His free lunch also added to the volume of trade for the day.

Since work was begun on the new \$40,000 water plant for the city at Forked Horn Butte, many citizens, and even strangers, have gone out there to see how the work was progressing.

Juniper Club Meeting—
The Juniper Circle held its second meeting and the first actual work at the home of Mrs. Willcox, Sept. 25. Roll call was answered by quotations from Benjamin Franklin, many of which were household proverbs. Mrs. McMickle read a paper on Franklin's life, and Mrs. Willcox supplied several selections from his writings. The life of Washington Irving, read by Mrs. Osborne, was followed by readings from his works by Mrs. W. S. Rodman. Taking this first active meeting as a criterion, the club may look forward to an interesting and instructive year with American authors and their writings. On October 9 Mrs. Chapman entertains the members, who are to respond to roll call with facts about the life of James Fenimore Cooper. —Secretary.
