REQUEST REMOVAL OF PASTOR OF THE M. E. CHURCH HERE

AT A LARGELY ATTENDED MEETING OF THE REDMOND COMMERCIAL CLUB LAST NIGHT RESOLUTIONS WERE ADOPTED ENDORSING MAYOR HOSCH'S LETTER TO GOVERNOR WEST IN REGARD TO REV. J. M. CRENSHAW—SENSE OF MEETING THAT CRENSHAW IS UNDESIRABLE CITIZEN—PETITION NUMEROUSLY SIGNED FOR REMOVAL OF CRENSHAW FROM M. E. PASTORATE IN THIS CITY—PUBLIC FEELING AROUSED OVER CONDUCT OF THE PASTOR

At the regular meeting of the Redmond Commercial Club held last night the subject of the actions of J. M. Crenshaw, pastor of the M. E. church here, were taken up and discussed. It was stated by members of the Club that the methods pursued by Crenshaw during the past year in his alleged crusade of moral reform had tended more to injure the city than do good. Crenshaw's bitter and malicious attack from the pulpit of the M. E. church on Sunday night, March 30th, on the character of Mrs. A. B. Sparks was entered into, and it was the sense of the entire assemblage, manifested by a rising vote, that Crenshaw was an undesirable citizen and one who had worked much injury to the City of Redmond.

Mayor Hosch stated he had received a letter from Governor West asking for information regarding the Crenshaw situation here, and upon request of members of the Commercial Club he had the correspondence that has passed between himself and the governor. Upon conclusion of the reading of Mayor Hosch's letter in reply to the one from the governor asking for information a motion made by F. W. McCaffery, was carried that the assembly present endorse the mayor's reply, by a rising vote. Every one of the 46 persons present rose to their feet, and many expressed in strong terms their endorsement of the mayor's letter. A committee of three, Messrs. Palmer, Roberts and Moore, was appointed to draft a petition for signatures of men and women of the city endorsing the action of the Commercial Club and the mayor in the Crenshaw matter. A copy of this petition will be sent to Governor West, the M. E. bishop of this diocese, the presiding elder of this charge, the trustees of the Redmond M. E. church, and to J. M. Crenshaw.

Following is the correspondence that passed between Mayor Hosch and Governor West after the governor had received a telegram from J. E. Lamb of this city, saying: "Rev. Jackson Crenshaw assaulted and beaten on the streets of Redmond. Authorities refuse to take action. Please advise."

Governor West's Letter
Salem, Oregon, Executive Department, Salem, April 2, 1913.
Honorable Mayor of Redmond, Redmond, Oregon.

Dear Sir: My attention has been called to recent assault on Rev. J. M. Crenshaw and in order that I may be fully informed as to the facts of the case would ask that you kindly advise concerning same.

Thanking you for this information,
Yours very truly,
OSWALD WEST.

Mayor Hosch's Reply
Redmond, Or., April 4, 1913.
Honorable Oswald West, Governor of the State of Oregon, Salem, Oregon.

Dear Sir: Your letter of the second inst. received and contents noted and in reply will say that I am glad to furnish you with what information I can, and after a careful investigation have the following to submit, for which I have, to the best of my knowledge, sufficient reason.

24-HOUR SERVICE IS INSTALLED

DESCHUTES POWER CO. IS NOW USING THE COVE PLANT FOR LIGHT AND POWER—SERVICE SATISFACTORY TO PATRONS

A 24-hour electric light and power service was inaugurated Monday by the Deschutes Power Co., the company that a few months ago bought the Cline Falls and Cove power plants on the Deschutes river, and which has been furnishing light and power to Redmond for some time. The company has been running the plant at Cline Falls since purchasing same, and giving an all-night service light to Redmond and a part day power service. The plant at Cove is the main plant, and the company has been waiting to get all their poles set in different parts of the county, and lines strung before turning on the power from this plant. Cold weather delayed this work to a considerable degree, but now all is completed and Supt. R. L. James of the company, with headquarters at Redmond, informed The Spokesman Monday that a continuous 24-hour service would now be maintained for both light and power.

The Cove plant will be used almost exclusively for this. The plant at Cline Falls is to be overhauled and improved materially by the addition of another water wheel and pump, and will be used as an auxiliary plant. This plant will be used for pumping water this summer for irrigation purposes to the land near the plant which the company owns.

The Deschutes Power Co. has lines strung to Redmond, Prineville, Terrebonne, Culver, Metolius and Madras, and will soon be furnishing light and power to all these places. Redmond and Prineville are now being served.

It is understood that it is the intention of the company to enter upon an extended campaign of educating the people who use any kind of power to use their power—electricity. They intend to make a very satisfactory rate to consumers, and expect before long to have nearly all the farmers and ranchers along their lines equipped with electric motors to do their work with. The use of electric flatirons will be largely advertised by the company and it is confidently predicted that before the summer is over every housewife within reaching distance of an electric light line will be using the time saving and economical electric flatiron.

To Newcomers and Others Coming to Redmond or Central Oregon

THE REDMOND BANK OF COMMERCE DESIRES TO CALL ATTENTION TO THEIR BANKING FACILITIES, AND INVITES NEWCOMERS TO THIS PART OF THE STATE, AS WELL AS OTHERS, TO AVAIL THEMSELVES OF THE OPPORTUNITY OFFERED BY A SAFE, SOUND AND CONSERVATIVE BANKING INSTITUTION.

ABOUT UNPAID SUBSCRIPTIONS

A FEW WORDS TO THE PEOPLE WHO THINK THEY DO NOT HAVE TO "PAY FOR THE PAPER" AFTER TAKING IT FOR A CONSIDERABLE TIME

From the American Press.

There are many points of law that are of particular interest to the newspaper world. Most of them, of course, have some bearing in one way or another to either the copyright law or to the laws of libel.

There are various other important legal subjects, however, which are of distinct importance to the newspapers and their publishers. For instance, the law relating to newspaper subscriptions which have run over the original subscription period is one of these.

Ever since newspapers first began to be published this matter has been one of vital concern to the papers.

What claim has the publisher against the man who, after the subscription expires, accepts from the postoffice and reads the paper which the publisher has continued to send him?

That the paper should not be sent after the date the subscription expires, except under special circumstances, we firmly believe. We do not for a moment expect to argue in

ANNIVERSARY NUMBER OF SPOKESMAN

LARGE ILLUSTRATED EDITION SHOWING DIFFERENT VIEWS IN REDMOND AND VICINITY IS TO BE ISSUED JULY 10th—A SOUVENIR NUMBER

The Redmond Spokesman will begin its fourth year in Redmond on July 10th, and to commemorate the occasion an anniversary number of the paper will be issued on that date. The issue will consist of from 32 to 40 pages, well filled with illustrations of buildings, scenes and prominent men of Redmond, and also interesting scenes of other parts of this section tributary to the city.

Redmond and the surrounding country will be truthfully and graphically "written up", and everything pertaining to this anniversary number will be done to make the issue one that will be valuable to send away to persons who are interested in this part of Central Oregon.

Over 100 illustrations will be used in the paper, and the issue is expected to consist of 10,000 copies. Orders are already coming in for large numbers of copies. Portland people and the railroads want many copies of this issue for general distribution, and the citizens here so far have responded liberally.

In getting up the copy and illus-

2000 H. P. CAN BE OBTAINED

LIGHT AND POWER PLANT AT COVE ONE OF THE MOST COMPLETE IN OREGON—"JUICE" IS EXPECTED SOON

Prineville Journal: The Journal man made a trip with Manager Simpson of the Deschutes Power Co. Tuesday to the main power station of the company at Cove.

Mr. Simpson has crews of men at work stringing the wire that is to connect Prineville with the main plant. These men are working between Culver and Lamonta, and in the course of a few days will have the line completed.

"Few people," said Mr. Simpson, "have any idea of the amount of material and labor involved in putting in the wires and poles alone. We have 3½ carloads of wire and 25 carloads of the best poles to be found. They are 35 and 40 feet long, all neat and clean. The long ones are used to make up for the inequalities of the ground. The cross arms and insulators are of the best. They have to be. For instance, if it were demanded we could deliver 2000 horse power in Prineville with only 10 per cent loss. You see it takes careful work and good material to do it. At present, however, we will need but 200 horse power to supply the demand. This leaves a big margin to supply possible man-
