# There Is No Reason Why a Large Woman Need Be Uncomfortable

She can be as beautiful large woman as a slender woman is for a slender. This is all a matter of figure, and this resolves itself into Corset Shaping.

A Corset too short or too long will be uncomfortable. A Corset too tight or too loose will be uncomfortable. It is the Corset with proper proportions that are right and is properly fitted to the figure, with the hose supporters not dangling but holding the stockings taut, that gives shapely lines and comfortable fitting.
