EXCAVATORS STRIKE CAVE

Workmen While Digging Septic Tank in Rear of Hotel Redmond Blast Down Into a Subterranean Cavern

Last Saturday while workmen were drilling through rock in the rear of the Hotel Redmond where the Jones Land Co. were excavating for a septic tank to carry off the sewerage from the hotel, an underground cavern was found.

The workmen had gone down 18 feet through solid rock and drilled down through a distance of about ten feet more. A heavy

charge of dynamite and powder was put in to loosen up the rock and when the charge exploded only a dull sound was heard and no rocks were thrown up. Instead a heavy pressure stream of cold air came up through the inch and a half pipe that was in the drilled hole. The distance to the bottom of the pipe was about thirty-five feet, and the supposition is that a subterranean cavern was pierced by the dynamite explosion and the charge went downward into the cave. That is the reason given why the explosion could barely be heard.

The Jones Land Co. think they have the problem of sewerage from the hotel solved and will test the capacity of the underground cavern they pierced with the drill and explosion.

F. T. Redmond, proprietor of the Hotel Oregon, located across 6th street from the Hotel Redmond, is of the opinion that he can strike an underground cavern and has been granted permission by the city council to bore in the alley in the rear of his hotel to try and locate one.

Some of the people who are

well acquainted with the formation of this section are of the opinion that the cavern that was encountered by the workmen for the Jones Land Co. is one of the wind caves that are located in different sections in the western part of the county.

Sisters 11, Redmond 1

The ball game here Sunday between Redmond and Sisters was won by the latter team by a score of 11 to 1. Zumwalt was in the box for the home team. This is the first game these two clubs have played together this season.

Catching Many Trout Now

Trout fishing in the Deschutes and Crooked rivers near this city is exceptionally good these days, and it is a mighty poor angler that does not come home with a satisfactory catch. Many fishing parties from Redmond have been out recently and all had good luck. A goodly number of the fish being caught are large ones.

The banks of the city will close at 3 p. m. during the race meet held here this week.
