Up-to-date set of Abstract Books. All work guaranteed. We photograph the records. B. F. Wilde, secretary, Prineville, Ore.

SAND DEPOSIT FOUND CLOSE TO REDMOND

Charles Muma Uncovers an Area of First Class Building Sand

What will prove of great worth to the building industry in Redmond and this section is the discovery by Chas. Muma of a large deposit of high class building sand on his ranch two miles southwest of the city.

Mr. Muma but recently discovered this sand, and from tests so far made he is of the opinion his whole 40 acres is underlaid with it. He dug down in three different places and found sand at a depth of 4 1/2 feet. At 3 feet down he found fine gravel. The depth of the sand deposit so far tested is 5 1/2 feet.

Good building sand has been a scarce article in the central part of the state, and Mr. Muma's sand and gravel deposits will be hailed with delight by contractors, and stimulate the erection of more brick buildings.

O. E. Darling and son Wallace of Tacoma, arrived here last week to look the country over. Mr. Darling has property interests in this section, and was agreeably surprised to see the progress that has been made here and in the

country since his former visit about a year ago.

V. Hanks last week brought in from his ranch some Blue Victor potatoes that were whoppers. Ten of the spuds weighed fourteen pounds. The potatoes are on exhibition at Lynch & Roberts' store.

If you want more reading for your money help The Spokesman get that new linotype by paying up your subscription.
