The wind blew so hard here Saturday that it was very inconvenient for those who were attempting to put up hay. Several crews had to lay off in the afternoon.

The Powell Butte Light Foots are talking of having a big dance at the end of haying. The last dance was such a success that no doubt a good crowd will turn out for another one.

A number of the farmers here have received from the First National Bank of Bend, a book called "Soil Culture." This book is published by the Deere Co. of Moline, from the results of experiments conducted on their model farms, and will be a great help to those who study it.

LAIDLAW

The U. S. surveyors who are running the canal line for the government ditches are working out near Gist. Some of the crew were in Laidlaw Saturday. Ted Becker drove them in. This canal is aimed to take water from the Deschutes to irrigate land north of the present Tumalo Project.

G. W. Hoover, agent in Bend for the Ford car, was here last Saturday.

Mrs. G. W. Snyder is reported to be recovering rapidly from the accident of about three weeks ago in which the horse she was driving ran away, throwing her out of the buggy.

The telephone line built by the state on the Tumalo Project is completed to camps 4 and 6. Starting at the office in Laidlaw it follows the road west to the Pinehurst school house. From there a branch goes south to camp 4, and another west to Wimer's place, and then north to camp 6, near where the big dam will be built.

In spite of the unusually large number of fishermen coming down from Bend and other points to fish near here, the fish are as plentiful as at any former time. The smaller fish can be caught in larger numbers this year than ever, and some big ones are reported.

J. B. Cocheran of Cline Falls, was a business visitor here last week.

Some of the engineers working on the Tumalo Project and the town boys have built a tennis court back of J. B. Wimer's store. The court is in excellent playing condition, and has new back stops.

Alfalfa hay was cut much earlier this year, wherever possible, than formerly. The rain delayed many of the farmers, but those who cut early have their second crop started nicely now.

There was 2.45 inches of rain in June in this section this year, the largest for several years. Dry land farmers are enjoying good prospects for fine crops in consequence.

The first camp to be established for work on the Tumalo Project, No. 4, is practically completed. The buildings are cook house, bunk house and office. Tents are to be provided for the engineers. This camp is directly south of the Pinehurst school house, and the work on the lower part of the canal will all be directed from here.

Attorney General Crawford, accompanied by Mr. Van Winkle, assistant secretary of state, has been in Laidlaw the past few days looking after the interests of the Tumalo Project. It is reported that they are engaged in securing the right of way for the feed canal from the timber companies and others.

The "Outlaw Club" which has been boarding in the hall under the Odd Fellows building, has been broken up. The different parties are now living in separate houses or have gone to the camps to work.

Walter H. May, who is well known around Laidlaw, is working on the joint county and government road to shorten the distance between Pineville and Mitchell. Mr. May is foreman of the crew working there. C. Evans has just come to Laidlaw from there to look for a job on the Tumalo Project. He has been cooking for the road crew.

Rev. A. O. Walker preached here last Sunday both forenoon and evening.

Laidlaw now has a tennis organization, the "Tumalo Tennis Terrers"—the Triple T's. The officers are John Wimer, pres.; Hugh Bibberstein, vice pres.; and G. Ed Ross, sec. and treas. The tennis players are anxious to arrange matches with other clubs in the county. It is rumored that there are several good players among the newcomers to the town.

Fay Mudd is now back in Laidlaw. He returned Sunday and expects to remain a short time. He has been engaged in railroad work.

Laidlaw is to have a base ball team in the near future. Some of the boys are out throwing the ball around nearly every evening now. Laidlaw already has some good ball players and the engineers and others have provided some more.

"Well, I'd rather not be married and be sorry I wasn't than be married and sorry I was."

Newed—Then I can't understand why your father went on so when I took you away from him.

Naybor—I say, Subbubs, did I bring back that lawn mower you lent me last fall?
