**THE LITTLE "WANT" AD.**  
A Business Ferret That Gets 25 Per Cent of the Market Results

The little "want" advertisement which has become so popular is a silent buyer, a silent seller and a silent purveyor of goods.

It possesses the double virtue of being cheap and profitable.

It brings labor to the unemployed and help to those who desire to employ.

It makes home for men and women.

It transfers property and in a general way is responsible for 25 per cent of the business transacted in the commercial world.

It fills empty houses and brings prosperity to the landlord.

It gives the poor working girl employment, it sets men up in business, it gets you an agent if you desire one, it gives you an opportunity to borrow money where the rate of interest is the lowest, it furnishes you a medium of exchange—it tells you, in fact, where to go, when to go, how to go to every place, everywhere, and secure something that you may want and to which no other medium ever devised could successfully direct you.

The Spokesman can help you with a "want" ad. Let us try.

**RABBIT METAL**  
The Spokesman has about 4,000 pounds of old type metal that is just the thing for rabbit metal, packing for boxes, etc. Same will be sold reasonable. Large quantities sold at a discount.
