H. F. JONES, Proprietor

PLEASANT RIDGE.

(Received too late for last week.)
Our school is out for the summer in this district, and so is the water. Farmers have to drive their stock to the river, which is very encouraging to the dairy men. We understand that the water is soon to be turned into the ditches, though.

Mrs. Ralph Sherwood, who has been quite ill for the past week, is improving.

Mr. and Mrs. L. E. Smith and family visited the Hunter family Sunday.

Mr. and Mrs. Vosburg and the teacher from Cline Falls visited at the Frank Hensley residence Sunday.

M. W. Fry, who recently arrived here from California and bought land, is visiting with C. Peterson for a few weeks.

Will Lawson made a business trip to Prineville a few days ago.

Don Greenhalgh visited friends

here last Sunday.
Chas. Booth has sold his team and is going to leave for Harrington, Wash., in a few days.

It is reported that Mr. Temple has the job of ditch rinding for the summer.

Christ Peterson received 100 baby chicks from Portland a few days ago. They arrived in excellent condition, all being alive and healthy.

POWELL BUTTE.

(Received This Week.)

George Hobbs gave an enjoyable neighborhood dance at his place last Friday night.

Geo. Haven and family are now residents of this section, having come here recently from Portland.

The big ditch became obstructed with ice Friday night, overflowing its banks and doing considerable damage to the ranches of Allen Wilcoxon

and John Rohde.

Mrs. Glen Mustard is seriously ill at her home.

Grandpa Charlton, father of Chas. Charlton, has gone to Portland to visit relatives.

A number of young people congregated at the Bussett home Thursday evening, the occasion being in honor of Lloyd Bussett's 16th birthday. All report an enjoyable evening, and Lloyd a royal host.

(Received too late for last week.)

Miss Mamie Shafer returned to her home Sunday, after a pleasant week's visit with Miss Alma Johnson.

The mail for this office will come by stage from Redmond commencing Saturday, the 16th. Guy Sears, a former resident of this section, has the contract for carrying the mail.

Some of the farmers in this section were preparing the ground for onions when the recent heavy snow fall came. Now the snow has disappeared and we all can commence the spring work where we left off.

The new home of Pearl Fulkerson is nearing completion. We might add that comfortable homes are rather the exception than the rule in this fast settling section.

Allen Wilcoxon is calling on the ranchers in this section nowadays, in the capacity of assessor.

John Tingman's new story and a half residence, just completed, is a nice improvement. When that gentleman follows the time honored custom of taking unto himself a wife, as indications would suggest, he will be the envy of the bachelor contingent of Powell Butte.

The several ranchers in this community who bought Holstein cows of the Messrs. Mackintosh and Brown are delighted with their purchases, as the cows are proving to be all those gentlemen claimed for them.

The several scholars of the Sherd school who were lucky enough to be entered in what is known as "The Kaplinger Potato Race," have just received their potatoes. They are fine specimens, supposed to be earlier than the well known Early Rose. Mr. Kaplinger, a Salem man, originated the potato, which he calls "The Oregon," and in order to encourage school children along agricultural lines, and at the same time advertise his potato, he has instituted the potato race. Each child is to plant and care for the potato, taking the entire crop to the county fair this fall, where they will be judged, and the best sent to the state fair, where the judges will award prizes. That our young people will come in for their share of prizes we have not a doubt.

Your New Spring Hat.

If you are going to buy a new hat this spring, take a look at the line of millinery that Lynch & Roberts have added to their stock.

Meneley Quartette
Here Tuesday, March 26.

The Meneley Quartette, which will appear here Tuesday evening, March 26th, at Muma's hall, under the auspices of the Redmond Commercial Club, has been before the public for 17 years, and is perhaps the best known company of its kind in the country.

Miss Cora Ricketts, as soprano, has added very much to the popularity of the quartette. Hazel Meneley Ricketts, as alto, as a very conspicuous member of the quartette, with her sad, sweet voice, and has much to do with the perfect blending of the voices. From her appearance upon the platform one would think she considers her work a matter of business, while Miss Ricketts regards the whole undertaking as only a holiday vacation.

Raymond McCord, the successor of Chester L. Ricketts, is not only a splendid tenor, but his work as an impersonator and reader ranks well with his predecessors. C. W. Meneley, the basso, has been with the company as manager from the time of its organization.

Besides the singing, the company gives an excellent concert with organ, chimes and merinophones which is well worth hearing. Admission is 50 cents for adults and 25 cents for children.

CENTRAL STATES SHIVER.

Blinding Storm of Snow and Sleet Sweeps Across Continent.

Chicago—A blinding storm of snow and sleet swept across the North Central states Thursday, heaping disaster upon transportation and communication facilities.

Half a hundred cities were shut off from communication with the rest of the world. Miles of telegraph and telephone poles were blown down or wires covered with ice until they broke. The snow changed in many places to sleet, which was blown like shot before a gale that increased to nearly 60 miles an hour. Zero weather was reached in several places.

\$1,000,000 Paid for Art.

New York—Benjamin Altman, a New York dry goods millionaire, is now named as the purchaser of two famous portraits by Velasquez, which recently came to this country. The pictures, which have heretofore hung in the Villa Hermosa palace, cost Altman something over \$1,000,000, it is said. The paintings are of King Philip IV of Spain and his minister, the Duke of Olivares. They bear the date of 1624, and are the most expensive canvasses by this artist on record.

Four-Inch Guns for Aeroplanes.

Governors' Island, N. Y.—What is said to be the largest gun designed to be carried by aeroplanes was tested successfully on a barge off Fort Wright, in the presence of a number of naval and army officers. The gun was fired twice, and although it is mounted on delicate steel springs, there was no recoil. The inventor is Commander Cleland Davis, United States navy. It is a four-inch gun, 12 feet long, weighs 150 pounds and fires a 33-pound projectile at a velocity of more than 1,000 feet a second.

Two Killed in Strikers' Riot.

Berlin—The termination of the strike in the Westphalian coal fields, where nearly 200,000 miners laid down their tools on March 11, was marked by two fatalities in attacks by strikers on non-strikers working in the pits at Hagen. A third man was wounded, probably fatally. In the Samar district the strikers have also abandoned the movement and gone back to work, but the miners in Upper Silesia are leaving the pits in increased numbers.
