of this county for several years. Mr. Zumwalt is yet undecided as to what business he will engage in.

J. A. Webber of Madras, and J. R. Williams of Bend, last week bought the soft drink establishment and barber shop and bath room on south Sixth St. of C. Stroud. The new proprietors state they have engaged two first-class barbers from Portland to take charge of the barber shop and bath rooms.

The First Load of Brick

The first load of brick from the brick yard near this city was brought into Redmond last Saturday forenoon. The first kiln burned contained 150,000 brick of a superior quality. Experts pronounce the brick manufactured here as superior to any made in Central Oregon.

Started Lumber Yard

Ben Gotter, the contractor and builder of this city, has put in a lumber yard east of Jackson's hardware store, and carries a stock of rough and dressed lumber, and kiln dried lumber. He is figuring on getting the output of another mill soon.

Enlarge The Spokesman

As soon as the necessary material arrives The Redmond Spokesman will be enlarged to a 7 column folio size. This will give 134 inches of space for reading and advertising matter. The new material is expected here so the change can be made week after next.

Moving Pictures, Etc.

R. K. Potter and wife arrived here from Shaniko last week and are making arrangements to put in a moving picture show, roller skating rink and bowling alley here. These people are experienced in the above lines and if the necessary arrangements can be made they will give the Redmond people some varied amusements.

BRICK BUILDINGS CONTEMPLATED

Redmond Business Men Having Plans and Specifications Made and About to Enter Upon An Era Of Brick Buildings In the Business District--Brick From the Local Plant, Which Manufactures a Superior Article, to Be Used--Continued Activity In All Branches of the Building Line

If present calculations and plans of Redmond property owners do not fail the coming fall months will witness a brick building boom that will put this city in the lead of any other town in Central Oregon for handsome, substantial brick business buildings, erected with brick from the local plant, which has the reputation of making the best brick in this section of the state.

Ehret Bros., pioneer general merchants, are having plans made for the erection of a two story brick on the site of their present location. The details are not yet worked out, but it is stated the new building will probably be 100 feet deep with a 50 foot frontage on Sixth street.

Norwood & Mendenhall, next door to Ehret Bros., are figuring on a 25x75 foot building to conform in architectural design with the Ehret building.

The Redmond State Bank contemplates building on the corner across Sixth street from their present location. Whether they will build a brick or wooden building has not yet been determined, but presumably they will use brick.

Several other brick business buildings are contemplated, but the plans are not yet ready to be given the public.

The trustees of the Methodist church have nearly all the material on the ground for their new church, and expect to begin operations next week.

It is understood that the Presbyterian church people are considering the advisability of building a church at no distant date.

The Snider building on Seventh street and the Lamb Feed Co. building on south Sixth street are nearing completion. W. W. Caughy is putting up a new residence in the southern part of the city, and a number of other buildings and improvements in different parts of the city are being started or are under way.

COUNCIL PUTS LIMIT AT FIVE

That Many Near Beer Establishments Allowed To Operate

At the several meetings of the city council held since the last regular meeting considerable business has been transacted.

The number of near beer places allowed to do business in the city was limited to five, the number now in operation.

The marshal was instructed to strictly enforce the 11 o'clock closing provision of the ordinance regulating near beer places.

City Recorder Walker tendered his resignation, which was accepted and Wm. Phoenix was appointed to fill the vacancy.

The \$500 bonds of proprietors of near beer places have been received and accepted.

Business Demands More Room

Since engaging in business in Redmond nearly two years ago the Lamb Feed Co. has enjoyed a satisfactory business. This year the company outgrew their old quarters and are building a 22x30 ft. addition which will front on Sixth street. A roller mill will be put in and a gasoline engine installed to operate the machinery. The company does all kinds of grinding and manufactures a superior grade of graham flour. They draw custom from a large territory.

A Little Notice

If you want to know what is going on in Redmond or around the country while it is news to you, subscribe for The Redmond Spokesman. It will tell it to you as the publishers are hustlers for news of the city and country, as well as boosters for Redmond. A Subscriber and Friend.

Will Have Fish and Oysters

Stairs & Finn, proprietors of the Royal Bakery and Restaurant in this city, have made arrangements to receive Thursday of each week a shipment of fresh fish and eastern canned oysters. They received a shipment this week and disposed of it in short order.

favor of county division as the present size of Crook county is too large for the authorities to keep the bridges in proper repair.

It is understood that Webber & Williams of this city, think of putting in a moving picture show here three nights in the week, to work in conjunction with the Bend, Madras and Shaniko circuit.

Henry Gaddie of Seattle this week bought, through the Deschutes Realty Co., a 25-foot front business lot on Sixth street next to J. W. Woodruff's store for \$1375, and G. M. Huffman bought the adjoining 25 feet on the north for the same price.

Mrs. Geo. Ehlers and two children left recently for an extended eastern trip. She left Portland over the C. P. and will return by the S. P. route. While away she will visit her mother in Wisconsin and Mr. Ehler's relatives in Iowa.

The Redmond Realty Co., successors to Ellinger & Taliaferro, with Z. Taliaferro, manager, is the name of a new business enterprise here. Mr. Taliaferro is well and favorably known in Redmond and vicinity and will conduct a general real estate business.

A Popular Place For the 'Eats'

"Jack's Place," the day and night restaurant on the corner of Sixth and F streets, is the mecca for the hungry, for when a person is hungry, no matter what hour of the day or night, they want something to eat and "Jack's Place" delivers the goods in a satisfactory manner.

SISTERS

Jack Stedamen has a contract for clearing the land on Frank McCaffery's farm known as the Cary Place, three miles from here.

Clarence Adams of Redmond, was over here last Friday with a load of supplies for W. F. Stevens.

Traffic through this place over the mountains this season has been much heavier than formerly. Sisters is the junction point for all travel over the mountains on the McKenzie and Santiam routes.

Glenn Cox of Redmond, was over here last Friday looking after some clearing work that is being done for Frank McCaffery on his farm south of here.

M. L. Job and son, who have a nice farm three miles east of here, went to Redmond last Saturday and bought a binder. They say they will have a large oat crop this year.

DON'T DELAY TO REGISTER

Voters Must Register in Order to Vote at November Election

All voters qualified to vote at the coming election in November should register their names at once. No one can vote unless registered. Registration books for the City of Redmond and the Redmond Precinct are now open at Judge Wilcox's office, and will remain open until Sept. 14. After that date it will be too late to register. It is the duty of every citizen to see that all voters are registered.

Grandma McClay 110 Years Old

Mrs. Elizabeth McClay of Indianapolis, Ind., grandmother of Z. T. McClay of this city, is in her 110th year. She was born among the hills of Eastern Tennessee in 1799, and is the fifth of fifteen children. A few years ago in talking about her life in a newspaper interview she said she had walked from Tennessee to Indiana and back five times in her early life, in company with her husband and four children. Up to the age of 101 years she had never worn glasses as her eyesight was almost perfect, and she had never been in need of any false teeth. She spends the most of her time making quilts, and the year she was 101 made twenty-one quilts. Two of her children are still living.

Mail Schedule Changed

A change has been made in the mail schedule at this place. The mail leaves here now at 6 a. m. instead of 7 a. m. and leaves Prineville at 12 o'clock now instead of 2 p. m. This should make the arrival of the mail two hours earlier here.

DR. GORAY COMING

Dr. Goray of Portland, is a licensed physician and surgeon of the State of Oregon, but limits his practice for the past twelve years to the specialty of Eye, Ear, Nose and Throat, and the Fitting of Glasses.

Dr. Goray graduated 19 years ago from Harvard University Medical School, and in 1898 from the Massachusetts Charitable Eye and Ear Infirmary of Boston, and settled in Portland in January, 1904.

This is a rare opportunity to receive the services of a Specialist on the Eye, Ear, Nose and Throat, of one who is a graduate in medicine.

You can be examined and treated by him HERE just as thoroughly and scientifically as in Portland.

EYE—Poor Sight, Headaches, Tumors of Eye, Inflamed Eyes, Crossed Eyes.

EAR—Deafness, Noises, Catarrh.

NOSE—Catarrh, Obstruction to Breathing, Adenoids, Polypus.

THROAT—Diseased Tonsils, Inflammation, Catarrh.

New Dishes and Crockery

We have recently received a new stock in the above line and you are invited to inspect the stock—it will please you.

SPECIAL

 Lemon Cling, Solid Pack Peaches. These are a big bargain at per can only 20c

New arrival of a line of General Merchandise. Everything to meet your wants at right prices.
