# \$1000.00 IT IS AGREED

By successful men that the first thousand dollars that they saved looked larger to them than the many thousands that followed. There are several reasons for this. One of which is, that money saved begets more money. You are practically helpless, as far as business advancement is concerned unless you have some capital. When you have capital, opportunities for sound and profitable investments are always presenting them-selves. Start an account with this bank and we will willingly assist you with our advice, when you have enough to swing an investment. Our Certificates of Deposit offer an absolutely safe opportunity to make four and five percent on your idle money. You are always welcome at this bank.

Europe's Dirtiest Town. All travelers should shun Boryslaw,

in Galicia-"the back of Europe"truthfully called the dirtlest place in Europe. It is the oil trade center and is decidedly not beautiful. In the main street all the houses have been built on mine refuse, and most of them have sunk below the level of the street. In fact, there is not a solid brick or stone building in the whole of the town, and many of the bouses are in a state of partial or entire collapse. Unrefined petroleum is everywhere. It gets into everything-food and clothing-and the atmosphere reeks of it. Along one side of the main street is a raised wooden pavement, and beneath it is an ofly ditch. Boryslaw's main waterway is a narrow, sluggish, ofly stream. On its banks the town's refuse is cast, and the market booths are erected alongside, while the local washerwomenthough from external appearances one would judge that laundresses did not exist there at all-do their washing in its ofly depths.
