An admission fee of twenty-five cents will be charged which will go into the general fund of the Commercial Club. You are sure to get your money's worth as all of the players are more or less known on the diamond, as is shown by the following line-up:

THREE NIGHTS OF POPULAS PLAYS

McKenzie's Merry Makers Will Entertain Balance of Week

Redmond theater goers will be treated to four good plays this week by McKenzie's Merry Makers at Anker's opera house.

Tonight the powerful and interesting play of "St. Elmo" will be given.

"The Lion and the Mouse" is billed for Friday night.

"East Lynn" will be given at a Saturday matinee at 2:30. In the evening "The Man of the Hour" will be presented.

There are ten people in the company and the troupe comes well recommended. In a number of places where they have played they have been requested to extend their engagement.

Popular prices will be charged.

Proceedings of Local W. C. T. U.

The local W. C. T. U. met last Friday at the residence of Mrs. H. M. Smith. A goodly number of members were present also several visitors. The president read a letter from Mrs. Unruh, state president of the order, in regard to what the Redmond order thought the best place for the county convention to be held in Sept., and it was decided to invite them here as this is considered the most central point.

The committee which had been appointed to draw up a petition to present to the mayor and the city council of Redmond, made their report and the petition was accepted without further changes, and will soon be presented for signatures. The next meeting will be held at Mrs. Lamb's Friday, August 25th.

The Furniture

that people buy only at such time as they feel "able to afford it" wouldn't go very far toward making a home---even for a primitive Indian. About everything in your house that you value highly was probably bought when you thought you could not afford to buy.

Dickens' Queer Oversights.

Many a reader has amused himself by noting *Bert's* lapses and oversights. Some of them are amusing enough, but we do not think the less of him on this account---as when Dr. Blimber directs that St. Paul's "First Epistle to the Ephesians" should be written out as a task, there being only one. We should have smiled at the next instance. A clerk in "Dr. Marigold" is described as being in charge of and taking about with him a quarter of a million in specie. This, some one calculated, would weigh one ton seventeen hundredweight! A thief makes off with a "carpet-bag full of sovereigns," which would weigh five hundredweight, and Tatty Coram enters with an iron box "two feet square," which no girl could carry.---Percy Fitzgerald in "Bozland."

Diamonds From the Sky.

Dr. Lacour, a noted chemist, advances the theory that diamonds fell from the skies. He argues as follows: "Spectroscopical investigations show that the particles of comets secured by scientists are impregnated with carbon. This carbon is in the form of crystals. In days gone by the earth must have come repeatedly into contact with comets, either the nucleus---head---or the tails. These cometic particles became diamonds in the course of ages, but were buried during the various transformations of the earth." The above theory is strengthened by the fact that diamond chips have been found in meteors.

Singularly Fitting.

They were discussing Brown, his charming manners and his lack of moral responsibility in all matters connected with money. "He means to be honest as the sun," said one of his friends, "but he doesn't get around to paying his debts." "He ought not to have any debts," said another man. "He ought to have what my boy in college wrote me for the other day---'Kathleen Mavourneen' loans." "What are they?" asked one of the party. "A 'Kathleen Mavourneen' loan may be for years and it may be for ever," said the father.
