CROP REPORTS WANTED BY THE SPOKESMAN

The Spokesman is desirous of securing crop reports from all sections tributary to Redmond. Nothing speaks better for Redmond and the agricultural districts in this section of Central Oregon than the reports of actual crop yields. The Spokesman is anxious to secure these reports from all localities for publication, and therefore requests every farmer to clip out the "Crop Report" blank published elsewhere in this issue, fill it in properly, and bring or mail same to this office, where it will be given prominence among the resources of this section of the state.

Spokesman Classified ads bring results—try them—don't cost much. The Spokesman for good printing.

A HOBO

Here they are again, men. Our old friends. Weary Willie and Dusty Rhodes. Thinking that perhaps the last time you saw them they took some other guise, I have slung a battered tin can over the shoulder of the taller, so that you can't go wrong.

They are discussing the third vagabond, who can be dimly seen beating it along the railway track which traverses the picture at the rear. What are they saying? Listen! It is Weary Willie speaking:

Weary Willie—Is dat guy California Cal much of a hobo? Dusty Rhodes—Much of a hobo? Why, he beat his way across the Sahara Desert on a camel.

Miss Laura Gaston Young the belle of Scanty Creek dropped in on ye correspondent last Saturday and left us a mess of artichokes a persimmon-fed possum and enough red peppers and "sweet 'taters" to "season" and "trim" the varmint. Call again, Wingless Seraph!

LA GRANDE ADOPTS COMMISSION FORM

Portland has the commission form of government and likes it so far as she has gone, though as was expected, some defects have been found in her charter. This can easily be corrected and as others crop up, as they will, they also can be taken care of. It was not expected the charter would be found perfect, but it is more nearly so than was thought possible. Baker has the commission form and is making no complaints, and now La Grande has voted the very latest in the way of city charters, at a recent election adopting the managerial commission form.

Another election will be held sixty days from the first at which three commissioners will be elected to manage the affairs of the city, just as a board of directors manage the affairs of a private company. This board will select a city manager, and La Grande intends to select a municipal expert, one who will devote his entire time to the city's affairs, and who will be directly responsible to the board, which can discharge him at any time.

We predict that the time is not far off when all the cities will be run under some such plan as this, and the old fashioned way of making the city's business no one's business will go into the discard to remain.

DEMONSTRATION WORK SHOWN IN INTERIOR

PROF. THOMAS SHAW VISITS
CENTRAL OREGON

Railroads Conduct Tour of the State
for the Benefit of the
New Settlers

A two weeks' tour of Central Oregon's remoter settlements giving institutes for farmers has been concluded by Prof. Thomas Shaw, the author expert on agriculture. He was accompanied by Prof. H. T. French who recently left the Idaho University to take charge of the agricultural extension work of the Oregon Agricultural College at Corvallis. This plan, authorized at the last session of the legislature, comprehends placing a man in every county of the state to carry on demonstration work in a practical manner, aiming to save a great amount of lost time and expense to the dry farmer and the irrigation farmer, as well.

The tour was conducted by the Spokane, Portland and Seattle and Oregon Trunk railways. One and two meetings were held daily at widely separated points in Crook, Harney and Malheur counties. Audiences composed of farmers and homesteaders gathered at remote points and the eagerness with which they greeted the lecturers and propounded questions touching upon the problems of raw land beginnings, showed undeniably how welcome the information was. In the Catlow Valley about 150 families have come in to the country within a year. Some of the settlers are very well-to-do. The unoccupied lands are being cut up and lots of fencing is being built.

A big showing has been made on the first year homesteads. In strictly dry land regions there has been an excess of moisture this season, so the settlers are favored. All crops are bountiful. With horse feed and a potato crop the first year, beginners find little to complain about.

Experiment station work is carried on at Prineville, Burns and Ontario, the latter being a private affair. Dr. Shaw advocates dry land alfalfa and also growing food for fodder. The first planting of alfalfa on bench dry land at Prineville was pronounced successful. As a result of his trip, the demonstration farm work is to be pushed ahead vigorously. He preached "dual purpose" cows to the farmer.

D. C. Freeman, the publicity agent of the S. P. & S. states that a very excellent class of people are going into the Central Oregon country. Among them are college graduates who are going in for small farming and livestock raising. The cultivated interior section has produced abundantly of general crops. The quality of exhibits shown at the Harney county fair was first-class, he says. They could have been much greater had more people remembered to prepare exhibits. The Crook county fair was a great success.

There is said to be 500,000 bushels of grain in Harney county which cannot have an outlet until rail transportation taps this section. The railroad is 75 miles distant from Burns.

STATE GAME WARDEN FINLEY GIVES WARNING

CALLS ATTENTION TO THE NEW
FEDERAL LAWS

Migratory Birds Flying From One
State to Another Protect-
ed in Certain Hours

Hunters are cautioned to remember the new Weeks-McLean game statute provides a closed season on all migratory birds that fly from one state to another between the hours of sunset and sunrise. Hunters who have been shooting on the supposition that the Oregon law, allowing shooting one hour before sunrise and one hour after sunset as well as all day, will accordingly have to mend their ways, for the federal statute takes precedence over all state statutes, and the newly appointed federal game wardens will be out this week.

State Game Warden Finley, who is also federal commissioner to see to the enforcement of this game law, has had prepared the following table indicating the hours between which it is lawful to shoot:

	Sunrise	Sunset
October 12	6:24	5:31
October 19	6:33	5:19
October 26	6:43	5:07
November 2	6:53	4:56
November 9	7:03	4:47
November 16	7:13	4:39
November 23	7:23	4:33
November 30	7:32	4:28
December 7	7:40	4:26
December 14	7:46	4:26
December 21	7:50	4:28
December 28	7:53	4:33
January 4	7:53	4:39
January 11	7:51	4:47
January 18	7:47	4:56

Redmond and Vicinity

Miss Butler Sick—
Miss Myrtle Butler, head saleslady in the Lynch & Roberts department store in this city, is confined to her home by an attack of illness.

Free Matinee—
Last Friday, the anniversary of the Sparks Theater, was celebrated by a free matinee to the children. The little ones greatly appreciated the liberality of Mrs. Sparks, the owner.

Gasoline Engine for Sale—
Having installed a two-horsepower electric motor in the office, The Spokesman has a nearly new three-horsepower air cooled gasoline engine for sale at a reasonable price. Engine is in good condition and a very economical consumer of fuel. Call at The Spokesman office for further particulars.

Will Use Big Motor—
The Redmond Feed & Mill Co. has ordered a 15-horsepower electric motor for their mill and expect to have same installed in a short time. This is the largest motor so far to be used for power in the city. The motor will displace a gasoline engine now being used.

Sparks Theater—
Thursday and Friday night the "Tale of Old Tahiti," in two reels; "Peril of the Dance Hall" and "A Corner in Crooks" will be shown. Show starts at 8 o'clock sharp.

Shipment of Sheep—
Last week the Oregon Trunk Railway shipped 28 carloads of sheep from this point to Chicago for C. McDaniels of Billings, Mont. The sheep were fed in transit at Plains, Mont., and the shipment reached its destination in about five days.

PLEASANT RIDGE

Rasmus Peterson made a trip to Anderson Bros' mill Tuesday for a load of lumber.

W. L. Perry and Mr. Syford hauled lumber from Anderson Bros' mill last Wednesday.

Mrs. Anderson was a Redmond visitor last Wednesday.

Messrs. Fuller and Farnum have been baling hay on the L. E. Smith place this week.

Mr. Whitmore is helping Dan Stout dig his potatoes.

Wayne Chase visited Friday night with Aubrey Perry.

Earl Wood spent Saturday night with Wayne Chase.

Rasmus Peterson and Otto Rutzler each are preparing to build cement cisterns.

Alex Duval Jr. has returned home from the Tumalo Project where he has been working for the past three months.

Mr. and Mrs. Chase and daughter Etta visited at the home of George Livesley at Deschutes Sunday.

Mr. and Mrs. Coryell and family, Mr. and Mrs. Doty and daughter Mabel attended church in Redmond last Sunday.

Alex Duval and wife visited at the "Only Ranch" Sunday.

Jake Peterson was a caller at the "Poplar Farm" Sunday.

Mr. and Mrs. Anderson attended the dance at Deschutes Saturday evening.

Geo. Gray and Aubrey Perry took supper at the "Poplar Farm" Sunday evening.

George Livesley of Deschutes, was in this section Monday on business.

Mrs. Provost and niece, Miss Bilsadeau, made a business trip to Deschutes Monday.

Tum-A-Lum Lumber Co. ORGANIZES AN ENGINEERING DEPARTMENT

We have recently organized, in connection with the Tum-A-Lum Lumber Co., an engineering department. It is the purpose of this department to aid in all questions along the building line that may arise.

Mr. Harold E. Crawford, a graduate architectural engineer, will be associated with the department and it is hoped that in the future we shall be able to render a real service whenever possible.

For prospective builders who are unable to get local architects to aid them in their problems, this department will submit sketches and will endeavor to advise in regard to the best methods of proceeding. For special jobs where such local service is not available, this department will furnish plans and brief specifications to our customers. Special instances superintendence during course of construction, whenever possible, may be furnished through this department.

In regard to the "Plan Book," copies of which we are now preparing, this department will be able to give plans and specifications any design therein and for any changes that may be desired in the designs. Estimates of the cost, the lumber bills, and bill of materials will be furnished for each design. This book, by the way, is the Plan Book of the day and has in it a great many practical plans fully described, also a number of excellent barn plans.

It is not our purpose, by organizing this department, to compete with local architects and contractors in the designing of local buildings, rather it is thought that we shall be able to aid customers who are not able to get such local men to serve them in this way, are endeavoring to improve our facilities in rendering efficient service to our customers.

Trusting that we may be of service to you in the future, we are, our engineering department, we are, Yours very truly,
