NEWSY HAPPENINGS AT POWELL BUTTE

CORRESPONDENT GIVES A GOOD BUNCH OF ITEMS FROM ABOVE SECTION

Powell Butte, Feb. 25th. Mrs. Mary Orewiler, who has been making an extended visit to her grand daughter, Mrs. Shearer, left Wednesday for Bend where she will visit for some time with her son, Chas. Orewiler and family.

Miss Gladys Bayn came out from Prineville Friday for a short visit with her parents, Mr. and Mrs. A. W. Bayn.

Mr. and Mrs. James Green spent several days in Redmond the fore part of the week, where Mr. Green went to dispose of some horses.

Geo. L. Brazee received two fine Duroc Jersey brood sows from outside points recently. They are the finest pedigreed hogs that have been shipped to this section and were added to his drove of registered Durocs which he shipped in last year. They make a splendid showing.

Joe Elliott went to Bend Monday with a load of wheat which he will exchange for a summer supply of four at the Bend mill.

J. L. Clingan and family left Saturday for their homestead on Horse-ridge where they will put in a crop. Chas. Erickson and son of Bend, were visitors at the A. W. Bayn home the fore part of the week. Mr. Erickson, who recently sold his dairy at Bend, is buying up milk cows with the intention of again entering the dairy business.

Little Miss Harriett Willcoxon is reported as being on the sick list. Mr. and Mrs. E. L. Iverson moved into their new farm house last Tuesday.

E. A. Bussett went to Prineville Saturday for a few days' visit with his family. Alvin Riggs is in receipt of news from his sister, Mrs. Etta Arnold of Portland, to the effect that the Arnolds are making all preparations to return to Central Oregon as soon as the roads will permit them to auto through. The Arnolds are former old timers here, having lived in the Powell Butte section for years, and they will be welcomed back by a host of friends. They intend to locate in Bend.

The new barn on the Ross Bussett place is nearing completion. Work on it will be delayed for a time owing to the sickness of Ross who is ill at his mother's home in Prineville with tonsillitis.

C. H. Foster is taking U. S. weather observations nowadays. Mr. Foster received his supplies direct from the head distributing offices in Portland recently and is now in a position to give an accurate report of the amount of moisture fallen as well as keeping cases on the temperature. He sends his reports to Portland, and they will no doubt be of great benefit to us later in the way of enlightening the public mind as to just what sort of a climate we have in this section. It is these reports, compiled, which go to make up the U. S. government reports, which are an open book to all those desiring information along that line, and are of inestimable value to one looking for a new location, as they enable them

to get reliable facts concerning weather conditions in any locality where these reports have been made for any considerable length of time. As there is no pay in this for Mr. Foster it would seem he is deserving of credit for his public spiritedness in accepting this responsibility.

Alvin Riggs made a trip to Bend Monday with a load of hay. It is rumored that we are to have a new teacher at the Shepard school. Matt Claybough returned last week from Nashville, Tenn., where he has spent the winter visiting relatives. He was accompanied by his brother, who will try life in Central Oregon for a while.

CLINE FALLS

Mr. Miller finished pulling trees last week and Mr. Catlow took the stump puller up to Mr. McLean's last Wednesday.

R. M. Bishop is with us again. He came Thursday evening. He has been spending the winter in Albany and Portland, and now will resume possession of his property here. He is at present cooking for Mr. Catlow where he will remain until Mrs. Catlow returns from Portland.

Mr. and Mrs. Hagey made a business trip to Redmond Saturday. L. E. Smith was in this section recently selling some fine pork.

J. W. Wheelpley met the train at Redmond both Thursday and Friday nights last week in anticipation of the arrival of his wife and children, but returned each time lonely and disappointed, as Mrs. Wheelpley and the children had stopped to visit relatives in Ogden. They arrived Sunday night, much to Mr. Wheelpley's delight.

Mr. Bolstad visited at the Dugan place Thursday. Several of the farmers in this section attended the meeting at Redmond last Saturday that was held to discuss the co-operative creamery situation and the farmers' union warehouse.

Mr. Byrnes has been quite ill with a cold. Messrs. Catlow, Temple and Dr. Hosch of Redmond, had planned to go hunting on the west side of the river Friday. The two former men waited some time, and thought the doctor was not coming. He came, however, about an hour after the departure of Catlow and Temple, and was much disappointed to find them gone.

Mr. Miller is helping Mr. McLean pull trees this week. A number of Redmond young men built a large bonfire on Cline Butte Sunday night to celebrate the passage of the Columbia Southern Irrigation bill by the Legislature.

NOTHING TO SMALLPOX SCARE Sisters Herald Says Only One Case in Sisters at Present Time

Reports have been much exaggerated on the outside regarding the existence of smallpox in Sisters and surrounding country, says the Sisters Herald of last week. While there has been several cases during the past month both in Sisters and the Cloverdale country of a fever and a slight breaking out, it was so light that little was thought of it until the first of this week when one case in Cloverdale and one in Sisters took on a more severe form. The case in Cloverdale was pronounced smallpox by the attending physician, so it was decided best to have the county physician come over from Prineville and investigate the conditions here. Dr. Edwards came over Tuesday and examined the case in Sisters, pronouncing it smallpox and placing the family under quarantine. This is the

only case in Sisters at this time and the patient is improving very fast, being up and around the house. With proper care it should only be a short time until there will be no trace of it here.

THE STATE ROAD BILL PASSES Measure Passed Last Thursday Carries a Half-Mill Levy

At an early hour last Thursday morning the House passed the bill for state roads, which carries a tax levy of one-half mill on all taxable property.

It constitutes the Governor, Secretary of State and State Treasurer the Road Board. An engineer at a salary of \$3500 a year is appointed. The bill is the one agreed upon by a conference committee of the Senate and the House.

Two-thirds of the sum must be spent in counties under direction of the county courts. A state highway is authorized under it.

HOUSE VOTES HOME FOR GIRLS Measure Carrying \$50,000 Wins Easily in House and Senate

The bill for a State Industrial Home for Girls and Women went through the House last Saturday afternoon and was passed by a vote of 29 to 2. A few, notably Representatives Murnane and Smith, made speeches against it, but the sentiment in its favor was overwhelming.

Mrs. Lois G. Baldwin and Mrs. Geo. Felts of Portland, were at Salem to watch its progress and were elated over its outcome. The bill appropriates \$50,000 for the two year term, which is to be used in establishing and maintaining the proposed home. Women and girls are to be sent there as a corrective. The bill was introduced in the Senate by Moser of Multnomah and passed that branch without a dissenting vote.

CRUSADE BILLS ARE KILLED BY HOUSE MEMBERS

Senator Hopkins' bill making it unlawful for liquor to be sold outside of incorporated cities, and further providing that it should be unlawful for near-beer to be sold in incorporated cities in dry territory, was killed last Thursday night by the House. The bill was one of a number of crusade bills introduced in the Legislature at the request of Governor West. Senator Smith's bill relating to the sale of liquor within a certain distance of fair grounds was also killed.

32,000 Rabbits Killed

The Lakeview Examiner says: The most effective slaughter of rabbits ever made in the history of the country was at the drive Sunday west of town, showing the enormous total of about 12,000. The total estimated number of rabbits killed during the winter is 32,000.

THINGS THAT YOU CAN'T DO

Here are some things that you can not do. Or, if you can, you are different from 95 per cent of mankind. Can you repeat from memory (don't look) the wording on a 2-cent stamp? Can you copy out from memory the exact figures as they appear on the dial of your watch? Can you copy from memory the exact wording on a 1-cent piece or say which way the

head on the coin is facing? Can you say from memory whether the heads on a cent, a nickel, or dime and a quarter all face the same way? All these things you have seen and handled since boyhood. They should be far more familiar to you than the alphabet. Yet it is 10 to 1 you can not give correct answers to one of the foregoing questions.

Copy your letters with manifold paper—at The Spokesman.

Notice for Publication

Department of the Interior, U. S. Land Office at The Dalles, Oregon, February 14, 1913. Notice is hereby given that Adelbert Benedict of Cline Falls, Oregon, who, on January 18, 1911, made Homestead, No. 07889 for 3 1/4 SW 1/4, Sec. 24, and N 1/4 NW 1/4, Sec. 25, Township 15 South, Range 11 East, Willamette Meridian, has filed notice of intention to make final commutation proof, to establish claim to the land above described, before H.
