

Prince Albert will show you the real road to smoke-joy!

PRINCE ALBERT was made to create tobacco content where it never existed before! It permits men to smoke all they want without getting a sore tongue, without any comeback but real tobacco enjoyment! The patented process by which Prince Albert is made (and controlled exclusively by us) fixes that—and cuts out bite and parch!

PRINCE ALBERT
the national joy smoke

comes right to your taste fair and square! And it will do for you what it has done for thousands of men—make pipe or cigarette smoking the cheerfulness of your pleasures!

On the reverse side of this tin you will find "Process Patented July 20th, 1907," which has made three men smoke pipes where one smoked before!

What we tell you about Prince Albert is a fact that will prove out to your satisfaction just as quickly as you lay in a stock and fire-up!

R. J. REYNOLDS TOBACCO CO., Winston-Salem, N. C.

PORTLAND STOCK MARKET
REMAINS ABOUT SAME

The prices received by our home shippers, and noted in these columns, represent fairly well quotations at North Portland for the week. Cows ranged \$7.50 to \$8. Top hogs about \$9.00. The sheep market is strong with prime light lambs at \$10.50, ewes at \$8.25, wethers \$9.00 and yearlings \$10.00.

the Misses Josephine and Cecile Manceau; Misses Lina and Mary Moore, Ebba Lindquist and Dorothy Wells, and Messrs. Otto Pauls, Herman and Bruce Lindquist and Edw. Moore.

J. R. Harvey of Prineville was in the Powell Butte neighborhood last Friday.

Mr. and Mrs. A. W. Bayn and Alvin Riggs went to Prineville Sunday morning, picked up Miss Gladys and Hazel and went on to Opal Springs.

Saturday Mrs. John Tuck came home from Redmond, where she has been keeping house for Arthur.

G. C. Truesdale has purchased a big iron gray mare and went to Opal City for her last Sunday. This gives him a fine match team of grays.

Saunders and French have had the good fortune to have 125 lambs already this season and not one orphan among them.

Dewey Moore was a dinner guest at the John Skeen home last Sunday.

M. C. Cornett and niece, Miss Serepta Johnson, visited Saturday and Sunday at the Cornett ranch.

Willie Pauls spent Sunday with Lloyd Bussett.

Friday evening, April 28, the Powell Butte Improvement Club will give their first dance in the new hall. A large crowd is expected from Redmond, Prineville, Bend, Deschutes and Tumalo. As W. F. King has promised that the Prineville band would donate their services, good music is assured. The ladies of the club who have so ably proved their culinary ability in the past, will serve supper.

Thursday evening the Powell Butte Improvement Club held its regular meeting. It was decided to make Friday and Saturday big days at the hall and at least ten men promised to be present both days to put on the ceiling. It was decided to make April 28th the date of the opening dance. W. M. Wilson, Earl Saunders, Allen Wilcoxon, Alvin Riggs and N. P. Alley were appointed a committee to take charge of the dance. Mesdames E. N. Hall, W. M. Wilson, Allen Wilcoxon and Miss Lina Moore were appointed as a committee on decorations, and Mesdames Moore, Rice, Yates, Sears and Alley on refreshments.

WAR NEWS

The German army has shot hundreds of millions of dollars' worth of ammunition to capture Paris, and have failed. Last year we shot about fifty thousand dollars' worth of merchandise out to our trade and succeeded—there is a reason, and that reason is that we have honestly endeavored to give our customers the very highest grade article obtainable for the price paid.

You will find at all times in our store as near a complete stock of merchandise as possible, and at the right price, as can be found outside of the city. We take pride in showing our line of shoes—shoes that contain absolutely no substitute for leather—and a complete assortment for any member of the family.

Our line of men's, boys' and children's hats and caps; men's, women's and children's hosiery, underwear, gloves, notions and novelties, and last, but not least, our line of groceries that is kept as complete and fresh as is possible with our experience.

NOTICE—Some day in the near future the European war will be over—we hope—but our efforts to please and further the confidence of our customers will never cease.

COME IN AND SEE US.

LIEVES SELECTION OF
SEED HELPED WIN PRIZE

BOY CORN CHAMPION SETS
MARK OF 140 BUSHELS TO
ACRE IN CONTEST

A new boy corn champion is named. Another great group of ears has been added to the so-called "red belt" of America.

At this time it is Joseph Boyer of Edge Place, near Walla Walla, who has won the prize. Last season Joe raised 149 bushels of dry shelled corn on a meadow acre, without the use of fertilizer. With this record he took place for yield per acre at the Pacific System Annual Corn show, held at Walla Walla early in September. Close behind were Geo. Hartman of Prosser, Wn., with a yield of 131 1/2 bushels, and Edward Key of Bingham, Wn., with a yield of 121 1/2 bushels.

A large club of boys at Malheur, averaged about 100 bushels per acre, the champion, believes in seed selection, and attributes his success to care in this essential item. By judicious selection of the best ears has doubled his yield in three years. Here is part of his own story:

The first important thing in corn raising is the selection of seed. The selection should be done in the field, his way it is easy to select the best and most perfect shaped ears, ways choose my seed corn from cobs which bear two or more good kernels and small cobs. I keep seed corn in a heated, but well ventilated room, until thoroughly dried. Then I store it in a dry room, preparing for a corn crop, in the land deep. The deeper the soil, the better. Then I harrow it thoroughly after the plow. To retain the moisture I harrow it until it is loose, and free from clods; then I plow it out in rows three feet apart. Use a single shovel in making the furrows; plant in the furrows, covering about two inches.

Making the furrows deep gives a chance to harrow my land deep, work the soil in around the plants until it is large enough the cultivator. It also helps to the moisture, as in planting this you don't get such high ridges over corn.

After the plants are four or five inches high I begin cultivating with a horse cultivator. I cultivate each week until the corn is tassled. The more you cultivate your corn the more moisture it will hold. We noticed that the land which is

LIME IS NECESSARY TO
NEUTRALIZE SOIL ACIDITY

That Lime is Important to Alfalfa, Vetch, Red Clover, Etc., Often Overlooked by Farmers.

One reason why lime is necessary for the successful growth of leguminous crops, such as alfalfa, vetch, red clover, etc., is often times forgotten by farmers. It is a well known fact that alfalfa requires a soil which is not too acid or sour. Successful alfalfa, however, cannot be grown without the presence of the necessary bacteria in the soil. These bacteria are even more susceptible to the effects of sourness than the crop itself. Consequently lime is necessary in the soil to neutralize soil acidity, if there be such, in order to allow the bacteria successfully to grow, and therefore inoculate the crop. A crop uninoculated is worthless, insofar as the building up of nitrogen is concerned.

These cultures may be obtained from the O. A. C. experiment station upon application. Cultures for two acres or less cost 40 cents; cultures for three acres and not to exceed 15 acres are charged for at the rate of 60 cents each.

LIMED LAND PRODUCES ABOUT
TWO AND ONE-HALF TIMES
AS MUCH PER ACRE

"Speaking of lime as a soil stimulant," said Manager J. C. Burch of the Beaver-Portland Cement company at Gold Hill, "reminds me of a demonstration made in the vicinity of Gold Hill last year. A farmer had three acres devoted to wheat. The soil was the same on the entire level tract. He concluded to try lime as a stimulant. He limed the middle acre, leaving the acre on each side of it just as it was and had been for years. Each outside acre produced 19 bushels of wheat, while the limed acre produced 47 bushels. The demonstration was convincing, so far as it applied to that type of soil. The land, although in a lime country, had been cultivated for many years."

There were clamorers against preparedness in Noah's time, too, but their names have not lived in history. —Palm Beach (Fla.) News.

cultivated most always produces the most corn per acre. I try to irrigate my corn directly after I give it the last cultivation. Corn should be irrigated often during the latter part of July and August.

"I do my planting between May 1 and May 10. Last year I planted about May 5 and 6. I planted yellow dent corn for my main crop. I find it out-yields any other variety I have ever grown. This makes the third year I have planted this variety. The first year I planted it, it yielded between 70 and 80 bushels per acre. Last year my yield was better. This year it yielded over 149 bushels per acre."

Correspondence

POWELL BUTTE

J. F. Rice is incorporating his old house into a new five-room house of the bungalow style.

Miss Ebba Lindquist came home from her school last Monday, having resigned her position on account of ill health.

Sig Rogstad, who run the wood saw for Clark Morse, returned to Redmond Thursday.

C. H. Erickson of Bear Creek was in this section last Monday to see Miss Mable Allen about teaching their school for the balance of the term. Failing to get Miss Mable's services, he went on to Prineville, where his quest was more successful. Mrs. Alice Sears came out from Prineville last week for a visit with her son, Guy Sears.

Ernest Fullbright of Aberdeen, Wn., who had been visiting with his aunt, Mrs. R. L. Moore, and family, for a few days, returned home last Wednesday evening.

Mr. and Mrs. W. T. Smith made a business trip to Prineville last Wednesday.

Otto Pauls was a dinner guest at the Lindquist home Sunday.

Owing to a funeral service at Terrebonne last Sunday, Rev. Lambert was not able to fill his appointment at Powell Buttes, and Mrs. Belle Grady preached in his stead.

Last Saturday Edward Williams had the misfortune to lose a thoroughbred black polled heifer from a blot.

Wilbur Yates, who has been working for S. D. Mustard for some time, left the first of last week for his home in Tillamook, Oregon.

Roy Skeen spent Saturday and Sunday at home.

Ross Bussett, who has been working on the Cline Falls road for the last three weeks, came home Saturday evening for several days stay.

Miss Gladys Pauls came out Friday evening to spend the week-end with her home folk.

Mr. Foss and son, Glenn, and daughter, Mrs. Mitchell, and her husband, of Terrebonne, spent Sunday at the Earl Saunders home. The two families are old acquaintances.

Dr. R. D. Ketchum, Republican candidate for county assessor, and Mr. and Mrs. Burt of Bend, motored through this section last Sunday distributing campaign literature.

Allen Wilcoxon and Clyde Moore came over from the road camp near Cline Falls Thursday evening to attend the regular meeting of the Powell Butte Improvement Club.

Mrs. Alley, Mr. and Mrs. Guy Sears and A. H. Rhode made a business trip to Bend last Saturday, returning by way of Deschutes and Redmond.

The first service to be held in the new hall will be the Easter services, and a number of those interested met at the Lindquist home Sunday to discuss and arrange plans for the event. The Misses Moore, Lindquist and Manceau were appointed on the program committee. The services will be at 2 o'clock, at which time Rev. Lambert will be out from Redmond, and an invitation has been extended to the choir of the Methodist church of Redmond to assist with the music.

Pauline Truesdale and Martha Horgan came out from Prineville and spent Saturday and Sunday at the Truesdale home.

Mr. and Mrs. J. F. Rice and Mr. and Mrs. William Wells spent Sunday afternoon at R. L. Moore's.

Sunday evening the following young people were dinner guests of
