

Baking Tests Made With

SNOW FLAKE FLOUR

The New Flour

Manufactured in Redmond by the
Redmond Feed & Mill Co.

Have shown that "SNOWFLAKE" flour ranks way at the top of any flour made in Central Oregon. Those who have used the flour, both for baking bread and pastry, have nothing but good words to say about it. If you have not yet used

"SNOW FLAKE"

Flour we would like to have you try a sack of it, for we are certain the results will please you.

When you buy your next flour, specify

Snow Flake

The flour that makes light, flaky pastry and satisfaction-giving bread.
