M. Smith, Mrs. Ricker and Mrs. Jones. The meetings are arranged so that sewing machines may be used. It is urged that all who can, should be on hand to help with the work.

## COUNTY OF DESCHUTES

Some Pertinent Facts Presented To the Voters of Oregon Showing Why the County of Deschutes Should Be Created Out of the Northwestern Portion of Crook County

There is one County Division proposition before the voters of this State at the November election that should claim the serious attention of everyone.

The people of the Northwest corner of Crook County, living in an area of more than 2200 square miles, and with a population of more than 3000 inhabitants, having complied with all the laws of the state relative to the creation of a new county, ask that a new county be created, named Deschutes.

Crook County is one of the largest counties in the state, and the people of the proposed New County, feeling that they are qualified to economically administer their own governmental affairs, have, after carefully considering all parts of the County, proposed the only JUST and FAIR DIVISION in sight at the present time. This leaves three-fourths of the County entire, from which two new counties may be created in the future, and still leave Crook County as large as either.

The name DESCHUTES is the appropriate one, the proposed County being watered its entire length by the river of that name.

It is better to divide the counties that are too large. There is a right and a wrong way of doing this, but we feel that the promoters of the proposed DESCHUTES COUNTY followed the very best plans for effecting their organization in the right way.

The proposed COUNTY of DESCHUTES has both of the new railways into CENTRAL OREGON, in its entirety, so

that all such interests will be kept together.

When the COUNTY is organized, the proper development can be fostered and encouraged.

The country within the boundaries of DESCHUTES COUNTY is capable of presenting to the STATE such development as will be an honor to it. The development of industries along our magnificent river, with its world famed water power, its great and growing segregations of irrigated lands and its broad stretches of valuable timber, will be the opening wedge of the whole heart of OREGON.

The time has come to get out of the rut of days gone by when the Cattle Kings and Sheep Czars absolutely shut out the coming farmers, all because they wanted the whole range for their own private use. In these days the cry is MORE FARMS and better tilled. The same cry echoes smaller counties and more closely knit together.

DESCHUTES COUNTY should carry in the STATE by the largest vote of any county proposition, on account of the correct and equitable proposed division.

Let every man voting for his own COUNTY DIVISION vote "YES" on number 350.

Let every honest man in the STATE who wants to see OREGON grow and take her place in the front rank, vote "YES" on number 350.

When you go to the booth on November 8th, apply the GOLDEN RULE, and vote "YES" on number 350, to create DESCHUTES COUNTY.

ITS A STEP FOR PROGRESS IN CENTRAL OREGON.

## BIG DANCE BY THE BAND

Redmond Concert Band to Give Thanksgiving Eve Ball

Arrangements have been made by the Redmond Concert Band to give a grand ball in Ehret's hall Thanksgiving eve, Wednesday night, Nov. 23. Part of the music for the dance will be played by the full band, and part by the band orchestra of six pieces—violin, piano, clarinet, cornet, trombone and double drums. The music will be the feature of the occasion, as it will be the best ever furnished for a dance in Redmond.

Tickets for the dance are one dollar and will be on sale next week. The proceeds of the ball will go toward paying for the new set of instruments recently bought. The band will give a series of dances and entertain-

ments this winter to raise the necessary money to meet expenses, and if the citizens will contribute their share to these entertainments they will materially aid the band in perfecting its organization and bringing it up to a high standard of excellence.

## RAIL LAYING PROGRESSING

Complete Road to Crooked River in 70 Days

OREGON TRUNK IS RUSHING THE WORK

General Manager Kyle Tells of Work on New Central Oregon Line

General Manager Kyle, of the Oregon Trunk says rail-laying on the new Central Oregon line is progressing at a rate of one and a half miles daily, and the force will be increased soon, so as to make the record at least two miles. Progress in track-laying between Crooked River and Bend, 25 miles, will be delayed pending completion of the Crooked River bridge, which is the most difficult piece of bridge work that will be encountered in the Central Oregon railroad work. Mr. Kyle expects that the track will be laid to Crooked River within the next 70 days.

At Crooked River the track will be suspended 350 feet above the stream below, and the span is 340 feet in length. This chasm in the plateau will become one of the sights of Central Oregon region, when it becomes known that the highest bridge of importance in the Northwest is found there. Nothing is given out now as to the probable date of completing the bridge, but work on it will be rushed, as it is the desire of the Oregon Trunk to get to the heart of Oregon as quickly as conditions will permit.

Confirming earlier statements, Mr. Kyle says that no contracts are in existence for construction of this line between Bend and Klamath Lake. After the preliminaries were completed for beginning this work, the money stringency in the east developed, and there has not been enough settling influence yet to warrant the Hill interests in proceeding with assurance that funds would be easily within reach.

Mayor White and wife and Mrs. White's daughter, Mrs. Guillott, left Tuesday night for a visit to Portland.

## EUGENE MEN INVEST HERE

Buy Business Property and Begin Building

SAY REDMOND HAS BRIGHT PROSPECTS

Building 25x50 on Sixth St. Will Be Occupied by Postoffice

James Campbell, O. A. Campbell and John F. Allen all of Eugene, last week bought the 25 foot lot on Sixth street next to Woodruff's store for \$1500 cash, and have begun the erection of a 25x50 building, which will be occupied by the postoffice as soon as completed. Work on the building will be rushed and it is expected to be completed soon after the first of the month.

The Messrs. Campbell and Allen are pleased with the future outlook of Redmond and will undoubtedly make more investments here before spring. A short time ago they bought the lot and building on South Sixth street now occupied by George B. Brown, and are looking for other good business investments.

## REDMOND TO HAVE FIRE PROTECTION

City Council Buys Chemical Engine for Immediate Delivery

Redmond is to have fire protection.

At the last meeting of the city council a chemical engine, sufficient for the present needs of the city was bought for immediate shipment. It is expected that the engine will arrive in a week or ten days, when it will be put in commission. A fire company will be organized to handle the apparatus, which will be housed in the central part of the city so as to be handy of access in case of fire.
