### The Farmer and the Merchant.

There can be no doubt that the prosperity of the country—the entire people—is based on the quantity of produce RAISED ON THE FARMS, and no other one thing so seriously affects the business interests of the country as a general crop failure. If the crops are generally good throughout the country and happen to be a failure in one particular locality the merchants are not dependent on the home farmer, but can have his goods, produce, etc., shipped in from other sections and thus supply the demand of his customers, while, on the other hand, THE FARMER IS ALWAYS DEPENDENT ON HIS HOME MERCHANTS—the town or city which is his marketing place—and the home banks for the handling and disposition of his products.

THE MERCHANT NEVER BUYS HIS PRODUCE, HAY AND GRAIN FROM OUTSIDE POINTS WHEN HE CAN GET THEM FROM THE FARMER, BUT THAT THE FARMER IS GIVEN LARGELY TO THE PRACTICE OF ORDERING MANY OF HIS NEEDS FROM STORES IN OTHER CITIES, MORE PARTICULARLY THE LARGE MAIL ORDER HOUSES, IS A WELL KNOWN FACT.

Not a day passes that goods of almost every description, from soaps to farm implements, including gasoline engines, manure spreaders, seed planters, cream separators, cooking stoves and ranges, clothing, groceries and what not, are seen in our depots and express offices addressed to local farmers.

MR. FARMER, DO YOU THINK IT RIGHT TO COME TO TOWN WITH A LOAD OF PRODUCE AND SELL IT TO THE MERCHANTS OF YOUR MARKET PLACE AND THEN TAKE THE MONEY HE PAYS YOU AND SEND IT TO SOME MAIL ORDER HOUSE AND BUY GOODS THAT YOU COULD BUY JUST AS CHEAPLY AT HOME AS FROM A MAIL ORDER HOUSE AND HAVE THE FURTHER SATISFACTION OF SEEING WHAT YOU BUY?

You may say, "Oh, well, I sold my butter and eggs to the groceryman, but he doesn't handle clothing!" Yes; but, my farmer friend, if the clothing man does not sell his clothing he must go out of business, and the groceryman loses a good customer, his business is curtailed, and he then must needs buy less of your produce. You are just as much in duty bound to buy your clothing, your hardware, your farm tools and other necessities from your home market as if these merchants all dealt in your wares first hand.

THESE VARIOUS BUSINESSES ARE INTERLOCKING AND INTERDEPENDENT, AND ON THEIR SUCCESS DEPENDS YOUR SUCCESS.

A certain good farmer in this county ordered a corn planter from a mail order house and, owing to delays in freights, did not get his planter in time to do his planting while a good spell of weather was on. However, it finally came. He got it to the farm, set it up and started in with his planting. Through carelessness or oversight a small gravel got in one of the holes through which the corn drops and there lodged, with the result that the plate was broken. This put the planter out of commission. The farmer had to stop his corn planting and come to town to see if he could get another plate. He called on the hardware stores and implement dealers, but as none of them carried these mail order house planters in stock he could find no plate, and the final result was he was forced to follow the plow and drop his corn by hand. Had he purchased his planter from a home merchant he could easily have got the necessary repairs and not been delayed. It certainly was more costly to the farmer than if he had paid his home implement dealer many dollars more. Furthermore, the implement dealer had been buying corn every season from this farmer who bought his planter from a mail order house.

Every dollar you send to a mail order house is taken out of local circulation entirely, and the good of it is lost forever. IT HURTS YOU IN THE LONG RUN just as much as any one. Therefore, before you order anything else from out of your home town go to town and see if you can find what you want, or if you can't get to town telephone a merchant, and if it is a small package he will send it out by parcel post. If it isn't satisfactory send it back. Merchants guarantee the goods they sell just as well as mail order houses. There is not a local merchant who will not treat you right. Give him a chance and he will appreciate it.

#### FOREST NOTES

A Russian scientist claims to have discovered an inoculation for use against forest insects.

There are nearly 4,000 professional foresters in Germany who are associated with various technical societies.

The University of Washington has secured the use of two sections of land on the Snoqualmie national forest in connection with its forestry courses.

A tool used to fight fires on the California forests combines a rake, spade and hoe. It is compact, so that it can be carried on horseback, and weighs less than 5 1/2 pounds.

In an increase in timber sales this year and in a decrease in receipts from timber trespass, as compared with last year, national forest officers see a growing use of the forests and respect for the federal forest policy.
