**NEW MARRIAGE LAW
SOON BE IN EFFECT**

Will Then Be Necessary for Prospective Bridegrooms to Undergo an Examination

A new law enacted by the recent Legislature requires all prospective bridegrooms to undergo an examination before they can secure a marriage license. This law goes into effect June 10.

Following are the provisions of the new law:

Before any county clerk in this state shall issue a marriage license, the applicant therefore shall file with the clerk from whom such license is sought, a certificate from a physician duly authorized to practice medicine within the state, made under oath, within ten days from the date of filing the same, showing that the male person thus seeking to enter the marriage relation is free from contagious or infectious venereal disease.

Any physician who shall, knowingly and wilfully, make a false statement in any certificate issued, as herein provided, shall be punished by the revocation of his license to practice his profession within the state.

All fees and charges of any physician asking the necessary examination of and issuing the necessary certificate to any one party, as herein provided, shall not exceed the sum of \$2.50.

The county physicians of the sev-

**HE FOUND OUT THAT
THE GUN WAS LOADED**

Prineville Journal: Robert Newbill of Grizzleley, came nearly losing his life last Friday. He was cleaning a 22-calibre automatic rifle and thought it was not loaded. To further assure himself he snapped the trigger and as there was no explosion he felt certain the gun was empty. He found out differently, however, when he went to hang it up. Someway in trying to make the gun secure on a nail he pressed the trigger again, and this time there was an explosion.

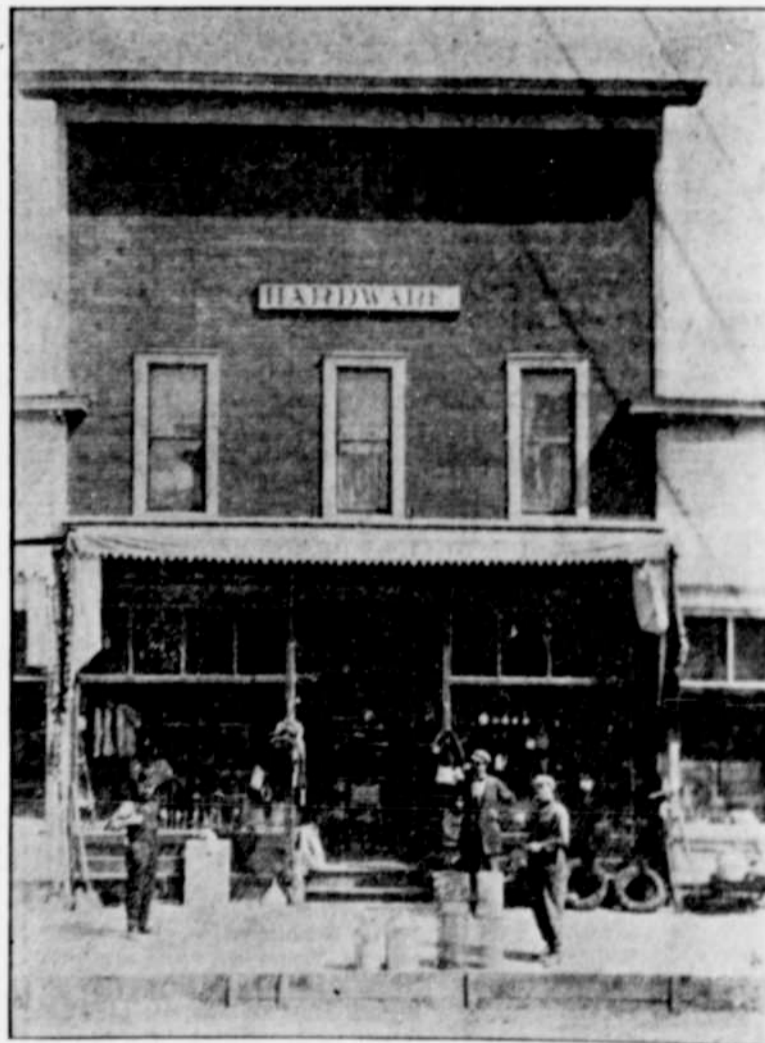

The bullet struck him fairly over the heart. Had it not been for the fact that he was stooping over when the rifle went off, he would never have known what happened to him. When the bullet struck his ribs it was deflected downward and lodged in the abdominal muscles about five inches below the point it entered the flesh.

Dr. Edwards was summoned and he succeeded in extracting the bullet. Mr. Newbill is getting along all right and will soon be none the worse for his experience.

**SOMETHING ABOUT THE
METOLIUS PRINEVILLE RY.**

Prineville Journal: F. M. von Planta, engineer in charge of the Prineville-Metolius road, says that the high line survey has been tied into Prineville and that the Crooked river survey will be completed by tomorrow. The tietwork will be finished by June 5.

"All data and office work, togeth-

eral counties shall, upon request, make the necessary examination and issue certificate, if the same can be properly issued, without charge to the applicant, if indigent.

Burns' oil well driller reports no oil as yet, but instead a fine flow of pure cold water at 569 feet that rises to within 99 feet of the surface, and appears to give promise of a true artesian basin.

Old papers for sale at this office.

er with final estimates on both surveys," Mr. von Planta says, "will be completed by June 15. Mr. Scheel will be here about the middle of the month and will go over both routes. He will then make his final decision as to whether the high line or the river route will be constructed."

Mr. von Planta says that every day he goes over the line the country looks better to him. He feels confident that Prineville will see the long looked for railroad before this time next year.
