REDMOND BEATS BEND BALL TEAM BY SCORE OF 7 TO 2

OPENING GAME OF THE SEASON PULLED OFF SUNDAY BEFORE A FAIR SIZED CROWD BETWEEN THE LOCALS AND A TEAM FROM THE TOWN ON THE RIVER—WEATHER WAS FINE AND PATRONS OF THE GAME ENJOYED THE SPORT—BURDICK PITCHED A SHUT-OUT GAME FOR SIX INNINGS

The base ball season in Redmond was formally opened Sunday afternoon with a game between the locals and the Bend team. None of the members of either club had played together this season and were somewhat rusty, but the game that was presented to the fans was all that could be expected, and was fully appreciated.

D. G. Burdick was on the mound for the locals for the first six innings and pitched a shut-out game, not a single one of the visitors getting as far as third base during that time. Burdick's support was good, and but few errors were made by either team.

J. G. Redmond of La Pine, umpired and gave good satisfaction to both teams. It is expected that a return game will soon be played at Bend. Following is the game in detail by innings:

First Inning—"Fatty" of Bend, went to the bat first, hit to second and was caught out at first; Caldwell hit to pitcher and

When the Locals Scored.

When the Locals Were Shut Out.

was caught at first; Kay hit to short and was nailed at the initial back.

In Redmond's half of the first A. E. Perry fanned, and Fleming and Tetherow followed suit.

Second Inning—Ferguson of Bend, was first man up and he

PROPOSITION TO DIVIDE THE CO. TAKEN UP IN NORTH END

MADRAS PIONEER SAYS PEOPLE IN THAT PART OF THE COUNTY ARE ENTHUSIASTIC OVER THE MATTER AND THAT PLANS ARE BEING FORMULATED TO BRING THE MATTER BEFORE THE VOTERS AT THE ELECTION IN NOVEMBER—EXPLANATION OF THE PROPOSED DIVISION AND PER CENT OF VOTES THAT ARE REQUIRED TO CARRY THE MEASURE

Madras Pioneer, April 2: The proposition of dividing the present area of Crook county at the coming election seems to be an assured fact, as far as the northern part of the county is concerned. The movement has been launched by its supporters in the different localities of the territory lying north of Crooked river and the dividing line of Gray Butte, Grizzly Butte and the divide through to the Wheeler county line. After the line strikes Crooked river, just south of Gray Butte, it is proposed to run along the section line west for a few townships and then north one township and then west again to the summit of the mountains.

A delegation from Madras visited Metolius, Culver and Opal City Tuesday of this week and the proposition was talked over and many interesting and surprising facts were brought to light as to valuation, amount of taxes paid, residents of the territory proposed to be cut off, and area. After discussing the matter with these people it is expected that they will also discuss it with their friends and neighbors, as to the general opinion and sentiment, and that in the very near future the work of preparing the petitions for circulation will be commenced, and in this connection it might be well to state that it takes 50 per cent of the legal voters registered at the last general election to sign these petitions before the measure can be placed on the ballot at the November election.

PROPOSE TO ORGANIZE A BASE BALL CIRCUIT

REDMOND, BEND, PRINEVILLE AND MADRAS INCLUDED

Plans Now Being Worked Out to Make a Four Club Organization

Persons in the city who are interested in baseball are talking up a proposition to try and organize a circuit of clubs for the coming season. It has been pointed out that good clubs can be organized at Redmond, Bend, Prineville, Madras and Sisters, and a series of games played at these towns during the season, thereby stimulating a good natured rivalry for securing the pennant.

Redmond now has a bunch of good material to make up a club that would give a creditable account of itself with any other team in the county, and the promoters of the proposed league will endeavor to interest the people here to secure their assistance in getting the club in condition and preparing suitable grounds for a ball park.

It is understood that Bend is working along the same lines, and the other towns mentioned above are all favorable for the organization of a league.

A little assistance on the part of all those interested in the game will tend to raise the amount needed for the local team and ground.

A meeting of those interested in getting up a good club here has been called for Friday (tomorrow) evening at Dr. Hosch's office, when it is expected some decisive steps will be taken looking toward organization.

HUGE, BUT INNOCENT HOAX IS PULLED OFF

PRACTICAL JOKER FOOLS A NUMBER OF PEOPLE

La Pine People on April First See a Supposed Rose Festival Balloon Explode

A La Pine dispatch of April 2 says: A big hoax was perpetrated here yesterday that had for its victims the entire population of La Pine and vicinity. A telegram, purporting to be from the Rose Festival Committee, addressed to La Pine's leading mechanic, was circulated among the automobile men, stating that the pathfinder of the Rose Festival balloon races was to pass over this town at 9 o'clock p. m., en route from Portland to Klamath Falls.

Not a soul questioned the authenticity of the message; by telephone and by word of mouth the news spread like wildfire, and by 8 o'clock a big crowd of sightseers was gathered on the streets. Promptly at 9 o'clock the whir of a monoplane was heard, and in the distance could be seen the lights of the air craft. The machine sailed high over the town, and just as it passed the Stearns meadow it was seen to explode and fall to the ground.

On foot, by team, on horseback and by automobile the populace hurried to the scene of the disaster and found a paper balloon that had been left over from the last Independence Day celebration to which an ordinary lantern was attached. The whir of the monoplane's wings had been made by an auto hidden in the woods.

FOREST NOTES

Canada has established a forest products laboratory in connection with McGill University at Montreal, on the lines of the United States institution of the same sort at the University of Wisconsin.

MANY MERCHANDISE ARTICLES NOW CARRIED BY PARCEL POST

NEW RULES COVER MATTER WHICH WAS HERETOFORE BARRED FROM THE MAILS—FULL LIST OF THE ARTICLES UPON WHICH THE BAN HAS BEEN REMOVED SINCE THE FIRST OF YEAR

Postmasters have received from the department at Washington further orders affecting matter that may be handled through the parcel post with regard to distribution of things that hitherto have been barred because of their destructibility or the fact that their presence might damage other mail or even endanger the clerks handling it. Briefly, these new provisions follow:

Oils or other liquids mailed for local distribution only, must be enclosed in glass or metal containers, heavily wrapped. The same articles, regardless of distance, may be mailed as follows: In bottles of not more than four ounces, a package containing 24 ounces in which the bottles must be packed watertight, may be sent. Bottles containing more than four ounces, under the same conditions, but packages must not hold more than 16 ounces. Pastes, salves and the like may be mailed under the same conditions.

Sharp-pointed tools must be capped or cased to prevent packages cutting. Metal pieces, such as plowshares, must have all edges and corners thoroughly protected.

Inks, powders, flour, snuff, neither poisonous nor explosive, may go when packed like liquids. Hides and pelts in the mail must be packed to prevent grease soaking through.

Cartridges and shells not mailable, but guns, unloaded, may be sent. Glassware, toys, millinery, musical instruments and other fragile articles, must be marked "fragile," and they will be handled with greatest care. Perishable goods must be so marked.

Butter, lard, fish, meats, vegetables, fowls, fruit, such as d-

NEW FAIR ASSOCIATION ELECTS ITS OFFICERS

PLAN TO HOLD FIRST ANNUAL FAIR THIS FALL

North End of the County Is Getting in Condition to Exhibit Their Products

At a meeting of the stockholders of the Madras Fair Association last week the following were selected as directors for the coming year: G. V. Stanton, O. A. Pearce, H. F. Dietzel, R. T. Olson and Howard W. Turner, says the Madras Pioneer of last week.

The directors in turn also had a meeting a few days later, at which time, O. A. Pearce was selected as president of the association for the coming year, and Howard W. Turner was selected as secretary, H. F. Dietzel as treasurer.

It is the purpose of the organization to go ahead this year with the fair, as the matter of the land title seems to be in a fair way of being straightened out in the very near future, and as some of the money has already been paid on the land, the balance of the payments are ready as soon as the deeds are made.

NAMES FOR MAILING

The Spokesman has the name of every taxpayer in Crook county, with their postoffice address. Persons desiring names for mailing or other purposes can secure same at this office at a reasonable figure.
