## RAILROAD DAY IS SET FOR SEPT. 30

Portland Commercial Club Representatives and Railroad Officials Will Arrive Here Night of the 29th for Celebration Next Day---Oregon Trunk Bridge Ready for Steel Cars to Pass Over About 16th, and Rails Expected to Reach Here the 24th

The date of Railroad Celebration Day in Redmond has been definitely fixed for Saturday, Sept. 30th. Word was received from Portland that special trains carrying at least 50 members of the Portland Commercial Club, and railroad officials would leave there Friday morning, Sept. 29th, and arrive here in the evening. Portland people will stay here over night and attend the celebration on the

Gov. West and other state officials have been invited to attend. The program for the celebration is being worked out and will be published next week.

Farmers and ranchers are urged to bring in samples of grain and vegetables for exhibition on that day.

From the most reliable authority obtainable it is learned that the Oregon Trunk railroad bridge over Crooked river will be ready by the 16th for the crossing of the tracklaying train and steel cars. Tracklaying on this side of the bridge is expected to begin Monday, the 18th, and the rails reach this city, a distance of eight miles from the bridge, in a week's time.

From here the tracklaying will be hurried on to Bend, a distance of twenty miles. Oregon Trunk railroad officials state that the road will be put through to the terminus at Bend with the least possible delay, and the roadbed surfaced and ballasted afterward, it being the intention of the traffic officials to get their homeseeker's trains into Redmond at as early a date as possible.

## TO BUILD TWO NEW BRIDGES

Council Orders 60-Foot Bridges Across Canal on C and D Sts.

WORK ON SAME IS TO BEGIN AT ONCE

Occupation Tax Is Ordered Collected---Nuisance to Be Abated

At the meeting of the city council Tuesday night a contract was awarded to Wm. G. Phoenix to build a 60-foot wide bridge across the canal on C street for \$150, and F. M. White was awarded a contract to build the same kind of a bridge across D street for the same price. Estimates had been received for building two 16-foot bridges across the above streets, for \$265 but it was the opinion of some of the councilmen that a 16-foot bridge was too narrow, and both Mr. Phoenix and Mr. White agreed to build 60-foot bridges across the streets at a slightly advanced cost of what the 16-foot bridges would have cost. It is expected work on the bridges will begin at once.

Bills were presented as follows: G. E. Green, \$15.20; Lynch & Roberts, \$4.55; Ehret Bros., \$62.83, all of which were referred to the Finance Committee.

Bill of Buckley Bros., \$7.50, was ordered paid.

City Attorney Willcox made a complaint about the waste water from the laundry being allowed to flow into the drain in the northern part of the city, and after some discussion the marshal was instructed to notify the laundry proprietors to abate the nuisance.

The matter of collection of occupation tax was taken up, and it was decided that the city recorder fully explain to those who were delinquent, just how the tax had been collected, those who had paid, etc., and endeavor to get all the back tax collected.

### Raised Some Tall Corn

M. H. Gillette, who has a ranch three-quarters of a mile from the city, had some corn growing in his garden that measured 14 feet high. Mr. Gillette intended to cut the corn and bring it in for exhibition at the Commercial Club room, but before he got around to it his cows broke into the garden and ate up the tall corn. Nevertheless, Mr. Gillette now has corn growing that is 9 feet high.

The gospel tent meetings here closed Sunday night, and Elder Gibson has gone to his home in Prineville. C. J. Cummings, who assisted him, expects to go to the Ministerial Institute and Conference that will soon be held at College Place, Wn.

The Spokesman's Job Printing pleases.

## WILL YOU HELP US GET THAT NEW MACHINE?

By Paying Your Subscription Due You Will Get a Better Paper

Do you want to get more and better news in The Spokesman than you are getting now, for the same price of subscription?

We can tell you how you can do this.

The Spokesman desires to install a Linotype Type Setting Machine—a machine that will set type as fast as four hand compositors. With this machine The Spokesman could print each week from three to four times the amount of good live news matter it now does, and do away with "plates".

With this improvement every subscriber would be getting an advanced worth of his money.

The Linotype costs a large sum of money—especially for a country newspaper publisher—and the initial payment to install the machine will be in the neighborhood of \$500.

We want to install this new

machine by October 1st, or as soon as the railroad begins delivering freight here.

We will tell you how you can help us in this matter:

There are several hundred of our subscribers whose time has expired or will expire within the next thirty days. If each one will pay for The Spokesman a year in advance, \$1.50, it will give us the amount needed and we can order the machine. It will be a wonderful improvement and its effects will be reflected in the manner in which we will be able to serve you. If you want to assist in this matter send in your subscription, \$1.50, TODAY.

Individually the amounts due us are small, but collectively they total quite a sum.
