TESTIMONIALS FROM PATIENTS

OF DR. W. E. CASE, CHIRO-
PRACTOR, OF THIS CITY

The following are unsolicited tes-
timonials sent to Dr. W. E. Case,
Chiropractor, of this city, by pa-
tients whom he has cured:

The Dalles, Oregon,
June 15, 1909.

To Whom it May Concern:

I doctored for two years with doc-
tors for consumption, slept in a tent
by the doctors' orders in February
and in March. I took 30 adjust-
ments of Dr. W. E. Case and I am
now well and strong as I ever was.
W. W. ZACHARY.

The Dalles, Oregon,
June 7, 1909.

I write by permission from Mrs.
Zachary:

She said she had not seen a well
day for seven years, the cause being
female and kidney trouble, and con-
stipation, and so nervous, with
cramps and awful pains that com-
pelled her to keep her bed nearly
half of the time. She took six weeks
adjustments from Dr. W. E. Case
three months ago and says "I am
well and have never had a cramp or
pain since that time."
W. W. ZACHARY.

FOR RENT

Good horse alfalfa pasture, price
\$2.00 a month. C. I. Blair, Fair

and will be sold very reasonable.
Reason for selling—changed to elec-
tricity.

Tar Weakens Rope.

Rope is often tarred to protect it
from the weather. This is a somewhat
doubtful practice, as the acid in the
tar weakens the rope to such an ex-
tent that engineers estimate tarred
rope to be only two-thirds as strong
as clean, new rope. No kind of oil
or other preparation has so far been
found that will not injure the rope,
except tallow. Tallow and graphite
are used in making transmission rope
and for lubricating it when in use.—
Exchange.

Crete's Long Siege.

Crete endured the longest siege on
record, beside which Troy's ten years
seem but a skirmish. In 1648 the
Turks, attempting to conquer the is-
land, laid siege to the capital city of
Candia, which, however, did not sur-
render until September, 1669, after
twenty-one years. Again in 1821, when
the Cretans revolted, the defeated
Turks were able to hold the fortified
cities against all attacks, and many of
them were still uncaptured when the
powers intervened nine years later.

Redmond and Vicinity

Last week was an extremely hot
one in this section, one day the ther-
mometer going over 100 in the
shade. But it was great growing
weather and the people here were
willing to stand the heat as long as
the weather benefited the farmers.

mond Market, this week killed a six
weeks' old calf that he raised him-
self, that weighed 180 pounds. The

he raised the calf to the above
weight by giving it plenty of milk,
and that others could do the same

A Washington dispatch of the
16th says that Secretary of the In-
terior Lane predicts that the war in
Europe will result in a vast devel-
opment of the mineral and manufac-
turing resources of the United
States.

"It is possible so to develop and
utilize our mineral and manufactur-

west," said the secretary, "that the
label 'Made in the United States,'
will become familiar around the
world."
